Subject: Townline Road concerns

Good morning ladies and gentlemen,

I am sure you have received numerous emails from our neighbourhood already and you probably don't really want to entertain another one telling you we need to slow down the traffic on our piece of Townline. I'm also sure you've heard that we might be able to do this if we install 3 way stops at 34 and Townline, River Road and Townline and Rozell Rd and Townline. I'm sure you don't want to hear that we also need more signs, hidden driveways, school bus stopping, children at play, no truck traffic and possibly even reduce the speed limit? You've heard our pleas as well to PLEASE NOT sell this piece of road to Cambridge. We don't want the sidewalks, we don't want the trail, we don't want the roads wider and we are certainly afraid that our piece of the road will become a thru way at some point in the near future. I don't need to go over that with you again, you know it...but what you may not know, is what its like to live out here. Let me tell you...and this won't take long...Please, just for a moment, imagine you live in the city, the hustle and bustle of daily life at work in the city and now its holiday time....You are heading up north to God's country and maybe going fishing with your family or friends, maybe you have a nice cottage or you might even just be sleeping in a tent for a night or two...you might hit the beach?? None the less, you look forward to your very first night there and you sit around the camp fire, listening to the wild dogs howling, you hear the crickets and the frogs, you lie on your back in the tall grass and you stare up at the stars...you can't imagine there are so many...you search for the big dipper and its little brother, you find the brightest star, you make a wish on the falling ones...you are thankful for the peaceful dark night sky with the crisp, clear full moon. Now imagine someone turns the lights on.....Please don't give Cambridge the opportunity to take our stars

Make it a great day!! Remember, the things that matter, are not things. Marj
