## REPORT ADM-2013-007

---

TO: Mayor and Members of Council

FROM: Karen Landry, CAO/Clerk

SUBJECT: Records Retention By-law

---

### **RECOMMENDATIONS**

That Report ADM-2013-007 regarding the Records Retention By-law be received; and

That Council authorize retaining an annual subscription service from the Information Professionals in the amount of approximately \$3,900.00 initially which includes a one day training session for all office staff and \$300.00 thereafter annually to be funded from the General Governance – Legal Services Account;

That Council enact a by-law to adopt the Records Retention By-law in accordance with Appendix “A” to Report ADM-2013-007, and repeal By-law No. 30-1966.

### **DISCUSSION**

On December 29, 1966, Council adopted Records Retention By-law No. 30-1966. Since that time significant changes have occurred to the areas of municipal responsibility and the subsequent scope of the classification of documents under municipal jurisdiction.

### TOMRMS

The Ontario Municipal Records Management System (TOMRMS) is a subscription file classification system commonly used by municipalities across the Province of Ontario.

The system was developed by Arenburg Consultants in conjunction with the Association of Municipal Clerks and Treasurers of Ontario. The system was established with municipal records in mind and requires that all records be organized solely on the basis of their subject matter.

Every year municipalities using TOMRMS receive updated classifications and retentions through a subscription service provided by “The Information Professionals” to ensure that retention periods that are assigned to respective classifications are up-to-date with current legislation. Michael O’Shea, has been involved in Records and Information Management consulting for over 25 years. He is the former owner of Arenburg Consultants, he was Director of Consulting Services for TAB/Datafile and has been the General Manager of Recall Canada. He is one of the most respected international experts in traditional and emerging forms of information technology. He is currently President of The Information Professionals. The

company provides consulting services to clients at all levels of government and all industry sectors. He has provided consulting services across North America, Europe, Africa and the Middle East. He is also a voting member of the Canadian General Standards Board's committees on Microfilm, Imaging and Electronic Records as Documentary Evidence.

Each year, The Information Professionals complete an annual review of the TOMRMS Records Retention Schedule. As part of their annual review, "FileLaw" which is an electronic version of a Carswell publication *Records Retention, Statutes & Regulations* is used to research statutes and regulations which are applicable to the day-to-day operations of Ontario municipalities.

### **Proposed Records Retention By-law and Records**

The purpose of this report is to adopt an updated Records Retention By-law which is current and accurately reflects the records that are maintained by the Township in order to:

- carry on its business; and
- maintain its records to ensure compliance with all applicable legislation

A "Record" is defined as a record of information, regardless of physical form or characteristics, and may include books, documents, maps, letters, papers and any other information that is written, recorded, photographed, or stored in any manner including electronically.

There are basically four reasons for retaining records:

**Administrative value** – Records have value to the municipality if it assists in the performance of current or future activities. Normally these records lose their value shortly after completion of its activity and therefore few would be retained.

**Legal value** – The value of these types of documents usually do not diminish over a period of time. These documents are usually required by legislation. By-laws, minutes, and land transactions are examples of this type of record.

**Fiscal value** – These records relate to financial transactions, such as, financial ledgers, debenture records, audit files, budget files, expenditure files, etc.

**Research/Historical value** – Records that may contain information on persons, places, and events as they relate to major milestones, history, or development of the municipality and its citizens.

The proposed records retention by-law complies with the principles of the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA). Under MFIPPA, individuals can request, and have a right to, access any record in the custody or under the control of a municipality (subject to specific exemptions and the protection of personal information). Good records management is essential to support the Freedom of Information process to properly document municipal programs and activities. Municipal institutions must ensure that reasonable measures are defined, documented and put in place to protect records from inadvertent destruction or

damage and to maintain records in a well-organized manner to allow members of the public a reasonable opportunity to exercise their Freedom of Information rights.

Under the *Municipal Freedom of Information and Protection of Privacy Act*, Councillors' records are considered "personal" records that are not subject to the *Act* where they are not related to the discharge of the councillor's responsibilities as a member of Council or to some aspect of the Township Council's mandate, and they are not in the custody or control of the Township. A careful analysis of all relevant factors is required. Situations where the Information and Privacy Commissioner has determined that a councillor's records were not within the jurisdiction of the *Act*:

- is where the councillor's personal records are held by the councillor in the capacity of an elected representative of a constituent and relate to the councillor's mandate and function as an elected representative only
- where the records are only held by the councillor, have never been integrated into the municipal files, and the municipality has no authority to possess, regulate, dispose of or otherwise deal with the records
- where a councillor is acting on behalf of the constituent in furthering the constituent's interest rather than the interests of the corporation or Council, and the municipality does not have custody or control of the records

From a Records Management perspective, it is our objective to maximize the value and benefits of the Township's information resources while minimizing the cost of acquiring, maintaining and disposing of these resources. Our Records and Information Management procedures will provide for the establishment of active records and maintain the integrity of information and authenticity of Township records. It will ensure the preservation and protection of information that is vital to the essential functions of the Township during an emergency or that is essential to the legal rights and interests of the Township, its residents and stakeholders. The procedures will also promote the application of a system that will provide for the efficient organization and maintenance of records to facilitate retrieval and use, the creation and capture of records within the established records keeping system and prevent the creation of unnecessary records in any type of media, the storage of records and provide access to records while meeting the legislative requirements of the *Municipal Freedom of Information and Protection of Privacy Act*.

The proposed records retention by-law has been prepared, updated and formatted in conjunction with MFIPPA and the establishment of a file classification system. Retention periods have been established taking into consideration the Township's administrative/operational, fiscal or historical records keeping needs.

The proposed records retention by-law also identifies Vital Records needed first in an emergency situation should a disaster occur. Vital Records are considered information which the municipality would require the next day to be up and running during any disaster.

As we move forward, Schedule "A" to the proposed records retention by-law will be reviewed on an ongoing basis in conjunction with the annual TOMRMS updates. A Staff Records Management & Retention Group will be established and meetings will be scheduled twice a

year. Accordingly, any amendments to the classification or retention periods will be presented to Council as an amendment to the by-law.

Upon approval of this Report, staff will arrange to obtain the subscription service from “The Information Professionals” and ensure that all retention periods at a minimum meet the legislative obligations. Then the proposed by-law will be forwarded to the Township’s Auditor for review and comment. Upon completion of the Township’s Auditor’s review the By-law will be listed on a future Council agenda for adoption.

### **Next Steps**

1. Review the proposed By-law together with the Archival Citation Table obtained from the “Information Professionals”.
2. Forward the proposed By-law to the Township’s Auditor for review.
3. List the By-law on the Council agenda for adoption and subsequently submit the By-law to the Township’s Auditor for approval as required by the legislation.
4. Once Auditor approval has been received, code and label the Township records that are to be retained in accordance with the By-law.
5. Provide training to staff and phase in implementation throughout the organization.
6. Establish Records and Information Management Program procedures to ensure the establishment of a maintenance program related to the consolidation, archival and destruction of records.
7. Hold bi-annual Staff Records Management & Retention Group meetings to discuss filing, retention, and records management matters.
8. Develop a comprehensive file listing.

### **Financial Implications**

The initial subscription fee for TOMRMS is approximately \$3,900.00 which includes an electronic-format manual and a one-day training session on-site for all office staff. The annual subscription fee is \$300.00.

### **Applicable Legislation and Requirements**

Subsection 254(1) of *The Municipal Act 2001*, S.O. 2001, c.25 as amended, (the “Act”) provides that a municipality retain and preserve its records in a secure and accessible manner.

Subsection 255(2) of the *Act* provides that a municipality’s records may be destroyed if a retention period for the record has been established. Subsection 255(3) of the *Act* provides that a municipality may, subject to the approval of the municipal auditor, establish retention periods during which the records of the municipality and local boards of the municipality must be retained and preserved. By establishing retention periods for its records by by-law and having

the Township's auditor approve such by-law, the municipality will meet the requirements of the *Act*.

The TOMRMS service provides annual updates on the retention requirements, which includes conducting research of all applicable federal and Ontario statutes and regulations to determine what revisions, if any, are required to the retention periods.

**Schedule "A"**  
**Records Retention**  
**Schedule**

**Primary Heading: Administration**

Includes records regarding routine administration and office services functions

Code	Secondary Heading & Scope Notes	Responsible Department	Retention	Vital Record	Remarks
A00	<b>Administration - General</b> Includes administrative records which cannot be classified elsewhere. Use only if no other heading is available.	All Departments	1		
A01	<b>Associations and Organizations</b> Includes correspondence, minutes, agenda, notices and reports regarding organizations and associations to which staff belong or with which they communicate in the course of their duties such as Ratepayers Association, AMCTO, AMO, MISA, etc.	All Departments	1		Excludes: Membership Fees - see F01
A02	<b>Staff Committees and Meetings</b> Includes records regarding the activities of staff committees and meetings. Includes notices of meetings, agenda, minutes, etc. May also include copies of staff activity reports.	All Departments	4**		Excludes: - Council Minutes and Agenda - see C03-C04 - Council Committees - see C05-C06
A03	<b>Computer Systems and Architecture Information</b> Includes records relating to the design of computer systems and/or software, including needs assessments, business cases, project charter, process flowchart documentation, impact analysis, user and system requirements, specifications, testing plans and results, user sign-offs, system development documentation, software design records, and software inspection notes. Also includes records on system installations/conversions. May also include requests for significant modification, fixes and upgrades.	Administration	S+6	V	Excludes: - Reports - file by subject. - Acquisitions - see F18
A04	<b>Conferences and Seminars</b> Includes invitations, approvals, agenda, notes on proceedings, and other records regarding conferences, conventions, seminars and special functions attended by staff, or sponsored by the municipality as well as travel arrangements, accommodation, itineraries, reservations, confirmation of reservations, hotel brochures related to the conference, restaurants, convention sites etc.	All Departments	1**		Only those sponsored by the Township are subject to archival review Excludes: - Speeches and Presentations - see M08 - Employee/Council Expenses - see F09 - Ceremonies and Events - see M02 - Invoices - see F01 - Rental Agreements - see L14

Legend:

**E** = Event / **P** = Permanent / **S** = Superseded
