RE: 2022 Application For Display At 20 Fox Run Drive, Puslinch

### Description Of Potential Traffic Impacts

-----

-Instagram and Facebook pages referencing and promoting display are deleted. We no longer promote the display ourselves and are no longer a publicized event. We do not have control over what others post or publish obviously.  
-Display will be shorter and more basic this year, leading to less time staying around by onlookers  
-Signage has been discarded due to the residents not wanting signs in our area. We complied. As we are no longer promoting this, anyone that comes will simply follow the road in and out. Whether this application is approved or not, people will be coming as they have for the last 5 years.

### Number Of Expected Visitors

-----

Roughly 500-600 cars over the course of display period (6 nights).

### Waste Management Plan

-----

We had no issues with waste during the past 2 years where people stayed in their cars. Prior years when people parked and walked was more of an issue. However, each morning we did and will continue to check the roadside for any garbage or debris left behind and clean up as needed.

### Insurance

-----

Desjardin rep confirmed no additional insurance needed if display/event is not charged admission and happening on same private property as home insurance.
