4. APPLICATIONS FOR MINOR VARIANCE OR PERMISSION under section 45 of the Planning Act to be heard by the Committee this date:

4a.) Minor Variance Application D13/WRI – David Wright/Elizabeth Reade – Property described as Part of Lot 11, Concession 10, 161 Hume Road, Township of Puslinch.

Requesting relief from provisions of Zoning By-Law #19/85, as amended, requesting a reduced lot width of the severed parcel to be 10.0 metres instead of 24.3 metres as required.

- Lynne Banks outlined the application, advised that the notice requirements for the application had been met and then outlined the comments and objections that were received from the circulated agencies and public.
- Hugh Handy of GSP Group, consultant for the owner, provided an overview of the application, presented a power point presentation and advised that the severance conditions were set by the Township of Puslinch, provisional consent was granted by the County of Wellington Land Division

Committee and that the Consent Application is now under appeal through the LPAT. He also noted that the Minor Variance Application was deferred from the February 26, 2019 and the June 11, 2019 Committee of Adjustment meetings, and that the County is supportive of the minor variance. He further advised that the EIS field work is proceeding to completion on the property and that he and the owners of the property had met with Mr. & Mrs. Strachan to try to work towards a solution regarding the location of the proposed driveway, noting that the proposed driveway location cannot be changed due to provincially significant wetlands located on the west side of the property. He also noted that the grade of the proposed driveway will drop a bit to stay below the retaining wall and that the owners will keep the proposed driveway away from their property and as far from the retaining wall as possible.

- Karl Strachan comments: the main issue is the location of the proposed driveway and would like the proposed driveway location to be through the middle of the property or the west side of the property, noting that the proposed location of the driveway will affect their privacy.
- Brigitte Strachan comments: they had met with the owners but were unable to come up with a satisfactory solution to the location of the proposed driveway and noted that after looking at the County GIS mapping, the “flagpole” shape was not a common way to sever properties, that the owners of 161 Hume Road park their vehicles at the end of the driveway in the winter due to weather conditions not allowing the vehicles to get up the grade of the proposed driveway to be parked near the house. She also inquired that if they add animals to their property, how will it affect the MDS to the severed land.
- John Sepulis inquired how the proposed location of the driveway was decided.
- Hugh Handy advised that due to the wetlands and the required 30 metre buffer, the proposed driveway cannot be located on the west side of the property.
- Shannon Davison noted that the GRCA requires a 30 metre buffer from the wetlands and that the GRCA attended at the property to review the location of the wetlands in relation to the proposed driveway and that the proposed location of the house is outside the 30 metre buffer.
- Hugh Handy advised that there is a ridge that runs across the front part of the property which is why the proposed driveway is being located where it is shown on the sketch provided.
- John Slood asked what about the animals in the adjacent barn.
- Hugh Handy advised that the County ran the MDS calculations and noted that there are currently no animals located in the barn, however, the location of the proposed dwelling is far enough away from the barn should the abutting landowners ever acquire animals.
- John Slood stated that he doesn’t feel his concerns from the February 26, 2019 meeting have been addressed, is disappointed that no one has reached out to him to satisfy his concerns and that he had contacted Van Harten Surveying Inc. to request a meeting with the owners, but a meeting was never arranged. He also stated that he feels the minor variance application has been “rubber stamped”, that it is not a minor variance but a major variance and is disappointed in the committee for not reaching out to him. He further stated that he asked for a compromise but was not informed of the outcome of the meeting between the owners and the abutting owners, and that he is not opposed to the severance but is opposed to the minor variance and would like to know why can’t the proposed driveway be either relocated or the width of the proposed driveway changed from 10 metres to 20 metres. He also inquired why the property was for sale prior to the severance and what guarantee can be given that the owners won’t sell the retained lands in the property in the future, and why is the proposed location of the house close to the woodlot and wetlands and why it can’t be put somewhere else on the property. He further stated that he would like the fire department to review the revised grading plan and meet with him about it. He advised that he has not been provided with any documents to review and would like a discussion with the Committee to clean up the minor variance process.
- John Sepulis advised that whether or not the owner is selling the property is not germane to the issue. He further inquired as to whether or not the fire department reviewed and commented on the revised grading plan.
- Lynne Banks advised that the revised grading plan was not provided to the Township for review and comment prior to the meeting.
- John Sepulis inquired how the tree cutting on the property will be handled.
- Hugh Handy advised that the County will oversee what type and how many trees will be removed.

- Karl Strachan asked if there is a 30 metre wetland buffer then why is the driveway being allowed to be located at its proposed location.
- Brigitte Strachan inquired as to why the proposed driveway couldn't be located closer to the driveway on the retained parcel.
- Hugh Handy advised that the width of the proposed driveway was selected was not to locate by their property but located due to other issues and was discussed with the County, and further advised that the County confirmed site line issues on the west side.
- Dan Kennedy inquired what will be done to protect the abutting owners retaining wall located beside the proposed driveway.
- Hugh Handy advised that the wall condition and age is not known and that it could be a condition to of the minor variance approval to have it assessed and ensure that it will not be impacted by construction on the severed parcel.
- Dan Kennedy asked if there has been any discussions regarding privacy fencing.
- Hugh Handy advised that there have been discussions with the owner and neighbour but they have been unable to come up with a satisfactory solution.
- Paul Sadhra inquired how would water flow affect the retaining wall and is there a plan in place to address water flow near the retaining wall.
- Hugh Handy stated that the proposed driveway will be engineered prior to the permit application process.
- Paul Sadhra asked how will any possible damage to the retaining wall be dealt with.
- Hugh Handy advised that it would most likely be a civil matter between the owners.
- Paul Sadhra asked if the proposed driveway could be moved closer to the existing home on the retained parcel.
- Brigitte Strachan stated that it would still be visible from their property.
- Hugh Handy advised that the intent is to locate the proposed driveway as far as possible from the property line.
- Dennis O'Connor inquired how will the trees on the property be maintained.
- Hugh Handy advised that it is not a condition of the consent.
- John Sepulis asked why can't the proposed driveway be relocated 5 metres to the west.
- Hugh Handy stated that there is no environmental reason but that the parking pad and shed located on the property would have to be moved and that it is already located as far as it possibly can be located.
- John Sepulis inquired if the proposed driveway could be located in the middle of the property.
- Hugh Handy advised that there is a significant ridge across the front of the property.
- Dennis O'Connor asked if the wetlands are provincially significant.
- Shannon Davison advised that it is below 750 metres and could be complexed in due to significant wildlife habitats that would be protected by the Provincial Policy Statement.
- Hugh Handy noted that there could also be locally significant wildlife located there.
- Shannon Davison noted that their recommendation would be that it be classified as provincially significant wetlands.
- Dan Kennedy inquired why the proposed driveway can't be moved 10 metres or moved to the west side of the property.
- John Sepulis stated that it is due to the wildlife migration patterns.
- Dan Kennedy inquired if the migration patterns could be factored in.

COUNCIL CHAMBERS

There were no more comments or questions and the Committee had a discussion and the following was noted:

- Paul Sadhra stated that it is not a minor variance and that maintaining the integrity of the retaining wall is an issue and that there are too many variables.
- Dennis O'Connor stated that he would like a condition in the minor variance that the vegetative buffer be planted to protect the abutting neighbour's view, otherwise there are too many adverse impacts.
- John Sepulis noted that there were no objections when the severance application was presented to the committee.
- Dennis O'Connor noted that they need a reduced impact to the abutting neighbours.

The Committee voted on the motion with all opposed.

That Application D13/WRI requesting relief from provisions of Zoning By-Law #19/85, as amended, requesting a reduced lot width of the severed parcel to be 10.0 metres instead of 24.3 metres as required.

The request is hereby **Denied** for the following reasons:

1. That the proposed driveway width could be increased to locate the driveway further to the west of the property.
2. That the integrity of the retaining wall would need to be maintained during construction.

4(b). Minor Variance Application D13/CAL – William Calhoun - Property described as Rear Part Lot 6, Concession 1, 4 Lake Avenue PV, Township of Puslinch.

Requesting relief from provisions of Zoning By-Law #19/85, as amended, to permit a reduced side yard setback to be 0.74 metres instead of 2.0 metres as required.

- The owner provided an overview of the application.
- There were no public comments or questions.
- There were no comments or questions from the Committee.
- The owner inquired that since there are two building permits, one for the dwelling and one for the deck would he still be able to proceed with the work on the house.
- Lynne Banks advised that since the minor variance is for the deck then the 20 day appeal period will apply to the deck and not the house renovations.

The Committee voted on the motion with all in favour.

That Application D13/CAL, providing relief from provisions of Zoning By-Law #19/85, as amended, requesting relief from provisions of Zoning By-Law #19/85, as amended, to permit a reduced side yard setback to be 0.74 metres instead of 2.0 metres as required, is hereby **Approved** with no conditions.

10. ZONING BY-LAW AMENDMENT

10(a) Zoning By-law Amendment Application D14/SUN – Sunrise Therapeutic Riding & Learning Centre – Property described as Part of Lot 17 Concession 1 – 6920 Concession 1, Township of Puslinch.

The purpose and effect of the application is to amend Township of Puslinch Zoning By-law 19/85 to rezone the lands from Agricultural (A) to Agricultural Site Specific (A-) to permit a residential building to include 16 residential suites, 6 respite rooms for adults with special needs, office and administration area, kitchen, social gathering areas and multipurpose hall.

- Megan Geregthy provided an overview of the application and some background.
- John Sepulis inquired that if the application is for the entire property, could it not be limited to

the development area.

- Megan Geregthy advised that they worked with the County to come up with the best way to locate the building that will be used for the sleeping quarters.
- John Sepulis asked if there are any plans for future expansion on the property.
- Megan Geregthy advised that the zoning that has been requested allows for other secondary uses and would be limited in height.
- John Sepulis inquired if this would create new jobs in the Township.
- Ann Caine advised that there will be an increase in jobs, specifically because they will be adding a building that will require 24 hour support, life skill training would expand to 5 days per week instead of the current 2-3 days per week, resulting in the hiring of approximately 10 more staff.
- John Sepulis asked that if there are currently 30 parking spaces, will increasing it to 44 parking spaces will be adequate to meet their parking needs.
- Ann Caine responded that since it will mostly be for staff, 44 spaces will be adequate.

Committee Comments:

The Committee supports the undertaking, creating approximately 10 new jobs, and is satisfied that the building envelope is sequestered within the setbacks.

10(b) Zoning By-law Amendment Application D14/ELL – D.J. Ivan Elliot –Property described as Part Lot 17, Concession 1, municipally known as 6920 Concession 1, RR#2, Township of Puslinch.

The purpose and effect of the application is to amend Township of Puslinch Zoning By-law 19/85 to allow for a temporary use over a portion of the property from an Agricultural (A) to a Site Specific Zoning to permit a Garden Suite for an additional ten year period.

- Lynne Banks provided an overview of the application.
- Dennis O'Connor inquired how the Township can guarantee that it is permitted.
- Megan Ferris advised that the *Planning Act* allows for a term of 20 years, and that the owner would have to apply to the Township to renew the zoning for another 10 years.
- Dan Kennedy asked if there is any way to guarantee that the occupants that will be inhabiting the Garden Suite are one and the same as are noted in the agreement and that it is not being rented out to another individual.
- Lynne Banks advised that there is currently no mechanism in place to guarantee who is residing in the Garden Suite, and that the Township is relying on who the owner has listed in the registered agreement as inhabitants of the Garden Suite.

Committee Comments:

The Committee supports the application:

1. With the understanding that it is only to be inhabited by aging in-laws.
2. Subject to the agreement being registered on title.

PLANNING REPORT for the TOWNSHIP OF PUSLINCH

Prepared by the County of Wellington Planning and Development Department

DATE: August 13th, 2019
TO: Lynne Banks, Secretary-Treasurer
Township of Puslinch
FROM: Meagan Ferris, Senior Planner
County of Wellington
SUBJECT: MINOR VARIANCE APPLICATION D13 SID (Ravinder Sidhu)
563 Townline Road
Part Lot 1, Concession Gore

We have reviewed the application for minor variance and provide the following comments.

Planning Opinion

The applicant is proposing to remove the existing dwelling on site and replace it with a new dwelling that will be taller than permitted within the Zoning By-law. The variance requested would provide relief from Section 3 (8) to allow an increase in the building height of a dwelling by 2.5 metres (8.2 feet).

Based on the site location, which is a large residential lot within an agricultural area, the intent to situate the dwelling substantially far from the road, and existing vegetative buffering on site, there are no concerns or objections with this proposal. It is staff's opinion that this variance is minor in nature, maintains the intent and purpose of the Zoning Bylaw and County Official Plan and represents appropriate development.

The details of the minor variance application are included in the table below.

Section of By-law	Required	Proposed
Section 3 General Provisions Requirements (8) Height Restrictions	No building or structure anywhere within the zoned area shall exceed 10 metres in height	Requesting relief to permit a new dwelling with a maximum height of 12.5 m to the midpoint of the roofline

Our discussion of this application relative to the four tests under the Planning Act is as follows:

Four Tests	Discussion
That the requested variance is minor in nature	<ul style="list-style-type: none">The height relief requested is to allow for the construction of a dwelling with a modern architectural design on siteStaff considers the variance minor in terms of impact due to the context of the area and the existence of natural and spatial buffers (i.e. larger lots, existing, natural buffers). Further, the owner's agent has confirmed that the dwelling is intended to be setback substantially from the road (i.e. approximately 45.7 metres (150 feet)).
That the intent and purpose of the Zoning By-law is maintained	<ul style="list-style-type: none">The subject lands are zoned primarily as Agricultural (A), with a small portion containing the Natural Environment (NE) Zone.A single family dwelling is a permitted use within the Agricultural (A).

	<p>Zone.</p> <ul style="list-style-type: none"> • The intent of the subject application is to remove the existing dwelling and construct a new dwelling.
That the general intent and purpose of the Official Plan is maintained	<ul style="list-style-type: none"> • The subject lands are designated as Secondary Agricultural in the County Official Plan. • Single detached homes are permitted within the Secondary Agricultural area.
Four Tests	Discussion
That the variance is desirable and appropriate for the development and use of the land, building or structure	<ul style="list-style-type: none"> • The subject lands are approximately 1.96 hectares (4.8 acres) in size and the immediate, adjacent land uses are primarily larger, rural lots with dwellings situated on them. • It is understood the dwelling is proposed to be setback substantially from the road and front lot line. • There is existing natural features on adjacent properties and trees on the subject lands which help to provide a vegetative buffer between uses. • The variance is considered to be appropriate within the context of this area.

In conclusion, planning staff is of the opinion that the requested variance **does meet the four tests** of the *Planning Act*. I trust that these comments will be of assistance to the Committee in their consideration of this matter. We would appreciate a copy of the Committee's decision with respect to this application.

Hi Lynne,

Thank you for providing the above referenced application for review. Since this property is located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), but the activity(ies), as indicated, would not create a significant drinking water threat, the application can be screened out and it does not require a Section 59 notice under the Clean Water Act.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

If you have any further questions regarding this application, please contact me.

Hi Lynne:

Is this Lot 1, Rear Gore? If so, the historic Milroy property - Lots 1,2,3 Rear Gore is in our inventory. If this is the same lot, I can't tell if any of the heritage buildings are affected by this application.

PLANNING REPORT for the TOWNSHIP OF PUSLINCH

Prepared by the County of Wellington Planning and Development Department

DATE: August 2nd, 2019
TO: Lynne Banks, Development and Legislative Coordinator
Township of Puslinch
FROM: Zach Prince, Planner
County of Wellington
SUBJECT: MINOR VARIANCE APPLICATION D13 KUI (Jon Kuiper)
6680 Concession 1

We have reviewed the application for minor variance and provide the following comments. Please be advised that staff visited the site on July 31st, 2019.

Planning Opinion

The applicant is proposing to construct a new accessory structure on the property. The variance requested would provide relief from Section 3 (1)(c) to allow an increase in the building height of a dwelling by 3 metres (9.8 ft) and relief from Section 3 (1)(b) to allow an increase in the total lot coverage of five per cent by 1.85m² (20ft²).

Based on the site location, which is a large residential lot within an agricultural area with some adjacent residential dwellings, the accessory structure is setback from the road, and there is existing mature vegetative buffer on site, there are no major objections with this proposal.

The Committee should be satisfied that the application would maintain the general intent and purpose of the Official Plan and Zoning By-law, is desirable and appropriate for the development of the subject property and is minor. In addition, the Committee should be satisfied that the proposed accessory building is intended for personal use and not for commercial purposes. Planning Staff recommend that the Committee apply the following condition if the application is approved:

1. That the accessory structure cannot be used for commercial/industrial business purposes or habitation.

The details of the minor variance application are included in the table below.

Section of By-law	Required	Proposed
Section 3.1(c) General Provisions, Accessory Uses, Height Restrictions	No accessory building or structure in any zone shall exceed 5 metres in height.	Requesting a 3m (9.8ft) relief for proposed accessory structure height. For a total height of 8 m (26ft) on a property less than 1ha
Section 3.1 (b) General Provisions, Accessory Uses, Lot Coverage	No accessory building or structures on a lot shall not exceed five per cent of the lot area of the said lot	Requesting relief to permit an accessory building or structure that exceeds five per cent lot coverage by 1.85m ² (20ft ²)

Our discussion of this application relative to the four tests under the Planning Act is as follows:

Four Tests	Discussion
That the requested variance is minor in nature	<ul style="list-style-type: none">• The height relief requested is to allow for the construction of an accessory building for the storage of personal vehicles• Staff has evaluated the application in terms of impact to the context of the area and the existence of natural and spatial buffers (i.e. larger lots, existing, natural buffers), and the setback of the structure from the road.
That the intent and purpose of the Zoning By-law is maintained	<ul style="list-style-type: none">• The subject lands are zoned primarily as Agricultural (A)• An accessory building is a permitted use within the Agricultural (A) Zone.• The intent of the subject application is to build an accessory building for personal use.
That the general intent and purpose of the Official Plan is maintained	<ul style="list-style-type: none">• The subject lands are designated as Secondary Agricultural in the County Official Plan.• Accessory buildings are allowed in the Secondary Agriculture designation
That the variance is desirable and appropriate for the development and use of the land, building or structure	<ul style="list-style-type: none">• The subject lands are approximately 0.4 hectares (0.99 acres) in size and the immediate, adjacent land uses are primarily larger, rural lots with dwellings situated on them.• It is understood the structure is proposed to be setback from the road and front lot line by roughly 27m (88.5ft).• There is sufficient vegetative buffing on the property lone and along the roadway to screen the building. The building generally should not be visible to the neighbours.

In conclusion, planning staff is of the opinion that the requested variance **does meet the four tests** of the *Planning Act*.

I trust that these comments will be of assistance to the Committee in their consideration of this matter. We would appreciate a copy of the Committee's decision with respect to this application.

I believe that this property is plaqued. However, I cannot determine from the application where the accessory building will be located and whether it will negatively impact the heritage structures.

Hi Jana,

Thank you for providing the above referenced application for review. Since this property is not located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), the application can be screened out and it does not require a Section 59 notice under the Clean Water Act.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

If you have any further questions regarding this application, please contact me.

RE: **Application for Consent B42-19**
26 Old Brock Road, Township of Puslinch
Wesley & Sarah Huether

GRCA COMMENT:*

The Grand River Conservation Authority (GRCA) has no objection to the proposed severance application.

BACKGROUND:

1. Resource Issues:

Information currently available at this office indicates that both the retained and severed parcel contains floodplain and the lands adjacent to this feature and the Provincially Significant Mill Creek Puslinch Wetland Complex located on the adjacent property.

2. Legislative/Policy Requirements and Implications:

The proposed severed and retained parcels contain a natural hazard feature (floodplain) and lands adjacent to a natural heritage features (wetland) as identified by the Provincial Policy Statement (PPS, 2014) and the Core Greenlands in accordance to the County of Wellington Official Plan (2019). Development and site alteration is prohibited on lands adjacent to Provincially Significant Wetlands (PSW) unless it can demonstrated that the proposal would have no negative impacts on the feature and its ecological function. As the severed lot is located further from the PSW than the developed retained lot, it is in the opinion of GRCA staff that an Environmental Impact Study would not be required and do not anticipate a negative impact to the features as a result of the severance application.

Due to the presence of the above-noted features, both the retained and severed parcels are regulated by the GRCA under the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 150/06). Any future development or site alteration within the regulated area will require a permit from our office.

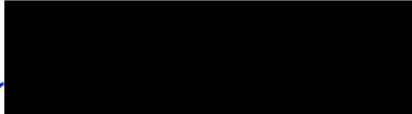

3. Additional Information/Suggestions provided in an advisory capacity:

Please note that under Questions 10 & 11 of the application it was indicated that the subject properties are not in proximity to a PSW and that it does not contain floodplain. We wish to clarify that both the severed and retained parcels are within 120 metres from the Provincially Significant Mill Creek Puslinch Wetland Complex and contain a portion of floodplain at the rear of the properties. Please refer to the attached map.

We wish to acknowledge receipt of the applicable plan review fee in the amount of \$410.00 for the processing of this application.

We trust the above information is of assistance. Should you have any further questions please contact Jenn Simons at ext. 2236.

Yours truly,

Fred Natolochny, MCIP, RPP

Attention: Deborah Turchet / Jana Poechman

Dear Deborah:

**Re: Application for Lot Line Adjustment & Related Easement –
Bill & Donna Harrison - 7644 Maltby Road East, Puslinch Township**

I represent **Bill & Donna Harrison** who jointly own & live at **7644 Maltby Road East, Puslinch Township** and wish to complete a small “**Lot Line Adjustment**” by acquiring a 5.5m wide strip of land from the abutting vacant property & adding this strip to the northeast side of their existing house parcel. Under separate title, Bill Harrison is the sole owner of the abutting vacant parcel from which the 5.5m strip would be taken. As part of this proposal, the Harrisons are also applying for a “**Consent for Easement**” over that portion of existing underground hydro ducts that cross the southerly corner of the vacant parcel to service the buildings on their existing house parcel @ 7644 Maltby Road East.

The attached “**Sketch for Lot Line Adjustment & Consent for Easement Applications**” illustrates the proposal & relevant features on both the existing house parcel @ #7644 & the abutting vacant parcel lying immediately to the northeast, that are the subject of our request. The Harrisons have a large accessory building whose main loading access & parking area is located on the rear, northeasterly side of the building. While the accessory building sits entirely on the existing house parcel @ #7644, the parking/loading access area and the primary vehicular access driveway for this accessory building are located partly on the existing house parcel and partly on the adjacent vacant parcel. Mr. Harrison is selling the vacant parcel of land, but first needs the “**Lot Line Adjustment**” to keep the parking & loading access areas with accessory building, and to provide sufficient room to permit vehicles to access the parking/loading areas via a re-aligned driveway. To completely separate the existing accesses to each of the 2 properties, part of the existing path & driveway system would be removed & re-aligned as shown by the shaded & hatched areas on the attached “Sketch”. Several years ago, the Harrisons had previously completed a Lot Line Adjustment to accommodate the accessory building, but unfortunately the old Lot

Line Adjustment doesn't quite encompass enough space to contain the infrastructure (parking area, loading access & access driveway) associated with it. At the very front of the vacant parcel is a pond that is designated as a "Wetland" by the GRCA & which is zoned as a "Natural Environment" area.

The existing house, garage & above mentioned accessory building are all serviced by a hydro transformer located on the existing house parcel, just slightly northeast of the stone garage. The underground hydro ducts connecting this hydro transformer to the main hydro line on Maltby Road, cut diagonally across the southerly corner of the vacant parcel. As part of this proposal, the Harrisons would also need "***Consent for Easement***" over that portion of the underground hydro ducts that lie on the vacant parcel to be sold. The proposed 3.0m wide hydro easement is also shown on the attached "Sketch".

I believe this proposal meets all the necessary Zoning & Official Plan criteria and a "**Preliminary Review**" conducted by County Senior Planner, Meagan Ferris, seems to indicate that the County is generally supportive of our applications. In support of our applications, the following items are enclosed:

- 1/ Completed "***Lot Line Adjustment Application***" form.
- 2/ Completed "***Consent for Easement Application***" form.
- 3/ Cheque payable to the "***Treasurer of Wellington County***" in the amount of **\$4340** to cover the LDC application fee.
- 4/ Cheque payable to the "***Grand River Conservation Authority***" in the amount of **\$410** to cover the GRCA Basic Review fee.
- 5/ Completed "***Source Water Protection Screening***" form.
- 6/ Our "***Sketch for Lot Line Adjustment & Consent for Easement Applications***" (10 full sized prints & one 11" x 17" reduction). (Registered in 2004) and
- 7/ Original deed **WC74064** (Registered in 2004) and current deed for existing house parcel (to be added to) registered in the name of William & Donna Harrison as instrument **WC419083** on Nov. 10/2014 (consolidation from last Lot Line Adjustment approved under LDC application B119-13) & easement registered as instrument **WC419084** on Nov. 10/2014 (approved under LDC application B135-13). Mortgage (**WC452458**)
- 8/ Current deed for existing vacant parcel (to be sold after 5.5m lot line adjustment severed from it) registered in the name of William Harrison as instrument **WC216712** on July 14/2008 (minus previous Lot Line Adjustment).
- 9/ The required surrounding neighbours "***Mailing Notification List***" (within 60m of subject property) has been requested from the Township & should be sent to you shortly.
- 10) Reference Plans 61R-11206 and 61R-20293.

If you require any additional information or have any questions, please do not hesitate to call me directly. We are anticipating our applications to be heard at the LDC hearing on September 12 and would appreciate confirmation of this at your earliest convenience.

Attention: Deborah Turchet / Jana Poechman

Dear Deborah:

**Re: Application for Lot Line Adjustment & Related Easement –
Bill & Donna Harrison - 7644 Maltby Road East, Puslinch Township**

I represent **Bill & Donna Harrison** who jointly own & live at **7644 Maltby Road East, Puslinch Township** and wish to complete a small “**Lot Line Adjustment**” by acquiring a 5.5m wide strip of land from the abutting vacant property & adding this strip to the northeast side of their existing house parcel. Under separate title, Bill Harrison is the sole owner of the abutting vacant parcel from which the 5.5m strip would be taken. As part of this proposal, the Harrisons are also applying for a “**Consent for Easement**” over that portion of existing underground hydro ducts that cross the southerly corner of the vacant parcel to service the buildings on their existing house parcel @ 7644 Maltby Road East.

The attached “**Sketch for Lot Line Adjustment & Consent for Easement Applications**” illustrates the proposal & relevant features on both the existing house parcel @ #7644 & the abutting vacant parcel lying immediately to the northeast, that are the subject of our request. The Harrisons have a large accessory building whose main loading access & parking area is located on the rear, northeasterly side of the building. While the accessory building sits entirely on the existing house parcel @ #7644, the parking/loading access area and the primary vehicular access driveway for this accessory building are located partly on the existing house parcel and partly on the adjacent vacant parcel. Mr. Harrison is selling the vacant parcel of land, but first needs the “**Lot Line Adjustment**” to keep the parking & loading access areas with accessory building, and to provide sufficient room to permit vehicles to access the parking/loading areas via a re-aligned driveway. To completely separate the existing accesses to each of the 2 properties, part of the existing path & driveway system would be removed & re-aligned as shown by the shaded & hatched areas on the attached “Sketch”. Several years ago, the Harrisons had previously completed a Lot Line Adjustment to accommodate the accessory building, but unfortunately the old Lot

Line Adjustment doesn't quite encompass enough space to contain the infrastructure (parking area, loading access & access driveway) associated with it. At the very front of the vacant parcel is a pond that is designated as a "Wetland" by the GRCA & which is zoned as a "Natural Environment" area.

The existing house, garage & above mentioned accessory building are all serviced by a hydro transformer located on the existing house parcel, just slightly northeast of the stone garage. The underground hydro ducts connecting this hydro transformer to the main hydro line on Maltby Road, cut diagonally across the southerly corner of the vacant parcel. As part of this proposal, the Harrisons would also need "Consent for Easement" over that portion of the underground hydro ducts that lie on the vacant parcel to be sold. The proposed 3.0m wide hydro easement is also shown on the attached "Sketch".

I believe this proposal meets all the necessary Zoning & Official Plan criteria and a "Preliminary Review" conducted by County Senior Planner, Meagan Ferris, seems to indicate that the County is generally supportive of our applications. In support of our applications, the following items are enclosed:

- 1/ Completed "Lot Line Adjustment Application" form.
- 2/ Completed "Consent for Easement Application" form.
- 3/ Cheque payable to the "Treasurer of Wellington County" in the amount of \$4340 to cover the LDC application fee.
- 4/ Cheque payable to the "Grand River Conservation Authority" in the amount of \$410 to cover the GRCA Basic Review fee.
- 5/ Completed "Source Water Protection Screening" form.
- 6/ Our "Sketch for Lot Line Adjustment & Consent for Easement Applications" (10 full sized prints & one 11" x 17" reduction). (Registered in 2004) and
- 7/ Original deed **WC74064** (Registered in 2004) and current deed for existing house parcel (to be added to) registered in the name of William & Donna Harrison as instrument **WC419083** on Nov. 10/2014 (consolidation from last Lot Line Adjustment approved under LDC application B119-13) & easement registered as instrument **WC419084** on Nov. 10/2014 (approved under LDC application B135-13). Mortgage (**WC452458**)
- 8/ Current deed for existing vacant parcel (to be sold after 5.5m lot line adjustment severed from it) registered in the name of William Harrison as instrument **WC216712** on July 14/2008 (minus previous Lot Line Adjustment).
- 9/ The required surrounding neighbours "Mailing Notification List" (within 60m of subject property) has been requested from the Township & should be sent to you shortly.
- 10) Reference Plans 61R-11206 and 61R-20293.

If you require any additional information or have any questions, please do not hesitate to call me directly. We are anticipating our applications to be heard at the LDC hearing on September 12 and would appreciate confirmation of this at your earliest convenience.

Thank you!

Hi Jana,

Thank you for providing the above referenced application for review. Since this property is not located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), the application can be screened out and it does not require a Section 59 notice under the Clean Water Act.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

If you have any further questions regarding this application, please contact me.

RE: **Application for Consent B43-19**
Part Lot 15, Concession 9, Township of Puslinch
William Harrison

GRCA COMMENT:*

The Grand River Conservation Authority (GRCA) has no objection to the proposed lot line adjustment.

BACKGROUND:

1. Resource Issues:

Information currently available at this office indicates that both 7644 Maltby Road E and the lands to be merged with contains land adjacent to a wetland.

The proposed retained parcel contains a portion of the Provincially Significant Mill Creek Puslinch Wetland Complex and the lands adjacent to this feature.

2. Legislative/Policy Requirements and Implications:

The subject properties contain a natural heritage feature (wetland) and the lands adjacent to the feature, as identified by the Provincial Policy Statement (PPS, 2014) and the Core Greenlands in accordance to the County of Wellington Official Plan (2019). As outlined in the PPS and County of Wellington Official Plan, development or site alteration is not permitted on adjacent lands to Provincially Significant Wetlands unless it is demonstrated that there will be no negative impacts on the natural feature or its ecological function. Additionally, the County of Wellington Official Plan indicates that development in or adjacent to the Core Greenlands system requires an environmental impact assessment demonstrating that the requirements of the Official Plan have been met.

We understand that proposed lot line adjustment is to provide a viable access driveway to the rear accessory structures at 7644 Maltby Road East. As both 7644 Maltby Road and the parcel to be merged with are developed and the proposed development is further from the PSW than the developed retained lot, it is in the opinion of GRCA staff that an environmental impact study would not be required. Furthermore, there is no creation of a new lot or change land use. As such, GRCA staff would not anticipate impacts to the natural heritage feature as a result of this lot line adjustment application.

Due to the presence of the above-noted features, a portions of the parcels are regulated by the GRCA under the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 150/06). Any future development or site alteration within the regulated area will require a permit from our office.

We acknowledge the proposed installation of a driveway and the addition to the accessory structure as indicated on the site plan. We advise that a GRCA permit will be required for this proposal. Furthermore, we note that a significant portion of the retained land is regulated by the GRCA. If development is proposed within the regulated area, we recommend consultation with GRCA staff prior to submitting a permit application to ensure appropriate setbacks from the wetland have been established.

3. Additional Information/Suggestions provided in an advisory capacity:

We wish to acknowledge receipt of the applicable plan review fee in the amount of \$410.00 for the processing of this application.

We trust the above information is of assistance. Should you have any further questions please contact Jenn Simons at ext. 2236.

Attention: Deborah Turchet

Dear Ms. Turchet:

**Re: Lot Line Adjustment Application and Sketch
4700 Watson Road South
Part of Lot 12, Concession 9
PIN 71187-0110 & 71187-0100
Township of Puslinch**

Please find enclosed an application for a Lot Line Adjustment Severance and Sketch on the above-mentioned property. Included with this submission are copies of the Severance Sketch, completed application form, the required deed, PIN report and map, addresses of neighbouring properties, Source Water Protection Form, a cheque to the GRCA for \$410 and a cheque to Wellington County for \$4,340.

Proposal:

The proposal of this lot line adjustment is to sever a large portion of the vacant land from No. 4700 Watson Road South (PIN 71187-0110), owned by Robert (Bob) Ireland and merge it with the vacant parcel to the northeast (PIN 71187-0100), owned by Bob's son, Bradley Ireland. The purpose of the lot line adjustment is to reconfigure the boundaries so that the existing rural residence can be separated from the large "farm" parcel which will remain vacant.

The Severed Parcel has an area of 32.9±ha and consists of vacant land. The Lands to be Added to is also vacant. The Retained Parcel will have an area of 2.8±ha where the existing dwelling, shop, septic and ground source heating will remain.

The proposed lot line adjustment follows the guidelines in Section 10.4.6 of the Wellington County Official Plan for lot line adjustments of lands that are designated Secondary Agricultural. This section states that lot line adjustments are permitted as long as there is no adverse effect on agricultural operations. This severance meets that requirement as there the land use will not change; the parcels will instead be reconfigured for ownership purposes.

LAND SURVEYORS and ENGINEERS

The Merged Parcel will have a frontage of 39±m which is under the minimum lot frontage of 121.9m as required in the Zoning By-law for Agricultural parcels over 4.0ha in area. The intent is to apply for a Minor Variance pending severance approval. Although under the minimum requirement, a safe entrance exists on the merged parcel and it will continue to be functional and therefore we feel the variance is considered minor.

Please call me if you or the Planning Staff have any questions.

Very truly yours,

Hi Jana,

Thank you for providing the above referenced application for review. Since this property is located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), but the activity(ies), as indicated, would not create a significant drinking water threat, the application can be screened out and it does not require a Section 59 notice under the Clean Water Act.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

If you have any further questions regarding this application, please contact me.

RE: **Application for Consent B46-19**
4700 Watson Road South, Township of Puslinch
Robert Ireland

GRCA COMMENT:*

The Grand River Conservation Authority (GRCA) has no objection to the proposed lot line adjustment.

BACKGROUND:

1. Resource Issues:

Information currently available at this office indicates that the severed parcel contains portions of the Provincially Significant Arkell Corwhin Wetland Complex and the lands adjacent to these features.

The proposed retained parcel does not contain any features of interest.

2. Legislative/Policy Requirements and Implications:

The severed parcel contains a natural heritage features as identified by the Provincial Policy Statement (PPS, 2014) and the Core Greenlands, Greenlands System and Earth Science ANSI in accordance to the County of Wellington Official Plan (2019). We understand that the proposed severed lot will be merged with an abutting vacant lot that does not contain any features of interest. As no additional development is proposed on the severed or merged parcel, GRCA staff would have no objection to this lot line adjustment application.

Due to the presence of the above-noted features, a portion of the ~~retained~~ and severed parcels are regulated by the GRCA under the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 150/06). Any future development or site alteration within the regulated area will require a permit from our office.

3. Additional Information/Suggestions provided in an advisory capacity:

We wish to acknowledge receipt of the applicable plan review fee in the amount of \$410.00 for the processing of this application.

We trust the above information is of assistance. Should you have any further questions please contact Jenn Simons at ext. 2236.

Attention: Ms. Deborah Turchet

Dear Ms. Turchet:

**Re: Severance Application & Sketch
7000 Wellington Road No. 34
Part of Lot 20, Concession 3
PIN 71200-0151
Township of Puslinch**

Please find enclosed an application for a severance on the above-mentioned property. Included with this submission are copies of the severance sketch, completed application form, PIN report and map, the required deeds, addresses of neighbouring properties, a cheque to the GRCA for \$410 and a cheque to Wellington County for \$4,340.

Proposal:

The proposal is to create a new rural residential parcel along Wellington County Road No. 34 with a frontage of 27±m, depth of 152±m, for an area of 0.4±ha. The severed parcel was configured to have the same depth as the other three parcels to the west. The severance is an efficient use of open space with flat terrain and safe access for the entrance can be provided.

The retained parcel will have an area of 7.0±ha where the existing dwelling will remain. The retained parcel will have a reduced frontage of 88±m instead of 121.9m as required for parcel over 4.0ha and a Minor Variance Application will be submitted to the Township of Puslinch. The reduced frontage is minor and the existing entrance will continue to function properly with safe sight lines.

The parcel has a designation of Secondary Agricultural in the County of Wellington Official Plan which allows for a severance, provided that certain criteria (Section 10.4.4) are met. We reviewed this section and we provide the opinion that the relevant criteria are met including the following:

- The severed lands are designated Secondary Agricultural.
- Ownership is longer than 5 years.
- No severance since March 2005.
- Safe entrance is available.
- Adequate space for new dwelling and septic.
- No impacts on environmentally sensitive lands or woodlot.
- MDS requirements are met.
- Zoning requirements are met for the severed parcel.

In summary, this severance is a very practical and follows the relevant criteria for severances.

Please call me if you or the Planning Staff have any questions.

Very truly yours,

RE: **Application for Consent B44-19**
7000 Wellington Road 34, Township of Puslinch
Resham & Jasvir Sadhra

GRCA COMMENT:*

The Grand River Conservation Authority (GRCA) has no objection to the proposed severance application.

BACKGROUND:

1. Resource Issues:

Information currently available at this office indicates that the retained parcel contains a portion of lands adjacent to the Provincially Significant Mill Creek Puslinch Wetland Complex located on the neighbouring property.
The proposed severed parcel does not contain any features of interest.

2. Legislative/Policy Requirements and Implications:

The severed parcel contains lands adjacent to a natural heritage features as identified by the Provincial Policy Statement (PPS, 2014) and the Core Greenlands in accordance to the County of Wellington Official Plan (2019). As the severed lot does not contain any features of interest, and no additional development is proposed on the retained parcel, GRCA staff would have no objection to this severance.

Due to the presence of the above-noted features, a portion of the retained parcel is regulated by the GRCA under the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 150/06). Any future development or site alteration within the regulated area will require a permit from our office.

3. Additional Information/Suggestions provided in an advisory capacity:

We wish to acknowledge receipt of the applicable plan review fee in the amount of \$410.00 for the processing of this application.

We trust the above information is of assistance. Should you have any further questions please contact Jenn Simons at ext. 2236.

Yours truly,
