**STATEMENT OF CULTURAL HERITAGE VALUE OR INTEREST AND DESCRIPTION OF
HERITAGE ATTRIBUTES**

The property located at 80 Brock Rd S, Puslinch, holds significant cultural heritage value stemming from its association with the grist milling history of the Township. This value is retained in the large brick mill complex and pond on site. The property's architectural value lies in its design and singular presence in the Township. Built initially in 1863 by George McLean, and subsequently rebuilt in 1869 by him following a fire, it remains the only extant grist mill structure in Puslinch. The mill architecture is in excellent condition. Situated in the heart of Aberfoyle, the property is located alongside other heritage residences and industries that were established during the mid-1800s in connection with the mill. The property's significance is further seen by its transformation into a restaurant in later years, effectively highlighting its enduring importance and adaptability over time. The property meets the requirements for designation prescribed by the Province of Ontario under the three categories of design/physical value, historical/associative value, and contextual value. The property is listed on the Township of Puslinch Municipal Heritage Register and has received a plaque from the Township's Heritage Committee for its cultural heritage value.

Design Value:

The property showcases a grist mill complex. The primary structure consists of a tall two-and-a-half-storey rectangular building. A one and one-half storey smaller brick wing is attached on the south side. Both buildings are rendered in yellow brick from the Morrison brickyards, laid in common bond by local mason James Freed. A small one-storey fieldstone and board and batten shed is attached to the north side of the building. The rear of the complex has had several additions. A one and one-half storey fieldstone section remains at the rear that appears to date from the 1869 building based on archival photographs.

The main building has a Georgian design: rectangular, side-gabled form with symmetrically placed multi-paned and vertically sashed windows. The front facade has four, six over six paned windows on the second story; with three identical windows placed directly below on the first floor. The main entrance lies below the fourth window. Italianate ornamentation on these fenestrations include details such as brick labels and stops, and brick soldier lintels with dentils on the second storey side windows.

The one and one-half storey brick wing of the complex was reportedly used for drying grain. It has two smaller windows with four over four panes on the front facade, and three on the side facade. A lower six over six paned window with a brick label and stop is on the front facade and on the side facade. An entrance is in the rear corner of this structure.

Historical/Associative Value:

The property, situated at Lot 22 Front Concession 8, saw the construction of the present grist mill in 1869 after a fire burnt down the original 1863 building in 1866. The building and its reconstruction were undertaken by owner George McLean, who also dug out the mill raceway. The mill products achieved international recognition: its oatmeal received a gold medal for its high quality at the 1867 World's Fair in Paris, France. During George McLean's ownership, the mill was called "The Puslinch Mills" and was subsequently named "The Aberfoyle Mill." Throughout its history, the mill serviced a significant number of Puslinch farmers, and served as an industrial anchor to the growing Village of Aberfoyle. The building passed through the hands of numerous proprietors and millers during its active years. Among them were W.H. McDonald, R.B. Morison, Herbert Hamersley, and its final owner, James Murphy.

By the 1960s, the property had been acquired by the Owens Family, who transformed the mill building into a restaurant. It continues in that capacity today as the "Aberfoyle Mill Restaurant".

Contextual Value:

Due to the property's function, many early settlers were drawn to establish their residences near the mill which was essential to their farm economy. The property is in close proximity to numerous other heritage properties situated in the Aberfoyle area of the Township such as the Malcolm McBeath, John Hammersley, and Peter McLaren houses, and the 1857 house built for George McLean across the road from the mill, known today as "The Miller's House." Additionally, the property is closely situated to other buildings that provided essential services for the Aberfoyle area during the 19th century, including a blacksmith and wagon shop, and the Aberfoyle Schoolhouse. Given its pivotal role in enhancing the area's prosperity and its later reputation as a restaurant, the property is a landmark, and the most significant heritage structure in the community.
