January 26, 2022

The Township of Puslinch Council, at its meeting held on January 19, 2022 discussed the 2021 Annual Water Report for the Small Drinking Water System No. 260021034.

Township staff notified the Ministry of the exceedance in the allowable concentration for sodium when the test results were made available. Township staff are re-testing in late January 2022.

The Puslinch Community Centre is equipped with a water softener and has been closed to the public since March 2020 due to the pandemic. The combination of the treated water and the lack of use has caused the high sodium result. The Ministry is aware that this facility remains closed to the public and that the building is adequately signed with signage prepared by the Health Unit stating: 'this water is not safe for drinking for salt reduced diets'.

RE: Report ADM-2022-004 2021 Annual Water Report
