That the Committee supports Severance Application B62-24 subject to the following condition(s):

1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including taxes paid in full and Consent Review/Condition Clearance fee) which the Township may deem to be necessary at the time of issuance of the Certificate of Consent for the property and orderly development of the subject lands; and further that the Township file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
2. That the owner is required to obtain zoning conformity including, but not limited to the following items 2.1 and 2.2; and further that the Township file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
 - 2.1 That the owner apply for, and receive approval of, a minor variance to obtain zoning conformity for the severed parcel for the reduced MDS1 setbacks to the satisfaction of the Township.
 - 2.2 That the zoning compliance for the proposed severed parcel be demonstrated to the satisfaction of the Township.
3. That the Owner shall be required to sign an affidavit stating that they will insert a warning clause in the Agreement of Purchase and Sale for the proposed severed parcel advising any potential purchaser of possible excessive noise from the aggregate operation located at 6618 Roszell Road; and further, that the Township of Puslinch file, with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.
4. That the owner obtain a building permit to relocate the septic system on to the retained property and decommission the original, to the satisfaction of the Township; and further that the Township of Puslinch file, with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.
5. That any fees incurred by the Township of Puslinch for the review of this application and any supporting materials will be the responsibility of the applicant to be formally outlined through a development agreement as required; and further, that the Township of

REPORT PDAC-2024-003

TO: Planning and Development Advisory Committee Chair and
Members of Committee

PREPARED BY: Lynne Banks, Development and Legislative Coordinator

PRESENTED BY: Lynne Banks, Development and Legislative Coordinator

MEETING DATE: October 8, 2024

SUBJECT: Zoning By-law Amendment Application (D14/JEF)
Jefferson Farms Ltd.
86 Farnham Road
Request for Committee Review and Comments
File: D14/JEF

RECOMMENDATIONS

That Report PDAC-2024-003 entitled Zoning By-law Amendment Application D14/JEF Request for the Committee's review and comments be received; and

That the Committee provide the following comments for Council's consideration:

Purpose

The purpose of this report is to:

1. Advise the Committee of the application for a Site Specific Zoning By-law Amendment for the property described as Part Lot 5, West of Blind Line, Plan 131, lying south west of railway, as in RO636626, Township of Puslinch, (the "Subject Lands"). The site is currently zoned Agricultural (A) and Natural Environment (NE) zone and the application proposes to rezone a portion of the Subject Lands to a specialized Agricultural Zone (A-xx); and
2. Seek comments from the Committee prior to the Public Meeting tentatively scheduled for November 27, 2024.

Background

Application

The proposed Zoning By-law Amendment is to amend the Township of Puslinch Zoning By-law 23-2018 to rezone the Subject Lands from Agricultural (A) zone and Natural Environment (NE) zone to a site specific Agricultural (A-xx) to prohibit livestock in the existing agricultural buildings; and to permit an existing barn to have a maximum height of 9 metres, as shown on the map attached to this report as Schedule "A".

A consent application was submitted in regards to the Subject Lands (File B17-23), which was approved with conditions on May 11, 2023. The consent application proposes to sever 0.42 hectares of vacant land from the Subject Lands for future rural residential use. The Zoning By-law Amendment application is required to fulfill conditions of approval for the consent application.

The following reports and plans have been submitted with the pre-consultation application:

- Pre-Consultation Application, October 2023.
- 1st Submission - Draft Sketch, Van Harten Surveyors, September 2023.
- 1st Submission - letter, Van Harten Surveyors, September 2023.
- 2nd Submission - Draft Zoning By-law, December 2023.
- 2nd Submission - letter, Van Harten Surveyors, February 2024.
- 2nd Submission - MDS Farm Data Sheet, December 2023.
- 2nd Submission - Source Water Application, December 2023.
- 2nd Submission - Scoped Planning Justification Report, December 2023.
- 3rd Submission – Updated Sketch, Van Harten Surveyors, July 2024.
- 3rd Submission - Response to Pre-consultation Comments, February 2024.
- 3rd Submission – Transfer/Deed of Land.

The following reports and plans have been submitted with the Zoning By-law Amendment application:

- 1st Submission - Updated Sketch, Van Harten Surveyors, July 2024
- 1st Submission - Scoped Planning Justification Report, December 2023.
- 1st Submission - Letter, Van Harten Surveyors, February 2024.
- 1st Submission - MDS Farm Data Sheet, December 2023.
- 1st Submission - Source Water Application, December 2023.

- 1st Submission – Updated Sketch, Van Harten Surveyors, July 2024.
- 1st Submission - response to Pre-consultation Comments, February 2024.
- 1st Submission – Transfer/Deed of Land.
- 1st Submission – Updated Draft Zoning B-law, May 2024.

Consultation:

1. Pre-Consultation

A pre-submission consultation for the proposed rezoning was submitted on September 14, 2023 and the applicant was provided with preliminary comments from Township Staff and its consultants representing the Township, County of Wellington Planners and external agencies. There were 3 subsequent submissions before the final pre-consultation review of the Zoning By-law Amendment Application was circulated on July 18, 2024 to Township staff, consultants, County of Wellington Staff and external agencies at which time all deficiencies were addressed as outlined in Schedule “B”.

Comments

The Zoning By-law Amendment Application including the prescribed fee was submitted to the Township on August 23, 2024 and the applicant is responsible for paying all third party costs.

Council subject to staff’s recommendation deemed the application to be complete on September 11, 2024 and the timelines in the Planning Act stipulate 90 days to process the application. The Township continues to process applications as close to the stipulated timelines as practical. The legislation sets out the following process to be completed:

- Circulate the statutory notice to properties within a 120 metre buffer, in addition to all required agencies;
- Peer review all submitted materials to the satisfaction of the Township;
- Present the application to the Township Planning and Development Advisory Committee for comments (October 8, 2024);
- Schedule and conduct at least one public meeting (tentatively scheduled for November 27, 2024);
- Advertise the complete application and public meeting in the Wellington Advertiser in accordance with statutory notice requirements and installing physical signage on the property; and
- Provide Council with a planning recommendation report and proposed by-law (tentatively scheduled for December 18, 2024).

**THE CORPORATION OF THE TOWNSHIP OF PUSLINCH
BY-LAW #2024-**

A By-law to amend By-law #023/18 as amended, being the Zoning By-law of the Township of Puslinch.

Whereas the Council of the Corporation of the Township of Puslinch deem it appropriate and in the public interest to amend By-law #023/18 pursuant to the Planning Act, R.S.O. 1990, c.P.13 as amended;

Now Therefore the Council of the Corporation of the Township of Puslinch enacts as follows:

1. THAT Schedule "A" of By-law #023/18 is hereby amended by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington of from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone as shown on Schedule "A" of this By-law;
2. THAT Section 14 and Table 14.1 of By-law #023/18 are hereby amended by adding the following site specific special provisions:
 - a) Notwithstanding any other provision of By-law #023/18 to the contrary, on land zoned Agricultural (A-xx) Zone on Schedule 'A':
 - i) accessory buildings existing as of January 1, 2024 shall not be used for a livestock facility as defined by the Minimum Distance Separation (MDS) Implementation Guidelines issued by the Province, as amended; and,
 - ii) accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met; and,
 - iii) one building existing as of January 1, 2024 shall be permitted to have a maximum building height of 9.0 metres.

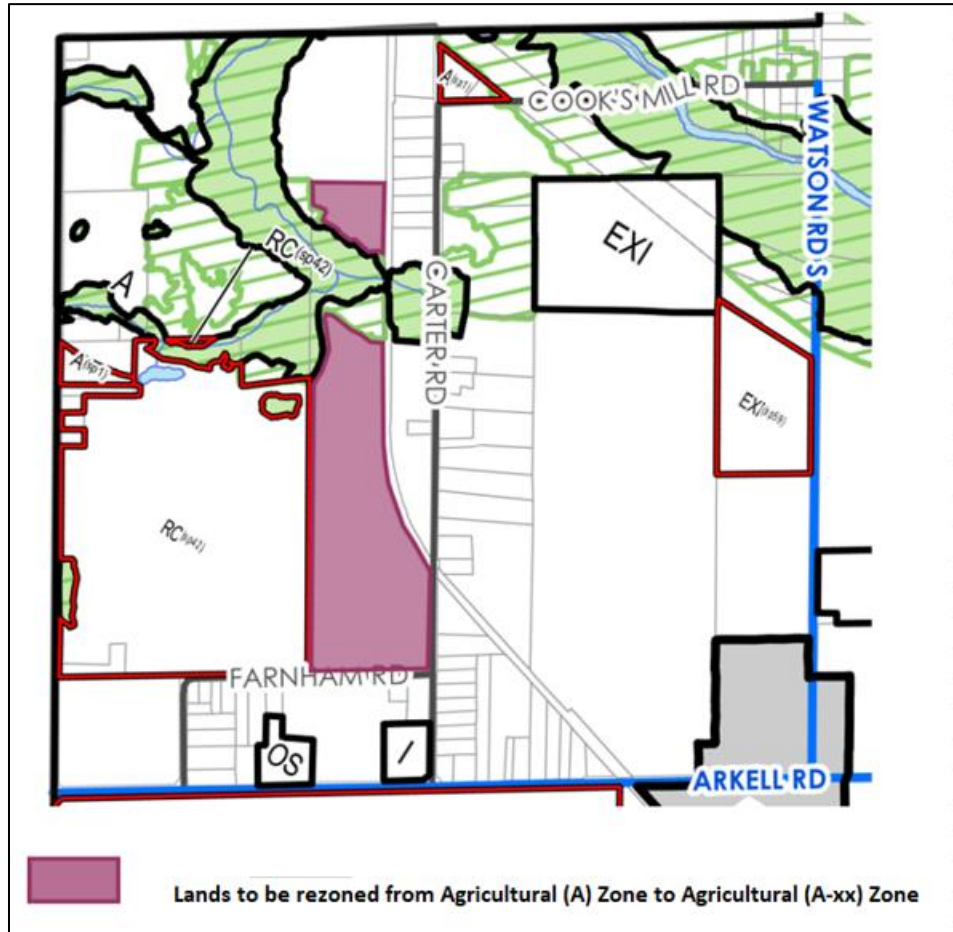

By-law read a First, Second, and Third Time this of , 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH BY-LAW NUMBER 2024- xx

SCHEDULE "A"

By-law read a First, Second, and Third Time this _____ of _____, 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH

Purpose of By-law # 2024-xx

By-law Number 2024-xx amends the Township of Puslinch Zoning By-law #023/18 by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone, as shown below.

Effect of By-law # 2024-xx

The effect of By-law #2024-xx on the applicable lands is to prohibit the use of accessory buildings existing as of January 1, 2024 as livestock facilities, and that any accessory buildings constructed after January 1, 2024 can only be used as a livestock facility provided Minimum Distance Separation requirements of the Province are met. Further, one building existing as of January 1, 2024 is permitted to have a maximum building height of 9.0 metres.

Attention: Lynne Banks

Dear Ms. Banks:

**Re: Pre-Consultation Meeting for Zoning By-law Amendment
Severance Application B17-23
86 Farnham Road
Part of Lot 5, West of the Blind Line, Registered Plan 131
PIN 71185-0135
Township of Puslinch**

Severance Application B17-23 was approved subject to conditions. The severance is creating a new rural residential parcel along Farnham Road in Puslinch. The Severed Parcel will have a frontage of 50±m, depth of 85±m, for an area of 0.42±ha where a dwelling is proposed. The site has been evaluated and a safe entrance is possible. The Zoning requirements are met for this parcel.

The Retained Parcel – known as #86 Farnham Road (PIN 71185-0135) – is a corner lot with frontage of 276±m along Carter Road and a frontage of 286±m along Farnham Road, for an area of 32.6±ha where the existing dwelling, old bank barn and various accessory buildings will remain. The parcel will continue to be used for agricultural purposes (cash crop).

The subject property is zoned Agricultural and the Zoning requirements are met for the Retained Parcel in terms of Frontage and Lot Area.

A Zone Change Application is required as a condition of the approved severance (Conditions 5, 8 and 11) to prohibit livestock in the old barn / agricultural buildings in order to meet the Minimum Distance Separation (MDSI) requirements.

We evaluated the barn on the subject property and across the road at #83 Carter Road for Minimum Distance Separation (MDSI) and are of the opinion that MDS can be met to the barn at #83 Carter Road using Type B calculation; however it cannot be met to the old Barn on the Retained Parcel, even though it is used as work shop and storage and would require significant alterations to safely house livestock.

Please find the MDS Farm Data Sheets attached for the barns. The required distance to the barn at #83 Carter Road is 162m and the actual distance is 415m and therefore, MDS can be met.

After discussions with County and Township Staff, it is recommended that a Zone Change Application be applied for as a condition of the Severance to rezone the old barn / agricultural buildings on the Retained Parcel to prohibit livestock in order to meet MDS.

The suggested zone change request will be:

- A) To rezone the Retained Parcel (86 Farnham Road) to a Specialized Agricultural to prohibit livestock from the accessory buildings.

This is required in order to meet the zoning requirements in Section 4.16.1.a) of the Zoning By-law for Minimum Distance Separation.

We kindly request the following people be included in the Pre-Consultation meeting, along with myself:

- Tom Jefferson – tomjeffersont98@gmail.com
- Robert Jefferson – rwjeffers@hotmail.com

We look forward to the review meeting to discuss this property and continue to satisfy the conditions of the severance.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

Description of proposed development/use

After discussions with County and Township Staff, it is recommended that a Zone Change Application be applied for as a condition of the Severance to rezone the old barn / agricultural buildings on the Retained Parcel to prohibit livestock in order to meet MDS.

The suggested zone change request will be:

A) To rezone the Retained Parcel (86 Farnham Road) to a Specialized Agricultural to prohibit livestock from the accessory buildings.

Please see the covering letter with more details.

Township of Puslinch
7404 Wellington Road 34
Guelph, ON N0B 2J0

Dear Ms. Lynne Banks:

**Re: Pre-consultation Request – Thomas Jefferson
86 Farnham Road**

Thank you for circulating the request for pre-consultation comments for the above-noted property. As part of the pre-consultation, we have reviewed the following submitted items:

- Covering letter prepared by Van Hartan, dated September 14, 2023
- Zone Change Sketch prepared by Van Hartan, dated September 15, 2023

Based on our review of the above information, and in our capacity as the Township's Planning consultants, we offer the following planning comments for consideration:

Proposal:

- The subject property requires a Zoning By-law Amendment application to fulfill conditions of severance application B17-23, which was conditionally granted by the County of Wellington Land Division Committee in May 2023.
- The subject lands have an existing dwelling, pool, old barn and four agricultural buildings.
- A Zoning By-law Amendment Application Zoning By-law Amendment application is required to prohibit livestock in the agricultural buildings to meet the Minimum Distance Separation (MDS) setback requirements and to address County policies.

Provincial Policy (Provincial Policy Statement and Growth Plan)

- **Provincial Policy Statement, 2022**
Section 1.1.5.8 of the PPS state that "New land uses, including the creation of lots, and new or expanding livestock facilities, shall comply with the minimum distance separation formulae."
- **The Minimum Distance Separation (MDS) Document – Publication 853**
Guideline #9 of the MDS document states that "Where lot creation is proposed, including new lots for agricultural uses, an MDS I setback is required for both the severed and retained lot."

County of Wellington Official Plan

- The subject property is designated as Prime Agricultural, Core Greenlands and Greenlands. Identified features include Significant Wooded Areas, Flood, Provincially Significant Wetlands and GRCA regulated Flood Plain and Wetlands.

- The subject property is located within the former Policy Areas number 5 (PA7-4). This special policy area allows the uses permitted under Secondary Agriculture designation provided livestock operations in the area are not affected or have ceased.
 - Compliance for all the agricultural buildings/barn is required to ensure livestock operations in the area are not affected. The intent of the Zoning By-law amendment would be to prohibit the use of livestock within the agricultural structures on the retained lands to address the requirements of this special policy.
- The site is located within issue contributing area and WHPA B, Q1 and Q2 with vulnerability score of 10 and 8. Comments from Source Water Protection staff will need to be considered.
- Application B17-23 conditionally severed a 0.42 ha (1.04 ac) rural residential parcel and a 32.6 ha (80.6 ac) parcel would be retained with an existing dwelling, pool and four agricultural buildings.
- In addition to Policy Area PA7-4, Section 6.5.6 requires that the MDS I formula will be applied to new land uses. MDS I compliance for the new use will be reviewed. Further, MDS I compliance is required through condition 8 of consent application B17-23. Please resubmit MDS I forms with the Zoning Amendment Application.
- It is proposed that the Zoning By-law amendment will prohibit livestock within the structures on-site. This is an approach that would meet the intent of the Official Plan policies.

Township Zoning By-law

- The subject property is zoned Agricultural (A), Natural Environmental (NE) with Environmental Protection Overlay. As per Section 11.2 Table 11.1 a single detached dwelling and agricultural use is permitted within A Zone.
- The application sketch submitted indicates the retained parcel has an existing single detached dwelling and four agricultural buildings (barn, drivesheds and sheds). As a Zoning By-law Amendment is required, there is some additional information required to confirm overall zoning compliance:
 - Section 4.4.2 Table 4.1 permits a maximum floor area of 1,400 m² plus 1% of the lot area for the lots greater than 4 ha. Please confirm the total floor area for all the buildings.
 - Section 11.3 table 11.2 permits a maximum lot coverage of 30% for all the buildings and structures within the A Zone. Confirmation that lot coverage requirements have been achieved is required.
 - Section 4.10 ii) permits non-habitable buildings and structures associated with agricultural use to exceed maximum height requirements of the applicable zone, provided that a minimum of 50% of the floor area of the building or structure is used for agricultural purposes and all other requirements of the zone are complied with.
 - Please clarify the height and setbacks of all the buildings/structures the lot line.

- **Minimum Distance Separation**

- Condition 5 of consent application B17-23 requires that MDS I compliance to be achieved for all the agricultural buildings on the retained parcel to ensure livestock operations in the area are not affected.
- Therefore, a Zoning By-law Amendment is required to prohibit livestock within all the agricultural buildings to ensure compliance with MDS I setback (condition no 5 and 8).
- Confirmation that the information previously provided by the consent application through the MDS I forms for 83 Carter Rd and 86 Farnham Road has not changed is required as a component of the application.

Submission requirements for Zoning Application

Included below is a preliminary list of potential supporting studies that are required for any future application submissions. All studies/assessments are to be completed and signed by a qualified professional.

The list of studies/assessments identifies minimum requirements.

- Planning Justification Report including draft By-law;
- Confirmation/resubmission of MDS farm data sheets for 83 Carter Rd, 86 Farnham Rd
- Detailed conceptual site plan showing existing conditions including setbacks from the lot line;
- Source Water Protection Screening Form or Drinking Water Threats Screening Form; and
- Any other studies noted by the various consultants and commenting agencies.

Additional Planning Comments

The Township will need to review if there are any outstanding items or compliance issues as part of the ZBA application. A detailed review of the Zoning By-law and demonstration of compliance will be required. A site statistics chart is to be included on the updated conceptual site plan to demonstrate compliance with zoning provisions.

These comments have been prepared without the benefit of reviewing detailed comments from other consultants or agencies and based on a conceptual proposal. These comments may change as the development progresses and as more details are provided.

We trust these comments will be of assistance if you have questions, please contact the County of Wellington Planning and Development Department.

Yours truly,

Asavari Jadhav
Planner

Re: Development Review Request
Zoning By-law Amendment
86 Farnham Road
Township of Puslinch

Dear Ms. Banks,

Following our review of the pre-consultation request documents received on September 22, 2023, we are providing comments related to the Zoning By-law Amendment application required as part of Conditions of Approval for the Severance Application B17-23. It is our understanding that the retained parcel is required to be rezoned from Agricultural to Specialized Agricultural to prohibit livestock operations the old barn / agricultural buildings to meet Minimum Distance Separation requirements to accommodate the residential use for the severed parcel.

In support of the identification of the engineering requirements for the Zoning By-law Amendment application, the following documents and drawings were received and reviewed:

- Cover letter prepared by Van Harten Surveying Inc., dated September 14, 2023.
- Zone Change Sketch prepared by Van Harten Surveying Inc., dated September 14, 2023.
- Severance Application B17-23 Approval Conditions dated May 11, 2023.

We defer the review of the Minimum Distance Separation (MDS) calculations to the Township of Puslinch Building Department.

Based on our review of the above noted documents, we do not have any comments with respect to the Zoning By-law Amendment application.

If you have any questions or require additional information, please do not hesitate to contact us.

Re: **Pre-consultation Ecology Peer Review for a Zoning By-law Amendment Application – 86 Farnham Road, Township of Puslinch, Ontario N0B 2J0 [Part of Lot 5, West of the Blind Line, Registered Plan 131, PIN 71185-0135] (File #D00/JEF)**

Dear Ms. Brotherston:

Azimuth Environmental Consulting, Inc. (Azimuth) is pleased to provide this pre-consultation peer review letter for the Township of Puslinch (Township) pertaining to the retained lot located at the address above. Azimuth's review was completed by Dr. Scott Tarof (natural heritage).

Azimuth reviewed the following documents on behalf of the Township:

- 1) The email "New Entry: Development Review Meeting Request" (September 14, 2023);
- 2) A Pre-consultation Meeting letter [September 14, 2023 from Van Harten Land Surveyors - Engineers (Van Harten)]; and,
- 3) Zone Change Sketch (September 14, 2023 from Van Harten).

The documents reviewed relate to a prior Severance Application (B17-23) and a current Zoning By-law Amendment Application from the applicant, Thomas Jefferson. It is understood that the Severance Application has been approved subject to conditions. The severance involves creating a new rural residential lot [50m x 85m; 0.42 hectares (ha)] fronting onto Farnham Road (Appendix A). A residential dwelling is proposed on the severed lot. The retained lot located at 86 Farnham Road ("retained lot") will be an estimated 32.6ha in size; an existing dwelling, barn and other agricultural/accessory buildings will remain (Appendix A). The retained lot will continue to be used for cash crop purposes.

As a condition of the severance, the applicant is required to re-zone the barn and agricultural/accessory buildings on the retained lot to “Specialized Agricultural” to prohibit their use for livestock in accordance with Minimum Distance Separation requirements between the agricultural buildings on the retained lot and a barn at 83 Carter Road.

Based on correspondence with the Township, the scope of Azimuth’s review was to:

- Complete a peer review of information provided from an ecology perspective at the pre-consultation stage of the re-zoning development application process;
- Provide a peer review letter to the Township regarding proposed re-zoning of the retained lot (86 Farnham Road) that gives professional direction and recommendations regarding natural heritage matters; and,
- Attend a pre-consultation meeting (virtually) scheduled for October 19, 2023.

Attending the retained lot was not part of the peer review scope. This letter does not pertain to the lot severance application specifically, or to any future construction (or possible demolition) of dwellings or other structures on either the severed or retained lot. Further, it is understood that the proposed re-zoning to “Specialized Agricultural” pertains only to the Agricultural portion of the retained lot.

1.0 BACKGROUND REVIEW

As per the documents reviewed, the majority of the retained lot is zoned Agricultural, with the northwest portion zoned “OP Greenlands Zoning Environmental Protection”. As noted in the Van Harten Pre-consultation Meeting letter, the proposed use for the retained lot complies with municipal zoning requirements pertaining to frontage and lot area. Google Street View imagery from August 2019 shows the retained lot frontage as manicured lawn with mature landscape trees. At the landscape scale, the area is rural residential with agricultural land uses.

Provincial background mapping from the Natural Heritage Information Centre (NHIC) indicates the retained lot is in Ecoregion 6E. The rear (*i.e.* northwest third) of the retained lot is in the Natural Heritage System of the Growth Plan for the Greater Golden Horseshoe [Ministry of Municipal Affairs and Housing (MMAH), 2020a] (Appendix B). Mapping from NHIC and VuMap show wetlands, woodlands and a drainage feature (with flow ultimately northward) toward the rear of the retained lot. Based on NHIC, wetlands on and adjacent [*i.e.* within 120 metres (m) of the retained lot] are part of a Provincially Significant Wetland (PSW) (Appendix B). These natural heritage features are an estimated 800m northwest of the developed/occupied area of the retained lot fronting

onto Farnham Road. As per mapping from the Grand River Conservation Authority (GRCA), approximately the rear half the retained lot is part of the GRCA Regulation Limit (Appendix B). The GRCA Regulation Limit is approximately 460-780m northwest of the developed/occupied area of the retained lot.

A Species at Risk (SAR) background search of NHIC 1 kilometre (km) grid squares occupied by the retained lot (17NJ6520, 17NJ6521, 17NJ6620) indicates records for the following two (2) provincially Threatened species: Eastern Meadowlark (*Sturnella magna*) and Bobolink (*Dolichonyx oryzivorus*) (Appendix B). As per Google Street View imagery, lands comprising the retained lot's frontage appear as maintained lawn. While it is likely that the Eastern Meadowlark and Bobolink records are historic, the central and rear portions of the retained lot away from Farnham Road are obscured by mature trees. If land usage was converted to hayfield or pastureland, suitable habitat opportunities for grassland SAR birds may be present.

Records also exist for the following seven (7) Special Concern species: Grasshopper Sparrow (*Ammodramus savannarum*); Wood Thrush (*Hylocichla mustelina*); Eastern Wood-pewee (*Contopus virens*); Snapping Turtle (*Chelydra serpentina*); Eastern Ribbonsnake (*Thamnophis saurita*); Canada Warbler (*Cardellina canadensis*) and Barn Swallow (*Hirundo rustica*) (Appendix B). Given the limited view of the retained lot in Google Street View and other aerial imagery, it is conceivable that habitat may be present for Grasshopper Sparrow (and/or Barn Swallow - depending on condition of existing structures). Habitat for Wood Thrush, Eastern Wood-pewee, Snapping Turtle, Eastern Ribbonsnake and Canada Warbler may occur toward the rear of the retained lot and/or on adjacent lands (*i.e.* in association with the PSW and woodlands), but would be unlikely to be present within the retained lot frontage area based on background review.

Habitat of Threatened or Endangered species, and the species themselves, are protected under Sections 9 and 10 of Ontario's *Endangered Species Act, 2007* (ESA). Special Concern species do not receive protection under Ontario's ESA, but are considered under provincial Significant Wildlife Habitat Criteria Schedules. Other possible natural heritage constraints with potential to be associated with the retained lot and/or adjacent lands include Butternut (*Juglans cineria*) and/or Black Ash (*Fraxinus nigra*) trees, and possibly other SAR/SAR habitat (*e.g.* bat roosting habitat – trees, buildings/accessory structures).

2.0 RECOMMENDATIONS

Based on the background mapping and other information summarized, Azimuth is providing the following recommendations to the Township. Although Azimuth did not visit the retained lot, background information suggests natural heritage features and functions are present (*i.e.* PSW, woodlands, drainage feature; possible SAR/SAR habitat and/or Significant Wildlife Habitat including for Special Concern and Rare Wildlife Species). As per Ontario's Provincial Policy Statement (MMAH, 2020b), development or site alteration is not permitted in natural heritage features including (but not limited to) Significant Wildlife Habitat or on lands adjacent to Significant Wildlife Habitat unless it can be demonstrated through natural heritage field investigations that there will be no negative impacts to the natural heritage features and functions. Development in habitat of ESA-protected species may require authorizations issued under the ESA if SAR are present and the activity is deemed damaging or destructive to SAR habitat and/or poses a direct impact to the species.

Part of the retained lot is in the Natural Heritage System of the Growth Plan (MMAH, 2020a) and contains mapped natural heritage features and functions. The application pertains to a Township re-zoning exercise; no other development/re-development is understood to be proposed at this time. Re-zoning is technically considered "development". However, it is Azimuth's professional opinion that field investigations related to an Environmental Impact Study (EIS) or SAR Assessment (for example) should not be necessary to render an assessment of potential impacts to natural heritage features and functions as a result of the proposed lot re-zoning. It is recommended that the applicant's environmental consultant prepare a letter summarizing environmental sensitivities associated with the retained lot and adjacent lands, and that evaluates the extent to which the proposed re-zoning would be consistent with applicable natural heritage policies of the Growth Plan (MMAH, 2020a), Provincial Policy Statement (MMAH, 2020b), ESA and County Official Plan (*e.g.* Section 10.2.2 for the Greenland System). This recommendation does not pertain to future physical development or site alteration (*e.g.* structures, demolition, grading). Possible future physical development associated with the retained lot would be considered under separate cover.

Azimuth is providing this recommendation to assist the Township in their decision-making pertaining to the proposed re-zoning application. We trust this pre-consultation ecology peer review provides the Township with the natural heritage direction necessary for the retained lot. Azimuth will be pleased to attend the October 19, 2023 pre-consultation meeting (virtually), as requested by the Township. If you have any questions please do not hesitate to contact the undersigned.

**THE CORPORATION OF THE TOWNSHIP OF PUSLINCH
BY-LAW #2024-**

A By-law to amend By-law #23/18 as amended, being the Zoning By-law of the Township of Puslinch.

Whereas the Council of the Corporation of the Township of Puslinch deem it appropriate and in the public interest to amend By-law Number 023/18 pursuant to the Planning Act, R.S.O. 1990, c.P.13 as amended;

Now Therefore the Council of the Corporation of the Township of Puslinch enacts as follows:

1. THAT Schedule "A" of By-law #023/18 is hereby amended by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington of from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone as shown on Schedule "A" of this By-law;
2. THAT Schedule "A" of By-law #023/18 is hereby amended by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington of from Natural Environment (NE) Zone to a specialized Natural Environment (NE-xx) Zone as shown on Schedule "A" of this By-law;
3. THAT Section 14 and Table 14.1 of By-law #023/18 are hereby amended by adding the following site specific special provisions:
 - a) Notwithstanding any other provision of By-law #023/18 to the contrary, on land zoned Agricultural (A-xx) Zone on Schedule 'A':
 - i) accessory buildings existing as of January 1, 2024 shall not be used for a livestock facility as defined by the Minimum Distance Separation (MDS) Implementation Guidelines issued by the Province, as amended; and,
 - ii) accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met; and,
 - iii) one building existing as of January 1, 2024 shall be permitted to have a maximum building height of 9.0 metres.
 - b) Notwithstanding any other provision of By-law #023/18 to the contrary, on land zoned Natural Environment (NE-xx) Zone on Schedule 'A':
 - i) accessory buildings existing as of January 1, 2024 shall not be used for a livestock facility as defined by the Minimum Distance Separation (MDS) Implementation Guidelines issued by the Province, as amended; and,
 - ii) accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met.

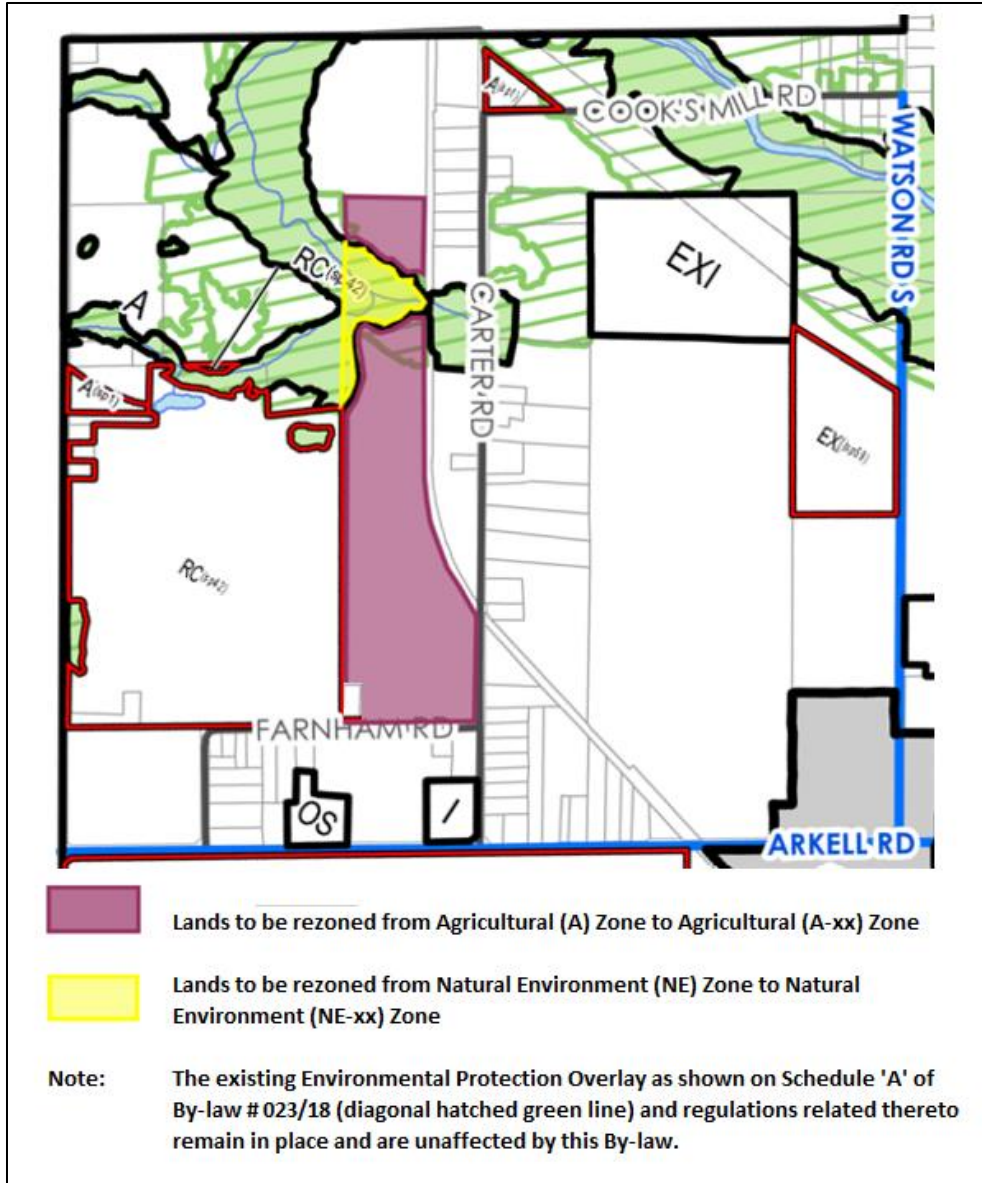

By-law read a First, Second, and Third Time this _____ of _____, 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH BY-LAW NUMBER 2024- xx

SCHEDULE "A"

By-law read a First, Second, and Third Time this ____ of _____, 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH

Purpose of By-law # 2024-xx

By-law Number 2024-xx amends the Township of Puslinch Zoning By-law #23/18 by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone and from Natural Environment (NE) Zone to a specialized Natural Environment (NE-xx) Zone (as shown below).

Effect of By-law # 2024-xx

The effect of By-law #2024-xx on the applicable lands is to prohibit the use of accessory buildings existing as of January 1, 2024 as livestock facilities, and that any accessory buildings constructed after January 1, 2024 can only be used as a livestock facility provided Minimum Distance Separation requirements of the Province are met. Further, one building existing as of January 1, 2024 is permitted to have a maximum building height of 9.0 metres.

 - L1 Solid, outside, no cover, 18%- <30% dry matter, with uncovered liquid runoff storage
 - L2 Liquid, outside, with a permanent floating cover
 - M1 Liquid, outside, no cover, straight-walled storage
 - M2 Liquid, outside, roof, but with open sides
 - H1 Liquid, outside, no cover, sloped-sided storage

Animal Type of Material	Description	Housing Capacity (maximum)	Manure Storage Type (select from list)
Beef Cattle	Cows, including calves to weaning (all breeds)		
	Feeders (7 – 16 months)		
	Backgrounders (7 – 12.5 months)		
	Shortkeepers (12.5 – 17.5 months)		
Dairy Cattle	Milking-age cows (dry or milking)		
	Large-framed; 545 – 658 kg (e.g. Holsteins)		
	Medium-framed; 455 – 545 kg (e.g. Guernseys)		
	Small-framed; 364 – 455 kg (e.g. Jerseys)		
	Hiefers (5 months to freshening)		N/A
	Large-framed; 182 – 545 kg (e.g. Holsteins)		
	Medium-framed; 148 – 455 kg (e.g. Guernseys)		
	Small-framed; 125 – 364 kg (e.g. Jerseys)		
	Calves (0 – 5 months)		
	Large-framed; 45 – 182 kg (e.g. Holsteins)		
Medium-framed; 39 – 148 kg (e.g. Guernseys)			
Small-framed; 30 – 125 kg (e.g. Jerseys)			
Horses	Large-framed, mature; >681 kg (e.g. draft or draft cross breeds including unweaned offspring)		
	Medium-framed, mature; 227 – 680 kg (e.g. saddle, riding and racing breeds including unweaned offspring)		
	Small-framed, mature; <227 kg (e.g. ponies and miniatures including unweaned offspring)		

Minimum Distance Separation I (MDSI)

Animal Type of Material	Description	Housing Capacity (maximum)	Manure Storage Type (select from list)
Swine	Sows with litter, dry sows or boars		
	Breeder gilts (entire barn designed specifically for this purpose)		
	Weaners (7 – 27 kg)		
	Feeders (27 – 136 kg)		
Sheep	Ewes & rams (for meat lambs; includes unweaned offspring & replacements)		
	Ewes & rams (dairy operation; includes unweaned offspring & replacements)		
	Lambs (dairy or feeder lambs)		
Goats	Does & bucks (for meat kids; includes unweaned offspring and replacements)		
	Does & bucks (for dairy; includes unweaned offspring & replacements)		
	Kids (dairy or feeder kids)		
Chickens	Layer hens (for eating eggs; after transfer from pullet barn)	N/A	
	Layer pullets (day-olds until transferred into layer barn)		
	Broiler breeder growers (males/females transferred out to layer barn)		
	Broiler breeder layers (males/females transferred in from grower barn)		
	Broilers on any length of cycle		
Turkeys	Turkey poults (day-old until transferred to grow out turkey barn)		
	Turkey breeder layers (males/females transferred in from grower barn)		
	Breeder toms		
	Broilers (day-olds to 6.2 kg)		
	Hens (day-olds up to 6.2 to 10.8 kg; 7.5 kg is typical)		
	Toms (day-olds to over 10.8 to 20 kg; 14.5 kg is typical)		
	Turkeys at any other weights, or if unknown (by floor area)		
Veal	Milk-fed		
	Grain-fed		
Other	Please refer to Factor Table 1 of The Minimum Distance Separation (MDS) Document for complete list of animal types		
Imported manure	Use the volume of the manure storages		
Unoccupied livestock barns	A livestock barn that does not currently house any livestock, but that housed livestock in the past and continues to be structurally sound and reasonably capable of housing livestock.*	Please see note below.	Please see note below.

PLEASE NOTE: All buildings on the property have been gutted, are not capable of housing animals and are strictly used for storage. The buildings haven't had housed livestock in over 15 years and there are no intentions of housing any livestock in the future – Tom Jefferson

*NOTE: This should only be used where obtaining information from the farm operator(s) and/or owner(s) was not possible (see Implementation Guideline 20 for more information).

Zoning By-law Amendment Application

Date submitted: _____

The Amendment:

Type of amendment:

Site specific:

Other (specify):

- A) To rezone the Retained Parcel to a Specialized Agricultural to prohibit livestock from being housed in the existing agricultural buildings.
B) To permit the existing barn to have a maximum height of 9m.

The rest of the Retained Parcel will remain zoned Agricultural and Natural Environment where potential livestock can be housed in a new building, provided MDSII is met.

Purpose of and reasons for the proposed amendment(s):

Severance Application B17-23 was approved subject to conditions which created a rural residential parcel. The conditions of the severance included zoning compliance and MDS compliance. The existing barn on the Retained Parcel can not meet the MDS setback and the rezoning is required. This application is to satisfy conditions 5, 8 and 11. Please see the covering letter for more details on the zoning request.

General Information:

1. Applicant Information:

Registered Owner's Name(s): Jefferson Farms Ltd. c/o Tom Jefferson & Robert Jefferson

Address: 112 Carter Road, RR#2

City: Guelph, ON,

Postal Code: N1H 6H9

Email Address: [REDACTED]

Telephone Number: [REDACTED]

Fax: _____

Applicant (Agent) Name(s): Jeff Buisman of Van Harten Surveying Inc.
Address: 2106 Gordon Street
City: Guelph, ON
Postal Code: N1L 1G6
Email Address: Jeff.Buisman@vanharten.com
Telephone Number: 519-821-2763 x225
Fax: _____

Other Name(s): _____
Address: _____
City: _____
Postal Code: _____
Email Address: _____
Telephone Number: _____
Fax: _____

Name, address, and phone number of all persons having any mortgages, charges, or encumbrances on the property.

None

Send correspondence to: Owner: Agent: Other: _____

When did the current owner acquire the subject land? Date: January 1991

4. What does the amendment cover?

The "entire" property:
A "portion" of the property: **Retained Parcel**

(This information should be illustrated on the required drawing under item 24 of this application)

5. Provide a description of the "entire" property:

Municipal address: 86 Farnham Road, Puslinch

If the application is to implement an alteration to the boundary of an area of settlement or to implement a new area of settlement, provide details of the Official Plan or Official Plan amendment that deals with the matter.

N/A

If the application is to remove land from an area of employment, provide details of the Official Plan or Official Plan amendment that deals with the matter.

N/A

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

N/A

10. Zoning:

What is the current zoning of the property? **Agricultural, Natural Environment and EP Overlay**

What uses are permitted? **Agricultural use, accessory apartment, animal clinic, bed and breakfast, dwelling, group home etc. See Section 11.2 for full list of Permitted Uses.**

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

N/A

If the subject land is within an area where the municipality has pre-determined minimum and maximum density requirements or the minimum and maximum height requirements provide a statement of these requirements.

N/A

Existing and Proposed Land Uses and Buildings:

11. What is the "existing" use(s) of the subject land?

Agricultural

12. How long has the "existing" use(s) continued on the subject land?

Decades

13. What is the "proposed" use(s) of the subject land?

Agricultural

14. Provide the following details for all buildings or structures on the subject land:

Building Details		Existing		Proposed	
Type of Building(s) or structures	Barn & Accessory Buildings			None	
Date of construction	Many years ago				
Building height	9m (barn) m	Please see sketch for more details			
Number of floors					
* Total floor area	1656m ² (all accessory buildings) m ²		ft ²	m ²	ft ²
Ground floor area (exclude basement)	m ²		ft ²	m ²	ft ²
Distance from building structure to the:					
Front lot line	42m (closest) m		ft	N/A m	ft
Side lot line	23m (closest) m		ft	m	ft
Other side lot line	m		ft	m	ft
Rear lot line	m		ft	m	ft

Building Details	Existing		Proposed	
*Percentage lot coverage	0.5%		N/A	
*Number of parking spaces				
*Number of loading spaces				

Existing and Proposed Services:

15. What is the access to the subject property?

- Provincial Highway:
- Continually maintained municipal road:
- Right-of-way:
- Seasonally maintained municipal road:
- Water access:
- Other (please specify):

16. What is the name of the road or street that provides access to the subject property.

Corner Lot - Farnham Road and Carter Road with entrance from Farnham Road

17. If access is by water only, please describe the parking and docking facilities used or to be used and the approximate distance of these facilities from subject land to the nearest public road.

N/A

(This information should be illustrated on the required drawing under item 24 of this application)

18. Indicate the applicable water supply and sewage disposal:

Water Supply	Existing		Proposed	
Municipal water				

Water Supply	Existing	Proposed
Communal water		
Private well	X	N/A
Other water supply		
Water sewers		
Municipal sewers		
Communal sewers		
Private septic	X	
Other sewage disposal		

19. If the application would permit development on privately owned and operated individual or communal septic systems, would more than 4500 litres of effluent be produced per day as a result of the development being completed?

Yes: No:

If yes, the following reports are required:

Servicing options report

A hydrogeological report

20. How is storm drainage provided?

Storm Sewers:

Ditches:

Swales:

Other: (explain below)

Other Related Planning Applications:

21. Has the current owner (or any previous owner) made application for any of the following, either on the subject property or within 120 metres of the subject lands?

Planning Application	Yes	No	*File Number	Approval Authority	Subject Lands	Purpose	*Status
Official Plan Amendment							
Zoning By-Law Amendment							
Minor Variance							
Plan of Subdivision							
Consent (Severance)	X		B17-23	County of Wellington	Part Lot 5, Plan 181, WOBL	Rural Residential Severance	Approved subject to conditions
Site Plan Control							

22. Has the subject land ever been the subject of a Minister's Zoning Order?

Yes: No:

If yes, provide the Ontario Regulation number of that order, if known: _____

Other Supporting Information

23. Please list the titles of any supporting documents: (e.g. Environmental Impacts Study, Hydrogeological Report, Servicing Options Report, Traffic Study, Market Area Study, Aggregate Licence Report, Stormwater Management Report, etc.)

Please see the Planning Report / Covering Letter, Draft Zoning By-law, Sourcewater Application, MDS Farm Data Sheets and Sketch attached with more details.

Application Drawing

24. Please provide an accurate drawing of the proposal, preferably prepared by a qualified professional. In some cases, it may be more appropriate to submit additional drawings at varying scales a lot better illustrate the proposal. The drawing must include the following information (see on following page):

- Owner/applicant's names;
- Legal description of the property;
- Boundaries and dimensions of the subject and its current land use;
- Dimensions of area of amendment (if not, the entire property);
- The size and use of all abutting land;
- All existing and proposed parking and loading areas, driveways, and lanes;
- The location and nature of any easements or restrictive covenants on the property;
- The location of any existing drains or award drains;
- Woodlots, forested areas, ANSIs, ESAs, wetlands, floodplain, and all natural watercourses (rivers, stream banks, etc.);

The location, size, and type of all existing and proposed buildings and structures on the subject land, indicating their distance from the front lot line, rear lot line, and side lot lines;

The name, location, and width of each abutting public or private road, unopened road allowance or right-of-way;

- If access to the subject land is by water only, provide the location of the parking and docking facilities to be used;
- Other features both on site or nearby that in the opinion of the applicant will have an effect on the application (such as bridges, railways, airports, roads, drainage ditches, wells, septic systems, springs, slopes, gravel pits); and
- The drawing should also include the scale, north arrow, and date when the drawing was prepared.

Attention: Lynne Banks

Dear Ms. Banks:

**Re: Scoped Planning Justification Report & Documents
Zoning By-law Amendment Application for:
Approved Severance Application B17-23
86 Farnham Road
Part of Lot 5, West of the Blind Line, Registered Plan 131
PIN 71185-0135
Township of Puslinch**

Please find enclosed an application for a Zoning By-law Amendment on the above-mentioned property. Included with this submission are copies of the Sketch, completed application form, PIN Report and Map, the required deed, MDS Farm Data Sheets and Sourcewater Protection Form. Payment of the Township Application fee of \$2,577.00 will be made once the application has been deemed complete.

Proposal:

Thank you for meeting with us at the October 19, 2023 pre-consultation meeting at the Township office regarding the above noted zone change, and for your follow-up summary notes which included a request for some additional supporting information. This letter serves as the Scoped Planning Justification Report as was discussed and agreed to at our meeting, along with the additional information requested in your October 19, 2023 memo.

The purpose of the Zone Change is to address the conditions of recently approved Severance Application B17-23 to create a rural residential lot on this property. The severed lot is located at the south-west corner of the parcel, with frontage on Farnham Road (see attached concept sketch). The severance process confirmed that both the retained and severed parcels generally comply/conform with the Township Zoning By-law and the County Official Plan, with the exception of a potential future MDS conflict should buildings on the Retained Parcel be utilized for livestock purposes (they are not currently used for this purpose). Condition #8 of consent B17-23 approval states:

THAT the Owner obtain zoning compliance for the multiple accessory buildings located on the retained lands to prohibit livestock, to the satisfaction of the Township; and further that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.

The zone change will also satisfy Condition 5 which requests MDS Compliance with the County and Condition 11 which requests Zoning compliance with the Township and County.

Future MDS zoning compliance will be achieved/assured through a rezoning of the subject land (the retained parcel) to implement specialized regulations prohibiting existing accessory buildings from being used for a livestock facility, and that any new accessory buildings can only be used as a livestock facility provided MDSII requirements are met. These specialized regulations are set out in the attached Draft Zoning By-law. In checking the heights of existing buildings, it was determined that one building exceeds the permitted building height of 7.0 metres. Accordingly, a special provision has been added to the draft by-law to recognize/permit a 9.0 metre height for the existing bank barn.

As was discussed at the pre-consultation meeting, no physical changes to the Retained Parcel or any of the buildings thereon are proposed. As such, there can be no resulting impact on the natural environment features located to the rear of the property, nor any need for environmental review.

Further materials you requested are also attached to this submission:

1. Zoning By-law Amendment Application Form
2. Draft Zoning By-law Amendment and Schedule "A"
3. Resubmission of MDS Farm Data Sheets for 83 Carter Road and 86 Farnham Road
4. Detailed Concept Sketch showing the severed and retained parcels for application B17-23, the existing buildings including building areas, heights and setbacks as well as proposed rezoning request.
5. Source Water Protection Screening Form – Appendix 'A'
6. PIN Report, Map and Deed for the subject property.

Please review and advise whether the application can be deemed complete and payment for the application fee will be made promptly. We look forward to the review and having this application scheduled at the next available Public Meeting.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

Dear Courtenay:

**Re: ZONING BY-LAW AMMENDMENT – 2nd Submission Comments
Jefferson Farms Ltd. c/o Tom Jefferson & Robert Jefferson
86 Farnham Rd
Township of Puslinch**

Please find the Planning comments below in reference to the above noted Zoning By-law Amendment application (2nd Submission). These comments are provided based on a review of the following:

Reports Submitted:

- Scoped Planning Justification Letter, prepared by Van Harten Surveying Inc., dated December 22, 2023
- Zoning By-law Amendment Application Form dated December 14, 2023
- Draft Zoning By-law Amendment and Schedule "A"
- Transfer/Deed of Land dated January 9, 1991.
- Resubmission of MDS Farm Data Sheets for
 - 83 Carter Road, dated December 14, 2023
 - 86 Farnham Road, dated December 14, 2023
- Service Ontario Property Index Map dated December 19, 2023.
- Service Ontario Parcel Register dated December 19, 2023.
- Detailed Concept Sketch showing the severed and retained parcels for application B17-23, the existing buildings including building areas, heights and setbacks as well as proposed rezoning request, prepared by Van Harten Surveying Inc., dated December 22, 2023.
- Source Water Protection Screening Form – Appendix 'A' dated December 14, 2023

Proposed Use

It is acknowledged that the application is proposing to rezone the subject property to prohibit livestock in the existing barns and agricultural buildings and to ensure that the compliance with MDS is achieved. This rezoning application will satisfy condition no. 5, 8 and 11 of the severance application B17/23, that was conditionally approved at the Land Division Committee meeting in May 2023.

A draft Site-specific Zoning By-law has been included as a part of the application to rezone the subject property from Agricultural(A) Zone to Agricultural Site Specific (A-xx) Zone and Natural Environment Zone to Natural Environment Site Specific (NE-xx) Zone. The intent of this application is to

prohibit livestock in the existing barns and agricultural buildings and to ensure that the compliance with MDS is achieved for existing accessory buildings at 83 Carter Rd and 86 Farnham Rd. The proposed application also address the exceed building height of 9 m for one of the existing accessory building (bank barn), where as a maximum height of 7 m is permitted on lots larger than 1 ha within A zone.

Planning Comments:

1. Based on a review of the additional information submitted, we acknowledge the following:
 - a. The applicant has provided a complete site plan and has confirmed that the retained portion of the subject property has an existing dwelling, a barn, two drive sheds and a hay shelter.
 - b. It is acknowledged that the proposed ZBA amendment application is to rezone the subject property to prohibit livestock within the multiple former livestock barns on the retained parcel. This rezoning application will address Condition no 8 and 5.
 - c. The applicant has confirmed the total area of all accessory structures to be 1,656 m² (17,825.04 ft²) and is in compliance with Section 4.4.2 Table 4.1 has been achieved.
 - d. Based on the areas provided within the site plan it appears that the area for accessory buildings have been provided. However, the area for the existing dwelling has not been provided. Compliance with Section 11.3 table 11.2 is required.
 - i. Please provide an updated site statistic chart within the site plan.
 - e. Further, it has been identified that the existing Bank barn that is currently used as workshop has a height of 9 m, whereas as per Section 4.4.2 Table 4.1 maximum permitted height is 7 m.
 - i. It is acknowledged that that relief for height has been requested within the application and included within the draft by-law to address Condition no 11.
 - f. It is acknowledged that the interior side yard setbacks have been provided for the existing barns on the site plan. Can you please provide an updated site plan showing the front yard setback and the exterior side yard setbacks for the barns and the existing dwelling.
 - g. It is acknowledged that the septic and required water servicing is existing and no new services are proposed.
 - h. It acknowledged that Farm Data Sheets for 83 Carter Road and 86 Farnham Road have been submitted as part of this application to ensure that the MDS I (Type B calculation) setbacks have been met for the severed parcel.
 - i. Based on the calculations it appears that the MDS I setback for the severed parcel from 83 Carter Road can be met.
 - ii. Further, based on the calculations it appears that the MDS I setback for the severed parcel from 86 Farnham Road cannot be met. The applicant has indicated that the existing barn does not house any livestock and is currently used as workshop. It is acknowledged that the draft by-law submitted will address reduced MDS I setback required to fulfill condition no 5. Please confirm the use of all the accessory buildings on the subject property.

2. Draft by-law

- a. Within the draft by-law submitted, it is noted that Section 3.a (ii) and 3.b (ii) states that “accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met”. Is there an intent to construct new accessory buildings in future to house livestock?
- b. The primary intent of this bylaw is to restrict livestock within the existing sheds and barns therefore, additional discussion may be required regarding updating the by-law.

Additional Comments/Clarification Items:

Although it appears most of the comments previously made were responded to, we do ask that the following clarification be provided to assist in our reviewing, including overall compliance with other provisions of the Zoning By-law. Please provide additional details requested to ensure all the insufficiencies are covered within the proposed Zoning By-law amendment, prior to deeming the application complete, to avoid future applications and delays.

We trust that these comments are of assistance and request a response letter addressing all comments to be submitted prior to deeming this application complete.

Regards,

Asavari Jadhav
Planner

Attention: Ms. Lynne Banks

Re: Development Review Request
Zoning By-law Amendment
86 Farnham Road
Township of Puslinch

Dear Ms. Banks,

Following our review of pre-consultation second submission documents received on January 9, 2024, we are providing comments related to the Zoning By-law Amendment required under the conditions of approved Severance Application B17-23 at 86 Farnham Road in the Township of Puslinch. Accessory buildings on the retained lot are located in close proximity to the severed lot. To accommodate residential use of the severed lot, a zone change is required to prohibit livestock in the accessory buildings to avoid future Minimum Distance Separation conflicts. No physical changes to the retained parcel are proposed.

The first submission was received on September 22, 2023 per our review letter dated October 10, 2023.

In support of the identification of engineering requirements for Zoning By-law Amendment, the following documents and drawings were received and reviewed:

- Zone Change Sketch, prepared by Van Harten Surveying Inc., dated December 22, 2023.

We defer detailed review of the following to the Township of Puslinch:

- Scoped Planning Justification Letter, prepared by Van Harten Surveying Inc., dated December 22, 2023.
- Zoning By-law Amendment Application Form, dated December 14, 2023.
- Draft Zoning By-law Amendment and Schedule A.
- Transfer/Deed of Land, dated January 9, 1991.
- ServiceOntario Property Index Map, dated December 19, 2023.
- ServiceOntario Parcel Register, dated December 19, 2023.
- MDS Farm Data Sheet - 83 Carter Road, dated December 14, 2023.
- MDS Farm Data Sheet - 86 Farnham Road, dated December 14, 2023.

We defer detailed review of the following to the County of Wellington:

- Source Water Protection Screening Form, dated December 14, 2023.

Based on our review of the above noted documents, we do not have any comments with respect to the Zoning By-law Amendment application.

If you have any questions or require additional information, please do not hesitate to contact us.

Re: **Natural Heritage Review for Zoning By-law Amendment Application - 86 Farnham Road, Township of Puslinch, Ontario N0B 2J0 [Part of Lot 5, West of the Blind Line, Registered Plan 131, PIN 71185-0135] (File #D00/JEF)**

Dear Ms. Banks:

Azimuth Environmental Consulting, Inc. (Azimuth) is pleased to provide this peer review letter for the Township of Puslinch (Township) pertaining to a proposed Zoning By-law Amendment for the property located at the address above. Azimuth's review was completed by Dr. Scott Tarof (natural heritage).

Azimuth reviewed the following documents on behalf of the Township:

- 1) Scoped Planning Justification Report (December 22, 2023 from Van Harten Surveying Inc.);
- 2) Zoning By-law Amendment Application (December 22, 2023 from Van Harten Surveying Inc.); and,
- 3) Zone Change Sketch (December 22, 2023 from Van Harten Surveying Inc.).

Proposed Zoning Amendment

The Planning Justification Report states "As was discussed at the pre-consultation meeting, no physical changes to the retained parcel or any of the buildings thereon are proposed. As such, there can be no resulting impact on the natural environment features located to the rear of the property, nor any need for environmental review." Therefore, the zoning amendment will not result in impacts to natural heritage features or functions.

Future Development Considerations

Azimuth recommends that, in the event of future development applications on the property, the proponent should consider relevant federal, provincial and municipal policy and legislation, including (but not limited to) the Provincial Policy Statement (PPS), local Official Plans, and Ontario's *Endangered Species Act*, 2007. In the event of future development, it is also noted that portions of the property are within the Regulation Limit of the Grand River Conservation Authority (GRCA).

For information purposes, Azimuth notes the potential for Key Natural Heritage Features (KNHFs) and Key Hydrologic Features (KHF) to occur on the property, which may require consideration under possible future development scenarios. For example, woodlands on the property, appearing consistent with "Natural Environment", "Environmental Protection" and "Core Greenlands" boundaries shown on the Rezoning Application sketch in the Planning Justification Report, are connected to large tracts of continuous woodland in excess of 20 hectares (ha). According to Section 5.5.4 of the County of Wellington Official Plan (2023), rural woodlands in excess of 4ha are mapped as Greenlands and should be considered Significant Woodland. Portions of a Provincially Significant Wetland Complex are also mapped on the property.

Conclusions

Based on our review of the documents provided, the proposed zoning amendment for 86 Farnham Road would not result in impacts to natural heritage features or functions. Further natural heritage review for this application is not required at this time.

Should you have any questions or require additional information please do not hesitate to contact the undersigned.

Yours truly,
AZIMUTH ENVIRONMENTAL CONSULTING, INC.

Dr. Scott Tarof (Ph.D. Biology)
Terrestrial Ecologist

Memorandum

To: Lynne Banks – Development and Legislative Coordinator, Township of Puslinch

Cc: Zach Prince – Senior Planner, Wellington County
Emily Vandermeulen – Risk Management Inspector, Wellington Source Water Protection

From: Kim Funk – Source Protection Coordinator, Wellington Source Water Protection

**RE: 86 Farnham RD, Township of Puslinch
Zoning By-law Amendment**

Wellington Source Water Protection (WSWP) staff have had the opportunity to review the submitted documents in support of the above noted application. Based on our review, WSWP have no objections to the proposed application receiving draft approval.

Pursuant to the *Clean Water Act*, Notices are required for all applications. A notice for the Zoning By-law Amendment will be provided once the formal application is submitted.

Further documentation is not required, and the applicant has provided the requested information for the Zoning By-law Amendment. Please note that additional documentation may be required for any future applications for either property outlined in the County of Wellington Severance B17-23 file, due to their location within a Wellhead Protection Area.

A Risk Management Plan is required for 86 Farnham Road. This will be drafted by our office and sent to the owner for review. The negotiation of the Risk Management Plan will not impact the Zoning By-law Amendment Application. Please contact our Risk Management Inspector to discuss the contents of the Risk Management Plan:

Attention: Lynne Banks

Dear Ms. Banks:

Re: 3rd Submission Comments
Zoning By-law Amendment Application for:
Approved Severance Application B17-23
86 Farnham Road
Part of Lot 5, West of the Blind Line, Registered Plan 131
PIN 71185-0135
Township of Puslinch

Please find enclosed the amended Zone Change Sketch for the above-mentioned property. The comments below are in response to the letter dated February 12, 2024 provided by the County of Wellington.

1. The area of the existing dwelling (#86 Farnham Road) is approximately 243m².
2. The zone chart below shows compliance with Table 11.3 of the Zoning By-law for Agricultural parcels. There is limited room on the Sketch and the zone chart has been included below as the zoning requirements are easily met.

AGRICULTURAL ZONE STANDARDS		
TABLE 11.3 REGULATIONS	REQUIRED	RETAINED PARCEL (#86 Farnham Road)
Minimum Lot Area	4.0ha	32.6ha
Minimum Lot Frontage (Carter Road)	120m	276m
Minimum Front Yard	10.0m	Complies
Minimum Interior Side Yard	3.0m	Complies
Minimum Exterior Side Yard (Farnham Road)	6.0m	11m
Minimum Rear Yard	7.5m	Complies
Maximum Lot Coverage	30%	0.5% (with accessory buildings)

3. The Sketch includes the front, rear and side yard setbacks from the existing buildings to the closest lot lines, which are easily met.
4. The uses of the accessory buildings are labelled on the sketch and in the accessory building zone chart.
5. There are no intentions to construct new accessory buildings to house livestock. However, we do not want to restrict that option in the future should the property owners want to house livestock, provided that that MDSII and the zoning requirements are met. The wording of the draft zoning amendment simply provides MDS control for this hypothetical.

With regard to current comments received from other Township consultants we note the following:

- GM Blueplan – no objections or concerns regarding approval of zone change.
- Azimuth – no objections or concerns regarding approval of zone change.
- Wellington Source Water Protection - no objections or concerns regarding approval of zone change.

Based on all of the foregoing, we are confident that all staff comments have been addressed. We look forward to the final review and having this application scheduled for the next available Council meeting for approval.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

**THE CORPORATION OF THE TOWNSHIP OF PUSLINCH
BY-LAW #2024-**

A By-law to amend By-law #23/18 as amended, being the Zoning By-law of the Township of Puslinch.

Whereas the Council of the Corporation of the Township of Puslinch deem it appropriate and in the public interest to amend By-law Number 023/18 pursuant to the Planning Act, R.S.O. 1990, c.P.13 as amended;

Now Therefore the Council of the Corporation of the Township of Puslinch enacts as follows:

1. THAT Schedule "A" of By-law #023/18 is hereby amended by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington of from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone as shown on Schedule "A" of this By-law;
2. THAT Schedule "A" of By-law #023/18 is hereby amended by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington of from Natural Environment (NE) Zone to a specialized Natural Environment (NE-xx) Zone as shown on Schedule "A" of this By-law;
3. THAT Section 14 and Table 14.1 of By-law #023/18 are hereby amended by adding the following site specific special provisions:
 - a) Notwithstanding any other provision of By-law #023/18 to the contrary, on land zoned Agricultural (A-xx) Zone on Schedule 'A':
 - i) accessory buildings existing as of January 1, 2024 shall not be used for a livestock facility as defined by the Minimum Distance Separation (MDS) Implementation Guidelines issued by the Province, as amended; and,
 - ii) accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met; and,
 - iii) one building existing as of January 1, 2024 shall be permitted to have a maximum building height of 9.0 metres.
 - b) Notwithstanding any other provision of By-law #023/18 to the contrary, on land zoned Natural Environment (NE-xx) Zone on Schedule 'A':
 - i) accessory buildings existing as of January 1, 2024 shall not be used for a livestock facility as defined by the Minimum Distance Separation (MDS) Implementation Guidelines issued by the Province, as amended; and,
 - ii) accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met.

By-law read a First, Second, and Third Time this _____ of _____, 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH BY-LAW NUMBER 2024- xx

SCHEDULE "A"

By-law read a First, Second, and Third Time this ____ of _____, 2024

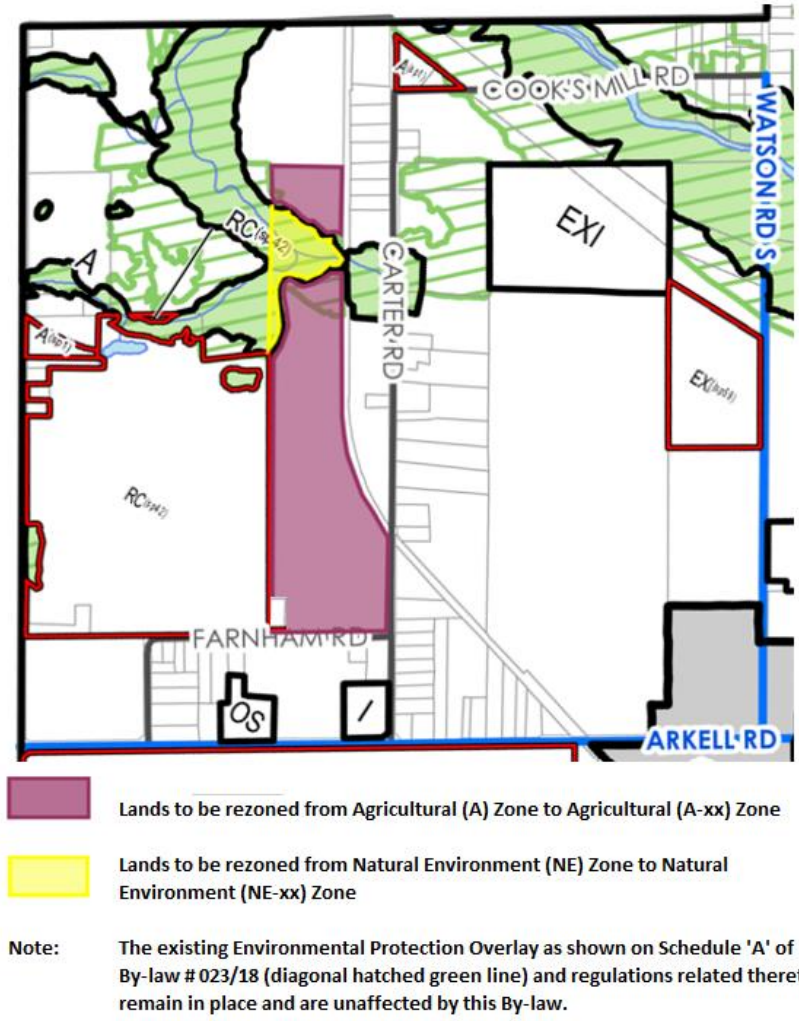

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH

Purpose of By-law # 2024-xx

By-law Number 2024-xx amends the Township of Puslinch Zoning By-law #23/18 by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone and from Natural Environment (NE) Zone to a specialized Natural Environment (NE-xx) Zone (as shown below).

Effect of By-law # 2024-xx

The effect of By-law #2024-xx on the applicable lands is to prohibit the use of accessory buildings existing as of January 1, 2024 as livestock facilities, and that any accessory buildings constructed after January 1, 2024 can only be used as a livestock facility provided Minimum Distance Separation requirements of the Province are met. Further, one building existing as of January 1, 2024 is permitted to have a maximum building height of 9.0 metres.

KEYMAP

ZONE CHANGE REQUEST:

- (A)** TO REZONE THE RETAINED PARCEL TO A SPECIALIZED AGRICULTURAL TO PROHIBIT LIVESTOCK IN THE EXISTING AGRICULTURAL BUILDINGS.
- (B)** TO PERMIT THE EXISTING BARN TO HAVE A MAXIMUM HEIGHT OF 9m.

Attention: Lynne Banks

Dear Ms. Banks:

**Re: Scoped Planning Justification Report & Documents
Zoning By-law Amendment Application for:
Approved Severance Application B17-23
86 Farnham Road
Part of Lot 5, West of the Blind Line, Registered Plan 131
PIN 71185-0135
Township of Puslinch**

Please find enclosed an application for a Zoning By-law Amendment on the above-mentioned property. Included with this submission are copies of the Sketch, completed application form, PIN Report and Map, the required deed, MDS Farm Data Sheets and Sourcewater Protection Form. Payment of the Township Application fee of \$2,577.00 will be made once the application has been deemed complete.

Proposal:

Thank you for meeting with us at the October 19, 2023 pre-consultation meeting at the Township office regarding the above noted zone change, and for your follow-up summary notes which included a request for some additional supporting information. This letter serves as the Scoped Planning Justification Report as was discussed and agreed to at our meeting, along with the additional information requested in your October 19, 2023 memo.

The purpose of the Zone Change is to address the conditions of recently approved Severance Application B17-23 to create a rural residential lot on this property. The severed lot is located at the south-west corner of the parcel, with frontage on Farnham Road (see attached concept sketch). The severance process confirmed that both the retained and severed parcels generally comply/conform with the Township Zoning By-law and the County Official Plan, with the exception of a potential future MDS conflict should buildings on the Retained Parcel be utilized for livestock purposes (they are not currently used for this purpose). Condition #8 of consent B17-23 approval states:

THAT the Owner obtain zoning compliance for the multiple accessory buildings located on the retained lands to prohibit livestock, to the satisfaction of the Township; and further that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.

The zone change will also satisfy Condition 5 which requests MDS Compliance with the County and Condition 11 which requests Zoning compliance with the Township and County.

Future MDS zoning compliance will be achieved/assured through a rezoning of the subject land (the retained parcel) to implement specialized regulations prohibiting existing accessory buildings from being used for a livestock facility, and that any new accessory buildings can only be used as a livestock facility provided MDSII requirements are met. These specialized regulations are set out in the attached Draft Zoning By-law. In checking the heights of existing buildings, it was determined that one building exceeds the permitted building height of 7.0 metres. Accordingly, a special provision has been added to the draft by-law to recognize/permit a 9.0 metre height for the existing bank barn.

As was discussed at the pre-consultation meeting, no physical changes to the Retained Parcel or any of the buildings thereon are proposed. As such, there can be no resulting impact on the natural environment features located to the rear of the property, nor any need for environmental review.

Further materials you requested are also attached to this submission:

1. Zoning By-law Amendment Application Form
2. Draft Zoning By-law Amendment and Schedule "A"
3. Resubmission of MDS Farm Data Sheets for 83 Carter Road and 86 Farnham Road
4. Detailed Concept Sketch showing the severed and retained parcels for application B17-23, the existing buildings including building areas, heights and setbacks as well as proposed rezoning request.
5. Source Water Protection Screening Form – Appendix 'A'
6. PIN Report, Map and Deed for the subject property.

Please review and advise whether the application can be deemed complete and payment for the application fee will be made promptly. We look forward to the review and having this application scheduled at the next available Public Meeting.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

**THE CORPORATION OF THE TOWNSHIP OF PUSLINCH
BY-LAW #2024-**

A By-law to amend By-law #023/18 as amended, being the Zoning By-law of the Township of Puslinch.

Whereas the Council of the Corporation of the Township of Puslinch deem it appropriate and in the public interest to amend By-law #023/18 pursuant to the Planning Act, R.S.O. 1990, c.P.13 as amended;

Now Therefore the Council of the Corporation of the Township of Puslinch enacts as follows:

1. THAT Schedule "A" of By-law #023/18 is hereby amended by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington of from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone as shown on Schedule "A" of this By-law;
2. THAT Section 14 and Table 14.1 of By-law #023/18 are hereby amended by adding the following site specific special provisions:
 - a) Notwithstanding any other provision of By-law #023/18 to the contrary, on land zoned Agricultural (A-xx) Zone on Schedule 'A':
 - i) accessory buildings existing as of January 1, 2024 shall not be used for a livestock facility as defined by the Minimum Distance Separation (MDS) Implementation Guidelines issued by the Province, as amended; and,
 - ii) accessory buildings constructed after January 1, 2024 shall only be permitted for use as a livestock facility provided MDS requirements as issued and as amended by the Province, are met; and,
 - iii) one building existing as of January 1, 2024 shall be permitted to have a maximum building height of 9.0 metres.

By-law read a First, Second, and Third Time this of , 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH BY-LAW NUMBER 2024- xx

SCHEDULE "A"

By-law read a First, Second, and Third Time this _____ of _____, 2024

MAYOR

CLERK

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH

Purpose of By-law # 2024-xx

By-law Number 2024-xx amends the Township of Puslinch Zoning By-law #023/18 by rezoning Part of Lot 5, West of the Blind Line, Registered Plan 131, Township of Puslinch, County of Wellington from Agriculture (A) Zone to a specialized Agriculture (A-xx) Zone, as shown below.

Effect of By-law # 2024-xx

The effect of By-law #2024-xx on the applicable lands is to prohibit the use of accessory buildings existing as of January 1, 2024 as livestock facilities, and that any accessory buildings constructed after January 1, 2024 can only be used as a livestock facility provided Minimum Distance Separation requirements of the Province are met. Further, one building existing as of January 1, 2024 is permitted to have a maximum building height of 9.0 metres.

Attention: Lynne Banks

Dear Ms. Banks:

Re: 3rd Submission Comments
Zoning By-law Amendment Application for:
Approved Severance Application B17-23
86 Farnham Road
Part of Lot 5, West of the Blind Line, Registered Plan 131
PIN 71185-0135
Township of Puslinch

Please find enclosed the amended Zone Change Sketch for the above-mentioned property. The comments below are in response to the letter dated February 12, 2024 provided by the County of Wellington.

1. The area of the existing dwelling (#86 Farnham Road) is approximately 243m².
2. The zone chart below shows compliance with Table 11.3 of the Zoning By-law for Agricultural parcels. There is limited room on the Sketch and the zone chart has been included below as the zoning requirements are easily met.

AGRICULTURAL ZONE STANDARDS		
TABLE 11.3 REGULATIONS	REQUIRED	RETAINED PARCEL (#86 Farnham Road)
Minimum Lot Area	4.0ha	32.6ha
Minimum Lot Frontage (Carter Road)	120m	276m
Minimum Front Yard	10.0m	Complies
Minimum Interior Side Yard	3.0m	Complies
Minimum Exterior Side Yard (Farnham Road)	6.0m	11m
Minimum Rear Yard	7.5m	Complies
Maximum Lot Coverage	30%	0.5% (with accessory buildings)

3. The Sketch includes the front, rear and side yard setbacks from the existing buildings to the closest lot lines, which are easily met.
4. The uses of the accessory buildings are labelled on the sketch and in the accessory building zone chart.
5. There are no intentions to construct new accessory buildings to house livestock. However, we do not want to restrict that option in the future should the property owners want to house livestock, provided that that MDSII and the zoning requirements are met. The wording of the draft zoning amendment simply provides MDS control for this hypothetical.

With regard to current comments received from other Township consultants we note the following:

- GM Blueplan – no objections or concerns regarding approval of zone change.
- Azimuth – no objections or concerns regarding approval of zone change.
- Wellington Source Water Protection - no objections or concerns regarding approval of zone change.

Based on all of the foregoing, we are confident that all staff comments have been addressed. We look forward to the final review and having this application scheduled for the next available Council meeting for approval.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

Re: Zoning By-law Amendment
86 Farnham Road
Township of Puslinch

Dear Ms. Banks,

Following our review of Zoning By-Law Amendment (ZBA) application documents received on April 12, 2024, we are providing comments related to the ZBA required under the conditions of approved Severance Application B17-23 at 86 Farnham Road in the Township of Puslinch. Accessory buildings on the retained lot are located in close proximity to the severed lot. To accommodate residential use of the severed lot, a zone change is required to prohibit livestock in the accessory buildings to avoid future Minimum Distance Separation conflicts. No physical changes to the retained parcel are proposed.

Pre-consultation submissions were received on September 22, 2023 and January 9, 2024.

In support of the identification of engineering requirements for Zoning By-law Amendment, the following documents and drawings were received and reviewed:

- Zone Change Sketch, prepared by Van Harten Surveying, dated February 13, 2024.
- 3rd Submission Comments Response Letter, prepared by Van Harten Surveying, dated February 14, 2025.

We defer detailed review of the following to Township and County planning staff:

- Scoped Planning Justification Letter, prepared by Van Harten Surveying, dated December 22, 2023.
- Draft Zoning By-law Amendment and Schedule A.
- Transfer/Deed of Land, dated January 9, 1991.
- ServiceOntario Property Index Map, dated December 19, 2023.
- ServiceOntario Parcel Register, dated December 19, 2023.
- MDS Farm Data Sheet - 83 Carter Road, dated December 14, 2023.
- MDS Farm Data Sheet - 86 Farnham Road, dated December 14, 2023.

Based on our review of the above noted documents, we do not have any comments with respect to the ZBA.

If you have any questions or require additional information, please do not hesitate to contact us.

**Re: 86 Farnham Road, Puslinch, Ontario
Proposed Zoning By-law Amendment Application
Hydrogeological Preconsultation Comments**

Dear Lynne,

Harden Environmental Services Ltd. (Harden) is pleased to provide updated hydrogeological preconsultation comments for the proposed zoning by-law amendment application for 86 Farnham Road in Puslinch, Ontario (the site).

Based on the applicant's submission and supporting documents, we understand that:

- The proposed application is to sever an approximately 0.42 ha parcel of land and retain the remaining 32.6 ha parcel.

We have no objection to the proposed zoning by-law amendment.

From a hydrogeological perspective, the following will be required at the site plan control stage:

Nitrate Impact Assessment: A D-5-4 analysis of nitrate loading from the proposed septic system will be required as part of Site Plan Approval.

Supply Well Construction: The site is underlain by the Guelph Formation and the Goat Island / Gasport Formation aquifer separated by a regional aquitard. Wells that connect these two aquifers (i.e., multi-aquifer wells) are not permitted as part of the development. Newly constructed supply

wells for the site should be either installed in the upper bedrock aquifer or appropriately cased into the lower bedrock aquifer, in accordance with R.R.O. 1990, Reg. 903: Wells, to minimize potential groundwater movement between the upper and lower bedrock aquifers.

Well Decommissioning: Any unused wells must be abandoned by a licensed well contractor in accordance with R.R.O. 1990, Reg. 903: Wells.

Excess Soil Management: Any import/export of fill/soil from the site must be conducted in accordance with O. Reg. 406/19: On-Site and Excess Soil Management, the Rules for Soil Management and Excess Soil Quality Standards (Soil Rules) and O. Reg. 153/04, as amended.

These comments may be amended as additional information is provided by the proponent.

We appreciate the opportunity to provide these comments. Should you have any questions or concerns, please do not hesitate to contact the undersigned.

Harden Environmental Services Ltd.

A large black rectangular redaction box covers the signature area. A thin horizontal line extends from the right side of the box. Behind the box, a circular professional seal is partially visible, containing the word 'ONTARIO' at the bottom.

Re: **Natural Heritage Review for Zoning By-law Amendment Application
(Second Submission) - 86 Farnham Road, Township of Puslinch, Ontario
N0B 2J0 [Part of Lot 5, West of the Blind Line, Registered Plan 131, PIN
71185-0135] (File #D00/JEF)**

Dear Ms. Banks:

Azimuth Environmental Consulting, Inc. (Azimuth) is pleased to provide this peer review letter for the Township of Puslinch (Township) pertaining to a proposed Zoning By-law Amendment for the property located at the address above. Azimuth's review was completed by Dr. Scott Tarof (natural heritage).

Azimuth reviewed the following documents on behalf of the Township:

- 1) Scoped Planning Justification Report (December 22, 2023 from Van Harten Surveying Inc.);
- 2) Third Submission Comments – Zoning By-law Amendment Application for Approved Severance Application B17-23;
- 3) MDSI Farm Data Sheet – 86 Farnham Road (December 14, 2023);
- 4) MDSI Farm Data Sheet – 83 Carter Road (December 14, 2023); and,
- 5) Zone Change Sketch (February 13, 2024 from Van Harten Surveying Inc.).

Proposed Zoning Amendment

The Planning Justification Report states “As was discussed at the pre-consultation meeting, no physical changes to the retained parcel or any of the buildings thereon are proposed. As such, there can be no resulting impact on the natural environment features located to the rear of the property, nor any need for environmental review.” The MDSI Farm Data Sheet for 86 Farnham Road notes that buildings on the property “are not

capable of housing animals and are strictly for storage.” The MDSI Farm Data Sheet for 83 Carter Road notes the presence of horses on the property.

The Third Submission Comments for the Zoning By-law Amendment Application pertaining to the approved severance indicate that minimum yard setbacks are in compliance. The Comments further indicate that “There are no intentions to construct new accessory buildings to house livestock. However, we do not want to restrict that option in the future should the property owners want to house livestock, provided that that MDSII and the zoning requirements are met. The wording of the draft zoning amendment simply provides MDS control for this hypothetical.” The revised Zoning Change Sketch appears unchanged from a natural heritage perspective.

Based on the information provided, Azimuth’s conclusion from the Zoning By-law Amendment Application natural heritage peer review dated January 24, 2024 that the zoning amendment will not result in impacts to natural heritage features or functions has not changed and remains current.

Future Development Considerations

Third Submission Comments suggest that site alteration, development or change in land use may be a possibility in the future. Azimuth recommends that, in the event of future development applications for the property, the proponent should consider relevant federal, provincial and municipal policy and legislation, including (but not limited to) the Provincial Policy Statement (PPS), local Official Plans, and Ontario’s *Endangered Species Act*, 2007. In the event of future site alteration, development or change in land use, it is also noted that portions of the property are within the Regulation Limit of the Grand River Conservation Authority (GRCA).

As shared in the January 24, 2024 peer review letter and for information purposes, Azimuth notes the potential for Key Natural Heritage Features (KNHFs) and Key Hydrologic Features (KHF) to occur on the property, which may require consideration under possible future development scenarios. For example, woodlands on the property, appearing consistent with “Natural Environment”, “Environmental Protection” and “Core Greenlands” boundaries shown on the Rezoning Application sketch in the Planning Justification Report, are connected to large tracts of continuous woodland in excess of 20 hectares (ha). According to Section 5.5.4 of the County of Wellington Official Plan (2023), rural woodlands in excess of 4ha are mapped as Greenlands and should be considered Significant Woodland. Portions of a Provincially Significant Wetland Complex are also mapped on the property.

Conclusions

Based on our review of the resubmitted Zoning By-law Amendment Application documents provided, the proposed zoning amendment for 86 Farnham Road would not result in impacts to natural heritage features or functions, based on the current land use plan. Further natural heritage review for this application is not required at this time.

Should you have any questions or require additional information please do not hesitate to contact the undersigned.

Province: Ontario **Postal Code:** N1H 6H9

This Notice is being issued under subsection 59 2(b) of the *Clean Water Act, 2006* and was prepared in response to an Application (as described above under Description / Supporting Documents) received for the property that is identified above. One or more of the land uses proposed to be engaged in, at the above noted property, has been designated as a restricted land use under Section 59 of the *Clean Water Act* and the application is either for a provision of the *Planning Act* prescribed under Section 62, Ontario Regulation 287/07 of the *Clean Water Act* or for a building permit under the *Ontario Building Code*.

The Application was reviewed in accordance with the *Clean Water Act* and the Grand River Source Protection Plan as amended. Based on the information submitted as part of the Application, b Section 58 (Risk Management Plan) of the *Clean Water Act* **applies**, at this time, to the activities outlined in the Application for the above referenced property.

Rationale: This Notice pertains to a Zoning By-law Amendment application submitted for 86 Farnham Road, Puslinch. There is an existing Risk Management Plan in place for this site. Please see the attached RMP and Section 58 Notice PUS-GR-PUS-24-001

- This Notice is only effective as it relates to the above referenced Application
- Any change to the information submitted under the Application nullifies this Notice, unless otherwise permitted by the Risk Management Official.
- This Notice is not valid for any subsequent approvals under the *Planning Act* or building permits under the *Ontario Building Code* for the property. Further Section 59 notices will be required for subsequent applications at the property and a risk management plan will be required.
- Pursuant to Section 53 (3), Ontario Regulation 287/07 under the *Clean Water Act*, this notice, once issued, is a public document. All information submitted for development of this notice is subject to the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA).

This Notice has been issued under the Authority of the Risk Management Official appointed for the Township of Puslinch under by-law 058-2017 and/or 62/15. This Notice has been issued in accordance with the *Clean Water Act, 2006*, Section 59, Ontario Regulation 287/07 and the Grand River Source Protection Plan, as amended.

If you require further information, please contact the undersigned.

GRCA File: ZBA – 86 Farnham Road

Lynne Banks
Township of Puslinch
7404 Wellington Road 34
Puslinch, ON N0B 2J0

Dear Ms. Banks,

Re: Zoning By-law Amendment
86 Farnham Road, Township of Puslinch
Jefferson Farms Ltd.

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted zoning by-law amendment.

Recommendation

The GRCA has no objection to the proposed zoning by-law amendment related to the Agricultural Zone. Based on discussions with the applicant, it is our understanding that changes to the Natural Environment (NE) Zone are no longer proposed. Please see detailed comments below.

GRCA Comments

GRCA has reviewed this application under the Mandatory Programs and Services Regulation (Ontario Regulation 686/21), including acting on behalf of the Province regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020), as a regulatory authority under Ontario Regulation 41/24, and as a public body under the *Planning Act* as per our CA Board approved policies.

Information currently available at this office indicates that the subject property contains Torrance Creek, an additional watercourse, floodplain, wetland, and the regulated allowance adjacent to these features. A copy of GRCA's resource mapping is attached.

Due to the presence of the features noted above, a portion of the subject property is regulated by the GRCA under Ontario Regulation 41/24 – Prohibited Activities, Exemptions and Permits Regulation. Any future development or other alteration within the regulated area will require prior written approval from GRCA in the form of a permit pursuant to Ontario Regulation 41/24.

The proposed zone change application will rezone a portion of the property from Agricultural (A) Zone to specialized Agricultural Zone to prohibit the use of existing accessory buildings as livestock facilities. The application also proposes to recognize a maximum height of 9.0 metres for one of the accessory structures. The rezoning is

required to satisfy the conditions of approval for the related consent application B17-23. Further to our previous comments on the related consent application, the GRCA has no objection to the approval of this application.

The draft by-law circulated with this application proposed changes to the NE Zone. Concerns with the proposed changes were discussed with the applicant and it is our understanding that these changes will be removed from the application. Since changes are no longer proposed to the NE Zone, potential impacts to the natural hazard features are not anticipated as a result of this application.

We wish to acknowledge receipt of the applicable plan review fee associated with B17-23. As such, a plan review fee for this application is not required.

Should you have any questions, please contact me at 519-621-2763 ext. 2228 or aherreman@grandriver.ca.

Puslinch, Ontario

Dear Lynne Banks,

RE: **NPG Comments**
86 Farnham Road
RE: Application for Zoning By-law Amendment

NPG Planning Solutions Inc. (NPG) has been retained to provide comments regarding a Zoning By-law Amendment Application to rezone the Subject Lands from Agricultural (A) and Natural Environment (NE) to a specialized Agricultural Zone (A-xx) and a site specific Natural Environmental Zone to prohibit livestock in the existing agricultural buildings; and to permit an existing barn to have a maximum height of 9 metres. A consent application was submitted in regard to the Subject Lands (File B17-23), which was approved with conditions on May 11, 2023. The consent application proposed for 0.42 ha of vacant lands to be severed from the Subject Lands for rural residential use. This Zoning by-law application is required to fulfill conditions of approval for the consent application.

Comments:

1. Please include the front yard setback from Carter Road and rear yard setback on the Zone Change Request Drawing.

Dear Courtenay:

**Re: ZONING BY-LAW AMMENDMENT – Final Submission Comments
Jefferson Farms Ltd. c/o Tom Jefferson & Robert Jefferson
86 Farnham Rd
Township of Puslinch**

Please find the Planning comments below in reference to the above noted Zoning By-law Amendment application. These comments are provided based on a review of the following:

Reports Submitted:

- Zoning By-law Amendment Application, dated April 11, 2024
- Scoped Planning Justification Letter, prepared by Van Harten Surveying Inc., dated December 22, 2023
- Draft Zoning By-law Amendment and Schedule "A"
- 3rd Submission Comments, prepared by Van Harten Surveying Inc., dated February 14, 2024
- Detailed Concept Sketch showing the severed and retained parcels for application B17-23, the existing buildings including building areas, heights and setbacks as well as proposed rezoning request, prepared by Van Harten Surveying Inc., dated February 13, 2024
- Service Ontario Property Index Map dated December 19, 2023
- Service Ontario Parcel Register dated December 19, 2023
- Transfer/Deed of Land dated January 9, 1991
- Farm Data Sheets for 86 Farnham Road dated December 14, 2023 and 83 Carter Road dated December 14, 2023

Planning Comments:

Based on the review of the information submitted, it appears that most of the comments previously made were responded to. Please note that Section 12.4 of the Township of Puslinch Zoning by-law does not permit to erect or alter any building/structure within NE Zone without prior consultation with the Conservation Authority. Therefore, it is our recommendation to remove any changes to the NE Zone within the draft By-law. This could be addressed through the formal process or as part of planning staff's recommendation to Township Council.

Provided the Township is satisfied that the comments from all other agencies have been addressed, the County planning staff has no concerns to deem the proposed Zoning By-law amendment application complete.

Regards,

Attention: Ms. Lynne Banks

Re: Zoning By-law Amendment
86 Farnham Road
Township of Puslinch

Dear Ms. Banks,

Following our review of Zoning By-Law Amendment (ZBA) application documents received on April 12, 2024, we are providing comments related to the ZBA required under the conditions of approved Severance Application B17-23 at 86 Farnham Road in the Township of Puslinch. Accessory buildings on the retained lot are located in close proximity to the severed lot. To accommodate residential use of the severed lot, a zone change is required to prohibit livestock in the accessory buildings to avoid future Minimum Distance Separation conflicts. No physical changes to the retained parcel are proposed.

Pre-consultation submissions were received on September 22, 2023 and January 9, 2024.

In support of the identification of engineering requirements for Zoning By-law Amendment, the following documents and drawings were received and reviewed:

- Zone Change Sketch, prepared by Van Harten Surveying, dated February 13, 2024.
- 3rd Submission Comments Response Letter, prepared by Van Harten Surveying, dated February 14, 2025.

We defer detailed review of the following to Township and County planning staff:

- Scoped Planning Justification Letter, prepared by Van Harten Surveying, dated December 22, 2023.
- Draft Zoning By-law Amendment and Schedule A.
- Transfer/Deed of Land, dated January 9, 1991.
- ServiceOntario Property Index Map, dated December 19, 2023.
- ServiceOntario Parcel Register, dated December 19, 2023.
- MDS Farm Data Sheet - 83 Carter Road, dated December 14, 2023.
- MDS Farm Data Sheet - 86 Farnham Road, dated December 14, 2023.

Based on our review of the above noted documents, we do not have any comments with respect to the ZBA.

If you have any questions or require additional information, please do not hesitate to contact us.

**Re: 86 Farnham Road, Puslinch, Ontario
Proposed Zoning By-law Amendment Application
Hydrogeological Preconsultation Comments**

Dear Lynne,

Harden Environmental Services Ltd. (Harden) is pleased to provide updated hydrogeological preconsultation comments for the proposed zoning by-law amendment application for 86 Farnham Road in Puslinch, Ontario (the site).

Based on the applicant's submission and supporting documents, we understand that:

- The proposed application is to sever an approximately 0.42 ha parcel of land and retain the remaining 32.6 ha parcel.

We have no objection to the proposed zoning by-law amendment.

From a hydrogeological perspective, the following will be required at the site plan control stage:

Nitrate Impact Assessment: A D-5-4 analysis of nitrate loading from the proposed septic system will be required as part of Site Plan Approval.

Supply Well Construction: The site is underlain by the Guelph Formation and the Goat Island / Gasport Formation aquifer separated by a regional aquitard. Wells that connect these two aquifers (i.e., multi-aquifer wells) are not permitted as part of the development. Newly constructed supply

wells for the site should be either installed in the upper bedrock aquifer or appropriately cased into the lower bedrock aquifer, in accordance with R.R.O. 1990, Reg. 903: Wells, to minimize potential groundwater movement between the upper and lower bedrock aquifers.

Well Decommissioning: Any unused wells must be abandoned by a licensed well contractor in accordance with R.R.O. 1990, Reg. 903: Wells.

Excess Soil Management: Any import/export of fill/soil from the site must be conducted in accordance with O. Reg. 406/19: On-Site and Excess Soil Management, the Rules for Soil Management and Excess Soil Quality Standards (Soil Rules) and O. Reg. 153/04, as amended.

These comments may be amended as additional information is provided by the proponent.

We appreciate the opportunity to provide these comments. Should you have any questions or concerns, please do not hesitate to contact the undersigned.

Re: **Natural Heritage Review for Zoning By-law Amendment Application
(Second Submission) - 86 Farnham Road, Township of Puslinch, Ontario
N0B 2J0 [Part of Lot 5, West of the Blind Line, Registered Plan 131, PIN
71185-0135] (File #D00/JEF)**

Dear Ms. Banks:

Azimuth Environmental Consulting, Inc. (Azimuth) is pleased to provide this peer review letter for the Township of Puslinch (Township) pertaining to a proposed Zoning By-law Amendment for the property located at the address above. Azimuth's review was completed by Dr. Scott Tarof (natural heritage).

Azimuth reviewed the following documents on behalf of the Township:

- 1) Scoped Planning Justification Report (December 22, 2023 from Van Harten Surveying Inc.);
- 2) Third Submission Comments – Zoning By-law Amendment Application for Approved Severance Application B17-23;
- 3) MDSI Farm Data Sheet – 86 Farnham Road (December 14, 2023);
- 4) MDSI Farm Data Sheet – 83 Carter Road (December 14, 2023); and,
- 5) Zone Change Sketch (February 13, 2024 from Van Harten Surveying Inc.).

Proposed Zoning Amendment

The Planning Justification Report states “As was discussed at the pre-consultation meeting, no physical changes to the retained parcel or any of the buildings thereon are proposed. As such, there can be no resulting impact on the natural environment features located to the rear of the property, nor any need for environmental review.” The MDSI Farm Data Sheet for 86 Farnham Road notes that buildings on the property “are not

capable of housing animals and are strictly for storage.” The MDSI Farm Data Sheet for 83 Carter Road notes the presence of horses on the property.

The Third Submission Comments for the Zoning By-law Amendment Application pertaining to the approved severance indicate that minimum yard setbacks are in compliance. The Comments further indicate that “There are no intentions to construct new accessory buildings to house livestock. However, we do not want to restrict that option in the future should the property owners want to house livestock, provided that that MDSII and the zoning requirements are met. The wording of the draft zoning amendment simply provides MDS control for this hypothetical.” The revised Zoning Change Sketch appears unchanged from a natural heritage perspective.

Based on the information provided, Azimuth’s conclusion from the Zoning By-law Amendment Application natural heritage peer review dated January 24, 2024 that the zoning amendment will not result in impacts to natural heritage features or functions has not changed and remains current.

Future Development Considerations

Third Submission Comments suggest that site alteration, development or change in land use may be a possibility in the future. Azimuth recommends that, in the event of future development applications for the property, the proponent should consider relevant federal, provincial and municipal policy and legislation, including (but not limited to) the Provincial Policy Statement (PPS), local Official Plans, and Ontario’s *Endangered Species Act*, 2007. In the event of future site alteration, development or change in land use, it is also noted that portions of the property are within the Regulation Limit of the Grand River Conservation Authority (GRCA).

As shared in the January 24, 2024 peer review letter and for information purposes, Azimuth notes the potential for Key Natural Heritage Features (KNHFs) and Key Hydrologic Features (KHF) to occur on the property, which may require consideration under possible future development scenarios. For example, woodlands on the property, appearing consistent with “Natural Environment”, “Environmental Protection” and “Core Greenlands” boundaries shown on the Rezoning Application sketch in the Planning Justification Report, are connected to large tracts of continuous woodland in excess of 20 hectares (ha). According to Section 5.5.4 of the County of Wellington Official Plan (2023), rural woodlands in excess of 4ha are mapped as Greenlands and should be considered Significant Woodland. Portions of a Provincially Significant Wetland Complex are also mapped on the property.

Conclusions

Based on our review of the resubmitted Zoning By-law Amendment Application documents provided, the proposed zoning amendment for 86 Farnham Road would not result in impacts to natural heritage features or functions, based on the current land use plan. Further natural heritage review for this application is not required at this time.

Should you have any questions or require additional information please do not hesitate to contact the undersigned.

Yours truly,
AZIMUTH ENVIRONMENTAL CONSULTING, INC.

This Notice is being issued under subsection 59 2(b) of the *Clean Water Act, 2006* and was prepared in response to an Application (as described above under Description / Supporting Documents) received for the property that is identified above. One or more of the land uses proposed to be engaged in, at the above noted property, has been designated as a restricted land use under Section 59 of the *Clean Water Act* and the application is either for a provision of the *Planning Act* prescribed under Section 62, Ontario Regulation 287/07 of the *Clean Water Act* or for a building permit under the *Ontario Building Code*.

The Application was reviewed in accordance with the *Clean Water Act* and the Grand River Source Protection Plan as amended. Based on the information submitted as part of the Application, b Section 58 (Risk Management Plan) of the *Clean Water Act* **applies**, at this time, to the activities outlined in the Application for the above referenced property.

Rationale: This Notice pertains to a Zoning By-law Amendment application submitted for 86 Farnham Road, Puslinch. There is an existing Risk Management Plan in place for this site. Please see the attached RMP and Section 58 Notice PUS-GR-PUS-24-001

- This Notice is only effective as it relates to the above referenced Application
- Any change to the information submitted under the Application nullifies this Notice, unless otherwise permitted by the Risk Management Official.
- This Notice is not valid for any subsequent approvals under the *Planning Act* or building permits under the *Ontario Building Code* for the property. Further Section 59 notices will be required for subsequent applications at the property and a risk management plan will be required.
- Pursuant to Section 53 (3), Ontario Regulation 287/07 under the *Clean Water Act*, this notice, once issued, is a public document. All information submitted for development of this notice is subject to the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA).

This Notice has been issued under the Authority of the Risk Management Official appointed for the Township of Puslinch under by-law 058-2017 and/or 62/15. This Notice has been issued in accordance with the *Clean Water Act, 2006*, Section 59, Ontario Regulation 287/07 and the Grand River Source Protection Plan, as amended.

If you require further information, please contact the undersigned.

GRCA File: ZBA – 86 Farnham Road

Lynne Banks
Township of Puslinch
7404 Wellington Road 34
Puslinch, ON N0B 2J0

Dear Ms. Banks,

Re: Zoning By-law Amendment
86 Farnham Road, Township of Puslinch
Jefferson Farms Ltd.

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted zoning by-law amendment.

Recommendation

The GRCA has no objection to the proposed zoning by-law amendment related to the Agricultural Zone. Based on discussions with the applicant, it is our understanding that changes to the Natural Environment (NE) Zone are no longer proposed. Please see detailed comments below.

GRCA Comments

GRCA has reviewed this application under the Mandatory Programs and Services Regulation (Ontario Regulation 686/21), including acting on behalf of the Province regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020), as a regulatory authority under Ontario Regulation 41/24, and as a public body under the *Planning Act* as per our CA Board approved policies.

Information currently available at this office indicates that the subject property contains Torrance Creek, an additional watercourse, floodplain, wetland, and the regulated allowance adjacent to these features. A copy of GRCA's resource mapping is attached.

Due to the presence of the features noted above, a portion of the subject property is regulated by the GRCA under Ontario Regulation 41/24 – Prohibited Activities, Exemptions and Permits Regulation. Any future development or other alteration within the regulated area will require prior written approval from GRCA in the form of a permit pursuant to Ontario Regulation 41/24.

The proposed zone change application will rezone a portion of the property from Agricultural (A) Zone to specialized Agricultural Zone to prohibit the use of existing accessory buildings as livestock facilities. The application also proposes to recognize a maximum height of 9.0 metres for one of the accessory structures. The rezoning is

required to satisfy the conditions of approval for the related consent application B17-23. Further to our previous comments on the related consent application, the GRCA has no objection to the approval of this application.

The draft by-law circulated with this application proposed changes to the NE Zone. Concerns with the proposed changes were discussed with the applicant and it is our understanding that these changes will be removed from the application. Since changes are no longer proposed to the NE Zone, potential impacts to the natural hazard features are not anticipated as a result of this application.

We wish to acknowledge receipt of the applicable plan review fee associated with B17-23. As such, a plan review fee for this application is not required.

Should you have any questions, please contact me at 519-621-2763 ext. 2228 or aherreman@grandriver.ca.

Sincerely,

Environmental Assessments & Approvals

July 24, 2024

AEC 21-130

Township of Puslinch
7404 Wellington Road 34
Puslinch, Ontario N0B 2J0

Attention: Lynne Banks, Development and Legislative Coordinator

Re: **Natural Heritage Review for Zoning By-law Amendment Application
(Third Submission) - 86 Farnham Road, Township of Puslinch, Ontario
N0B 2J0 [Part of Lot 5, West of the Blind Line, Registered Plan 131, PIN
71185-0135] (File #D00/JEF)**

Dear Ms. Banks:

Azimuth Environmental Consulting, Inc. (Azimuth) is pleased to provide this ecology peer review letter for the Township of Puslinch (Township) pertaining to a proposed Zoning By-law Amendment Application for the above property. Azimuth's review was completed by Dr. Scott Tarof (natural heritage).

Azimuth's initial pre-consultation ecology peer review (dated October 2, 2023) included high-level background mapping and Species at Risk records review based on municipal and provincial sources. The pre-consultation review included the following recommendations from a natural heritage perspective: "...field investigations related to an Environmental Impact Study (EIS) or SAR Assessment (for example) should not be necessary to render an assessment of potential impacts to natural heritage features and functions as a result of the proposed lot re-zoning. It is recommended that the applicant's environmental consultant prepare a letter summarizing environmental sensitivities associated with the retained lot and adjacent lands, and that evaluates the extent to which the proposed re-zoning would be consistent with applicable natural heritage policies of the Growth Plan (MMAH, 2020a), Provincial Policy Statement (MMAH, 2020b), ESA and County Official Plan (*e.g.* Section 10.2.2 for the Greenland System)."

Azimuth's second submission ecology peer review (dated May 1, 2024) included a natural heritage peer review of five documents, including a Scoped Planning Justification Report prepared by Van Harten Surveying Inc. (dated December 22, 2023). The Scoped

Planning Justification Report stated “As was discussed at the pre-consultation meeting, no physical changes to the retained parcel or any of the buildings thereon are proposed. As such, there can be no resulting impact on the natural environment features located to the rear of the property, nor any need for environmental review.” Azimuth concluded that the zoning amendment would not result in impacts to natural heritage features or functions, and noted that future environmental review would be appropriate in the event of any possible future proposed site alteration, development or change in land use.

Azimuth reviewed the following third submission documents on behalf of the Township:

- 1) Third Submission Pre-consultation Comment Summary;
- 2) A letter prepared by NPG Planning Solutions (NPG; dated June 16, 2024);
- 3) Third Submission Zone Change Sketch prepared by Van Harten Surveying Inc. (dated February 13, 2024 – same date as Second Submission Sketch); and,
- 4) Third Submission Updated By-law document prepared by the Township regarding By-law #023/18 (rezoning from Agriculture (A) Zone to Specialized Agriculture (A-xx) Zone.

The sketch appears unchanged in terms of natural heritage. The NPG letter stated that the “application was provisionally approved for the Subject Lands (File B17-23) on May 11, 2023”, that site-specific Natural Environment (NE) zoning would apply to the property prohibiting livestock in existing agricultural buildings and that an existing barn was permitted to a maximum height of nine metres. Review of the comment summary noted that, in a Grand River Conservation Authority letter (dated May 3, 2024), the conservation authority had “no objection to the proposed zoning by-law amendment related to the Agricultural Zone.” The By-law document noted that the proposed Zoning By-law Amendment application has been approved by the Township.

Azimuth has no further natural heritage comments on this file at this time. Should you have any questions or require additional information please do not hesitate to contact the undersigned.

Yours truly,
AZIMUTH ENVIRONMENTAL CONSULTING, INC.

GRCA File: D14-JEF – 86 Farnham Road

Lynne Banks
Township of Puslinch
7404 Wellington Road 34
Puslinch, ON N0B 2J0

Dear Ms. Banks,

Re: Zoning By-law Amendment D14-JEF
86 Farnham Road, Township of Puslinch
Jefferson Farms Ltd.

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted zoning by-law amendment.

Recommendation

The GRCA has no objection to the proposed zoning by-law amendment. Based on the most recent zone change text circulated for review, it is understood that changes to the Natural Environment (NE) Zone are no longer proposed. Please see detailed comments below.

GRCA Comments

GRCA has reviewed this application under the Mandatory Programs and Services Regulation (Ontario Regulation 686/21), including acting on behalf of the Province regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020), as a regulatory authority under Ontario Regulation 41/24, and as a public body under the *Planning Act* as per our CA Board approved policies.

Information currently available at this office indicates that the subject property contains Torrance Creek, an additional watercourse, floodplain, wetland, and the regulated allowance adjacent to these features. A copy of GRCA's resource mapping is attached.

Due to the presence of the features noted above, a portion of the subject property is regulated by the GRCA under Ontario Regulation 41/24 – Prohibited Activities, Exemptions and Permits Regulation. Any future development or other alteration within the regulated area will require prior written approval from GRCA in the form of a permit pursuant to Ontario Regulation 41/24.

The proposed zone change application will rezone a portion of the property from Agricultural (A) Zone to specialized Agricultural Zone to prohibit the use of existing accessory buildings as livestock facilities and also recognize a maximum accessory structure height of 9.0 metres. This rezoning is required to satisfy the conditions of

approval for the related consent application B17-23. Further to our previous comments on the consent application, the GRCA has no objection to the approval of this application.

The draft by-law circulated to the GRCA on May 30, 2024 removed all changes to the NE Zone that were previously proposed. Since changes are no longer proposed to the NE Zone, potential impacts to the natural hazard features are not anticipated as a result of this application.

We wish to acknowledge receipt of the applicable plan review fee associated with B17-23. As such, a plan review fee for this application is not required.

Should you have any questions, please contact me at 519-621-2763 ext. 2228 or aherreman@grandriver.ca.

Sincerely,

Andrew Herreman, CPT

REPORT PDAC-2024-004

TO: Planning and Development Advisory Committee Chair and
Members of Committee

PREPARED BY: Lynne Banks, Development and Legislative Coordinator

PRESENTED BY: Lynne Banks, Development and Legislative Coordinator

MEETING DATE: October 8, 2024

SUBJECT: Zoning By-law Amendment Application (D14/SCR)
Wythe Scrivener
4438 Watson Road S.
Request for Committee Review and Comments
File: D14/SCR

RECOMMENDATIONS

That Report PDAC-2024-004 entitled Zoning By-law Amendment Application D14/SCR Request for the Committee's review and comments be received; and

That the Committee provide the following comments for Council's consideration:

Purpose

The purpose of this report is to:

1. Advise the Committee of the application for a Site Specific Zoning By-law Amendment for a portion of the property described as Part Lots 21 and 22, Concession 9, Township of Puslinch, (the "Subject Lands"). The site is currently zoned Agricultural (A) and Natural Environment (NE) zone and application proposed to rezone a portion of the Subject Lands to a specialized Natural Environment Zone (NE-xx); and
2. Seek comments from the Committee prior to the Public Meeting tentatively scheduled for November 27, 2024.

Application

The proposed Zoning By-law Amendment is to amend the Township of Puslinch Zoning By-law 23-2018 to rezone a portion of the property from Agricultural (A) zone and Natural

Environment (NE) zone to a site specific Natural Environment (NE-xx) zone Environmental Protection Use and to limit the development of a residential dwelling, or other uses on the lot.

Background

A consent application was submitted in regards to the Subject Lands (File B28-24), which was approved with conditions on June 19, 2024. The consent application proposes to sever approximately 38.9 hectares from the property for environmental protection use. The Zoning By-law Amendment application is required to fulfill conditions of approval for the consent application.

The following reports and plans have been submitted with the pre-consultation application:

- Pre-Consultation Application, November 2023
- 1st Submission Draft Sketch, November 2023
- 1st Submission Map, November 2023
- 2nd Submission Planning Justification Report, January 2024
- 2nd Submission Environmental Impact Assessment Report, January 2024
- 2nd Submission Updated Sketch, January 2024
- 3rd Submission response to Pre-consultation Comments, March 2024

The following reports and plans have been submitted with the Zoning By-law Amendment application:

- 1st Submission Planning Justification Report – RARE Charitable Research Reserve, dated January, 2024.
- 1st Submission Source Water Screening Form, December, 2023
- 1st Submission EIS – RARE Charitable Research Reserve, dated January, 2024.
- 1st Submission Updated Zone Change Sketch – Van Harten Surveying Inc., dated July 2024.
- 1st Submission Draft Zoning By-law, dated August, 2024.

Consultation:

1. Pre-Consultation

A pre-submission consultation for the proposed rezoning was submitted on November 21, 2023 and the applicant was provided with preliminary comments from Township Staff and its consultants representing the Township, County of Wellington Planners and external agencies. There were 3 subsequent submissions before the final pre-consultation review of the Zoning By-

law Amendment Application was circulated on July 18, 2024 to Township staff, consultants, County of Wellington Staff and external agencies at which time all deficiencies were addressed as outlined in Schedule “B”.

Comments

The zoning amendment application including the prescribed fee was submitted to the Township on August 30, 2024. The applicant has paid the required fee to the Township and is responsible for paying all third party costs.

Council deemed the application to be complete on September 11, 2024 and the timelines in the Planning Act stipulate 90 days to process the application. The Township continues to process applications as close to the stipulated timelines as practical. The legislation sets out the following process to be completed:

- Circulate the statutory notice to properties within a 120 metre buffer, in addition to all required agencies;
- Peer review all submitted materials to the satisfaction of the Township;
- Present the application to the Township Planning and Development Advisory Committee for comments (October 8, 2024);
- Schedule and conduct at least one public meeting (scheduled for November 27, 2024);
- Advertise the complete application and public meeting in the Wellington Advertiser in accordance with statutory notice requirements and installing physical signage on the property; and
- Provide Council with a planning recommendation report and proposed by-law (tentatively scheduled for December 18, 2024).

Upload Map of Property or Detailed Physical Location

[2023_09_07_ScrivenerEIS_lg1.jpg](#)

Description of proposed development/use

This ZBA is an anticipated condition of a severance application being submitted to the County. The owners wish to sever conservation land from their dwelling, in order to donate it to the Agent's organization, a charitable land trust, to protect and steward in perpetuity as open space and wildlife habitat. The severed portion will be rezoned to Natural Environment (NE), assuming approval of retention of the existing unserviced shed.

Are there any additional questions, concerns, or comments to make staff aware of?

The rare Charitable Research Reserve acquires and stewards natural lands for the benefit of conservation, education, and research. We are a charitable land trust operating in Waterloo-Wellington, and currently own a total of 7 properties.

December 12th, 2023

Township of Puslinch
7404 Wellington Road 34
Guelph, ON N0B 2J0

Dear Ms. Lynne Banks:

Re: Pre-consultation Request – 4438 Watson Rd S – Conservation use severance

Thank you for circulating the request for pre-consultation comments for the above-noted property. As part of the pre-consultation, we have reviewed the following submitted items:

- Map provided by Rare Charitable Research Reserve

Based on our review of the above information, and in our capacity as the Township's Planning consultants, we offer the following planning comments for consideration:

The property is designated as Secondary Agricultural, Greenlands and Core Greenlands in the County of Wellington Official Plan. Identified features include Significant Wooded Area, Wetlands, Provincially Significant Wetlands, Environmentally Sensitive Area. The property is in the Paris-Galt Moraine Policy Area.

Proposal

The applicant is proposing to sever ~97.3 ac (39.3 ha) for Environmental Protection Use. The lands would be transferred to Rare Charitable Research Reserve. The retained lands are proposed to be ~16.3 ac (6.6 ha) and would remain in residential/agricultural use. Staff note a residential severance was created in approximately 2010 at the North corner of the property.

The property is zoned Agricultural, Natural Environment and Environmental Overlay.

Planning Comments

Severances in the Greenlands System and Secondary Agricultural areas are restricted. A new lot may be permitted in the Greenlands System if the lot is for conservation purposes which provide an overall benefit to the environment. Staff would request the applicant complete an environmental assessment outlining the features on the site and how they are proposed to be protected/enhanced. Further, staff would recommend a rezoning be applied for to limit the development of a residential dwelling, or other uses on the lot, and could include expanding the Natural Environment Zone to protect additional features identified in the environmental assessment.

COUNTY OF WELLINGTON

PLANNING AND DEVELOPMENT DEPARTMENT

Aldo L. Salis, BES, M.Sc. MCIP, RPP Director of Planning and Development

TEL: (519) 837-2600 ext. 2064

EMAIL: zacharyp@wellington.ca

ADMINISTRATION CENTRE

74 WOOLWICH STREET

GUELPH, ONTARIO

N1H 3T9

Staff would recommend the applicant look at reducing the size of the retained residential parcel, generally residential lots in the County are between 1-2 acres in size. Additionally, staff would recommend the consent be applied for prior to filing a zoning amendment.

Submission Requirements

Regarding application requirements for the zoning amendment; staff would require an Environmental Assessment and Planning Justification Report from the applicant.

I trust these comments will be of assistance if you have questions, please contact the County of Wellington Planning and Development Department.

Re: Development Review Request
4438 Watson Road South
Township of Puslinch

Dear Ms. Banks,

Following our review of the pre-consultation submission documents received on November 23, 2023, we are providing comments related to a future Zoning By-law Amendment (ZBA) application for the subject lands located at 4438 Watson Road South in the Township of Puslinch. It is our understanding that the current owner is looking to sever conservation land from their property and designate it as Natural Environment.

In support of the identification of the engineering requirements for future ZBA application, the following documents were received and reviewed:

- Development Review Meeting Request, by Tom Woodcock.
- Image of subject property and proposed retained parcel, dated November 22, 2023.

Therefore, we provide the following requirements in support of future ZBA application:

- **GRCA Review;** the applicant is to provide GRCA comments to Township.

The subject lands contain watercourses, waterbodies and wetlands regulated by the GRCA. Designation of the severed lands as Natural Environment may hinder future development of surrounding areas by limiting legal outlets for stormwater.

From an engineering perspective, we do not have any other comments with respect to the Zoning By-Law Amendment application.

If you have any questions or require additional information, please do not hesitate to contact us.

1.0 Introduction & Background

Groundwater Environmental Management Services Inc. (GEMS) understands that a request has been received regarding the proposed Zoning By-law Amendment for the severance of conservation land from the owners dwelling to donate it to the Agent's organization, a charitable land trust, to protect and steward in perpetuity as open space and wildlife habitat. The proposed severed portion of land will be rezoned to 'Natural Environment' (NE), assuming the approval of retention of an existing unserviced shed. The parcel of land in question is located at 4438 Watson Road South, Puslinch, Ontario.

To better understand the current site background and request, the following documents were reviewed:

- County of Wellington- Interactive Zoning Map
- Wythe Scrivener – Development Review Meeting Request for Zoning By-law Amendment -4438 Watson Road South, Puslinch – Dated November 21, 2023.
- Figure 1 – Subject Property Map – Charitable Research Reserve - 4438 Watson Road South, Puslinch – Dated November 22, 2023.
- Township of Puslinch – Comprehensive Zoning By-law No. 023-18. May 2021.

2.0 Review Results

As noted in the Development Review Meeting Request, a Zoning By-law Amendment is proposed to sever land from the owners' dwelling to be donated to a charitable land trust called rare Charitable Research Reserve, to steward and protect in perpetuity as open space and wildlife habitat. The amendment proposes the removal of approximately 97.3 acres from the existing subject property to be donated to the land trust and be re-zoned as 'Natural Environment' (NE), with approximately 16.3 acres retained by the property

owner. As per the County of Wellington Interactive Zoning Map, the subject site is currently designated as 'Agricultural' with multiple pockets of 'Natural Environment' which has the 'Environmental Protection Overlay'. As per the Township of Puslinch Zoning By-law No. 023-18, the 'Environmental Protection Overlay' corresponds to the Greenlands designation in the County Official Plan and indicates that a physical feature is present that may require further review or permissions prior to development approvals or issuance of building permit.

Notably, there are natural heritage features throughout the parcel with multiple pockets of Provincially Significant Wetland (PSW) and Unevaluated Woodland complex within the property proposed for severance, as well as retained parcel (MNRF Make a Map: Natural Heritage Areas). Additionally, multiple Species at Risk (SAR) were found within the MNRF Make a Map: Natural Heritage Areas NHIC Report. The site falls within zone 17NJ7016, 17NJ7116, and 17NJ7115 and includes species listed as special concern and threatened.

The rare Charitable Research Reserve acquires and stewards natural lands for the benefit of conservation, education, and research within the Waterloo-Wellington area; and currently owns a total of seven properties. Given the amount of land within the parcel that is designated as a PSW, land currently zoned as 'Natural Environment', 'Environmental Protection Overlay' and SAR in the area it is concluded that the proposed Zoning By-law Amendment to rezone the severed portion to 'Natural Environment' would have a net positive impact on the land and associated SAR that may be present on the property.

3.0 Limitations

Groundwater Environmental Management Services Inc. (GEMS) has prepared this report for our client and its agents exclusively. GEMS accepts no responsibility for any damages that may be suffered by third parties as a result of decisions or actions based on this report.

The findings and conclusions are site-specific and were developed in a manner consistent with that level of care and skill normally exercised by environmental professionals currently practicing under similar conditions in the area. Changing assessment techniques, regulations, and site conditions means that environmental investigations and their conclusions can quickly become dated, so this report is for use presently; the report should not be used without GEMS review/approval. No warranty, expressed or implied, is made.

4.0 Closing

We trust this information will meet your current requirements. Please do not hesitate to contact the undersigned should you have any questions or require additional information.

Yours truly,
Groundwater Environmental Management Services Inc.

Dear Ms. Banks,

Re: Pre-Consultation Request
4438 Watson Road South, Township of Puslinch
Owner – Wythe Scrivener
Agent – Tom Woodcock

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted pre-consultation request for 4438 Watson Road South in the Township of Puslinch. It is understood that the applicant wishes to sever conservation land from their dwelling and donate it to a charitable land trust. It is anticipated that a Zoning By-law Amendment will be a condition of a severance application to be submitted to the County of Wellington.

GRCA Comments

Information available at this office indicates that most of the property is regulated by the GRCA due to the presence of the Mill Creek Puslinch Provincially Significant Wetland (PSW) Complex, watercourse/waterbody, floodplain, and the regulated allowance to these features. GRCA regulated areas mapping has been appended to this letter. Proposed development or site alteration within GRCA regulated area will require prior written consent from the GRCA in the form of a permit pursuant to Ontario Regulation 150/06.

1. It is the understanding of the GRCA that a wetland delineation was completed in the fall of 2023 for the wetland segment adjacent Watson Road South. The wetland limits have been confirmed in the field by GRCA ecologists. The GRCA requests that the confirmed wetland boundary be surveyed, and that information sent to the GRCA for confirmation. It is further requested that the surveyed wetland boundary be used when submitting for ZBA and Consent applications. It is recommended that proposed new lot lines be located outside of the wetland boundary.
2. The GRCA would not support new development or site alteration within the wetland or floodplain on the property. Proposed development or site alteration may necessitate the completion of an Environmental Impact Study (EIS) to demonstrate no negative impacts to the wetland as a result of potential development.

Should you have any questions, please contact me at 519-621-2236, or clorenz@grandriver.ca.

Sincerely,

Chris Lorenz, M.Sc.
Resource Planner

**Environmental Impact Statement for Land Severance
4438 Watson Road South
Township of Puslinch**

Second Draft, January 15, 2024

Prepared By

***rare* Charitable Research Reserve**

1679 Blair Road

Cambridge, ON, N3H 4R8

Tom Woodcock, Ph.D.

Planning Ecologist

519-650-9336 ext. 121

Project Description and Background

The ***rare* Charitable Research Reserve (*rare*)** is an urban land trust and environmental institute based in Cambridge, Ontario. We protect and steward over 1200 acres of environmentally significant lands in Waterloo Region and Wellington County, benefitting the community through conservation, research, and education. Under the banner of raresites, ***rare*** has the goal to bring more lands of high ecological significance under our umbrella through land donations, acquisition, conservation agreements or stewardship partnerships, with a particular regard for connectivity and ecological integrity in our land securement planning, advised by the raresites Land Securement Team, protecting lands intact and in perpetuity for the benefit of future generations. As a charitable land trust and qualified recipient under the Ecological Gifts Program (EcoGifts) of Environment and Climate Change Canada, ***rare*** is required to protect, steward, and conserve its properties in perpetuity, for the benefit of the community.

Residents of Puslinch and long-time stewards of the land located at 4438 Watson Rd. S., Wythe and Rosemary Scrivener, have expressed a willingness to donate ecologically significant land on their property to *rare* under the EcoGifts Program. Currently this property includes the Scrivener residence, with surrounding landscape features and outbuildings, agricultural fields leased to a neighbouring farmer, and natural habitat areas of wetland and upland forest (Figure 1). A Consent Application, supported by a Zoning Bylaw Amendment, is therefore necessary to sever the conservation land from the residence, in order that it can be protected in accordance with the wishes of the donors.

Key elements of the project are as follows:

- This property consists of a mixture of agricultural land and natural habitat, zoned as Secondary Agricultural and Greenlands/Environmental Protection (overlay), respectively.
- GRCA delineated wetland affects the boundary of the proposed severance. Updated GRCA policy prevents wetlands from being divided between lots but does not require a buffer between the property line and the wetland. The GRCA confirmed current wetland delineation on-site, prior to the survey of the severance boundary.
- The Severed Lands will have physical road frontage on both Watson Rd. S. and Wellington Rd. 34, with the formal entrance expected at one of these existing gates. With the exception of potential improvement to a small parking area or driveway at the entrance to allow off-street access to the property, no construction will ever be allowed on the portion severed for conservation purposes, and no change of use is expected. The parking area will allow the attendance of *rare* staff for maintenance and stewardship purposes, in addition to volunteer, educational, and interpretive events led by *rare* staff. The parking area would not be accessible outside of sanctioned *rare* events. The location and nature of the entrance will be determined in consultation with Puslinch Township staff.
- From a broader perspective, securement of land by *rare* contributes to the achievement of Canada's international commitments to protect 25% of terrestrial and freshwater habitat by 2025, and 30% by 2030. Protection of land in Southern Ontario is particularly important, as this area is one of Canada's most biodiverse, and also faces the highest human population pressure.
- This property has several layers of protection from development or other damage and alteration (Township of Puslinch zoning bylaw, County Greenlands designation, GRCA wetland designation and regulated area, Significant Woodland designation, Provincially Significant Wetland). It is expected that a Zoning Bylaw Amendment application will be made to the Township as a condition of the severance.
- As a land trust, *rare* will develop an Environmental Management Plan, and carry out a variety of activities to protect, improve, and restore the property as needed, and bring it into a system of secured and protected lands in rapidly urbanizing Waterloo-Wellington. The application of the *rare* model of conservation, research, and education will allow wise management and community engagement in providing ecological benefits, as our organization builds a system of protected lands in Puslinch Township and beyond.

Terms of Reference

An Environmental Impact Statement (EIS) is a mechanism for describing potential direct and indirect impacts of a proposed development within or adjacent to a natural heritage feature or system. An EIS is triggered if the proposed development project occurs within 120 meters of Provincially Significant Wetlands, provincially significant Life Science Areas of Natural and Scientific Interest, significant habitat of endangered and threatened species, fish habitat, significant wildlife habitat, significant valley lands, and significant woodlands. The EIS will assess impacts anticipated from the proposed severance for conservation purposes on natural heritage features, functions and linkages. These may include, but are not limited to:

- Significant wetlands, designated provincially, municipally, or by the conservation authority
- Significant woodlands, designated provincially, municipally, or by the conservation authority
- Significant valley lands
- Significant wildlife habitat
- Significant Areas of Natural and Scientific Interest (ANSI)
- Habitat of threatened and endangered species
- Fish habitat
- Natural heritage systems and linkages
- Ground and surface water features

This EIS applies to a proposed conservation severance on the property located at 4438 Watson Rd. S. in the Township of Puslinch, Wellington County (Figure 1). The total area of the property is **114.7** acres (**46.4** ha), encompassing the residence of the donor and the conservation lands in the proposed severance. If the proposed severance is accepted, the Retained Lands (residential property) will be **18.6** acres (**7.51** ha), and the Severed Lands (conservation parcel) will include **96.1** acres (**38.9** ha) of mixed agricultural fields and wooded areas, including Provincially Significant Wetlands that are part of the Mill Creek – Puslinch Wetland Complex (note that under recent provincial legislation, PSW complexes may no longer be given formal standing).

No development shall occur on the land in the conservation severance, which will be conserved in perpetuity according to the governing principles of *rare*. This will be formalized through a re-zoning application to the Township of Puslinch, which will change the zoning of the land that is currently “Secondary Agriculture” to “Natural Environment”, which will still permit lease of the land for farming activities in the existing fields. The intention and legal requirement of *rare* (as a charitable land trust) is for monitoring and stewardship in perpetuity, with potential for non-destructive ecological research and education activities. All ecological processes and services on the property, including the Source Water/Wellhead Protection Area on the severed lands, shall be maintained or enhanced.

Environmental Impact Statement

Although generally new lots are not allowed in Ontario on environmentally significant and rural properties, exceptions may be granted provided that “the lot is for conservation purposes which provide

an overall benefit to the environment” (Wellington County Official Plan, Section **10.2.1c**). Although a new residential lot was created in 2010 from this property (which remains unbuilt), that lot creation should not prejudice this creation of a lot for conservation purposes. It is not expected that there will be any material change in any environmental characteristic of either the retained or severed parcel, and it must be emphasized that NO construction, alteration, or other development activities of any kind will occur on the severed lot, except the parking area as indicated above. There is no new building lot created, no new structures planned, and the uses of the property will remain unchanged. When the severed property comes under the ownership of *rare*, it is expected that environmental quality will be maintained or improved, as the model of *rare’s* stewardship, demonstrated on multiple properties in Waterloo-Wellington, will be applied to this property. The engagement of the community with the space through *rare*-led stewardship and educational events are planned, and consistent with the wishes of the donors. The benefit to the community will come from the protection of ecological processes and services, and conservation of wildlife habitat.

There are a variety of key ecological features, functions and linkages that are represented on this property, in an area under development pressure by resource extraction and rural or suburban housing developments located in areas with similar zoning, both existing and currently under review by municipalities. The property is also part of a larger intact area in the heavily developed Grand River basin, and represents an important habitat corridor in the area, including designated significant woodlands and the Mill Creek – Puslinch Wetland Complex. Bringing the lands under *rare’s* land trust ownership would ensure the lands remain intact and protected for conservation activities only, such as ongoing stewardship and threat mitigation, monitoring, and to develop environmental research projects on the property. There will be opportunities to engage the community through related stewardship and educational events, such as restoration volunteer days. There are no plans to build additional trails, or to open the property to unsupervised recreational use by the general public. Early stewardship priorities will include an inventory of biodiversity, invasive plant surveys and control as necessary, planting of native species in appropriate areas, and development of management and monitoring plans.

The proposed severance boundary has been determined through consultation with the generous donors, the Grand River Conservation Authority, and municipal authorities (Figure 1). With these safeguards in place, there are no anticipated impacts, direct or indirect, associated with the proposed severance. Under stewardship and care of *rare*, conditions post-development will be maintained or improved in terms of ecological features, functions, and linkages. Based on the information provided above, *rare* suggests that the effects of the severance as described will not contravene regulatory requirements and represents sound environmental planning.

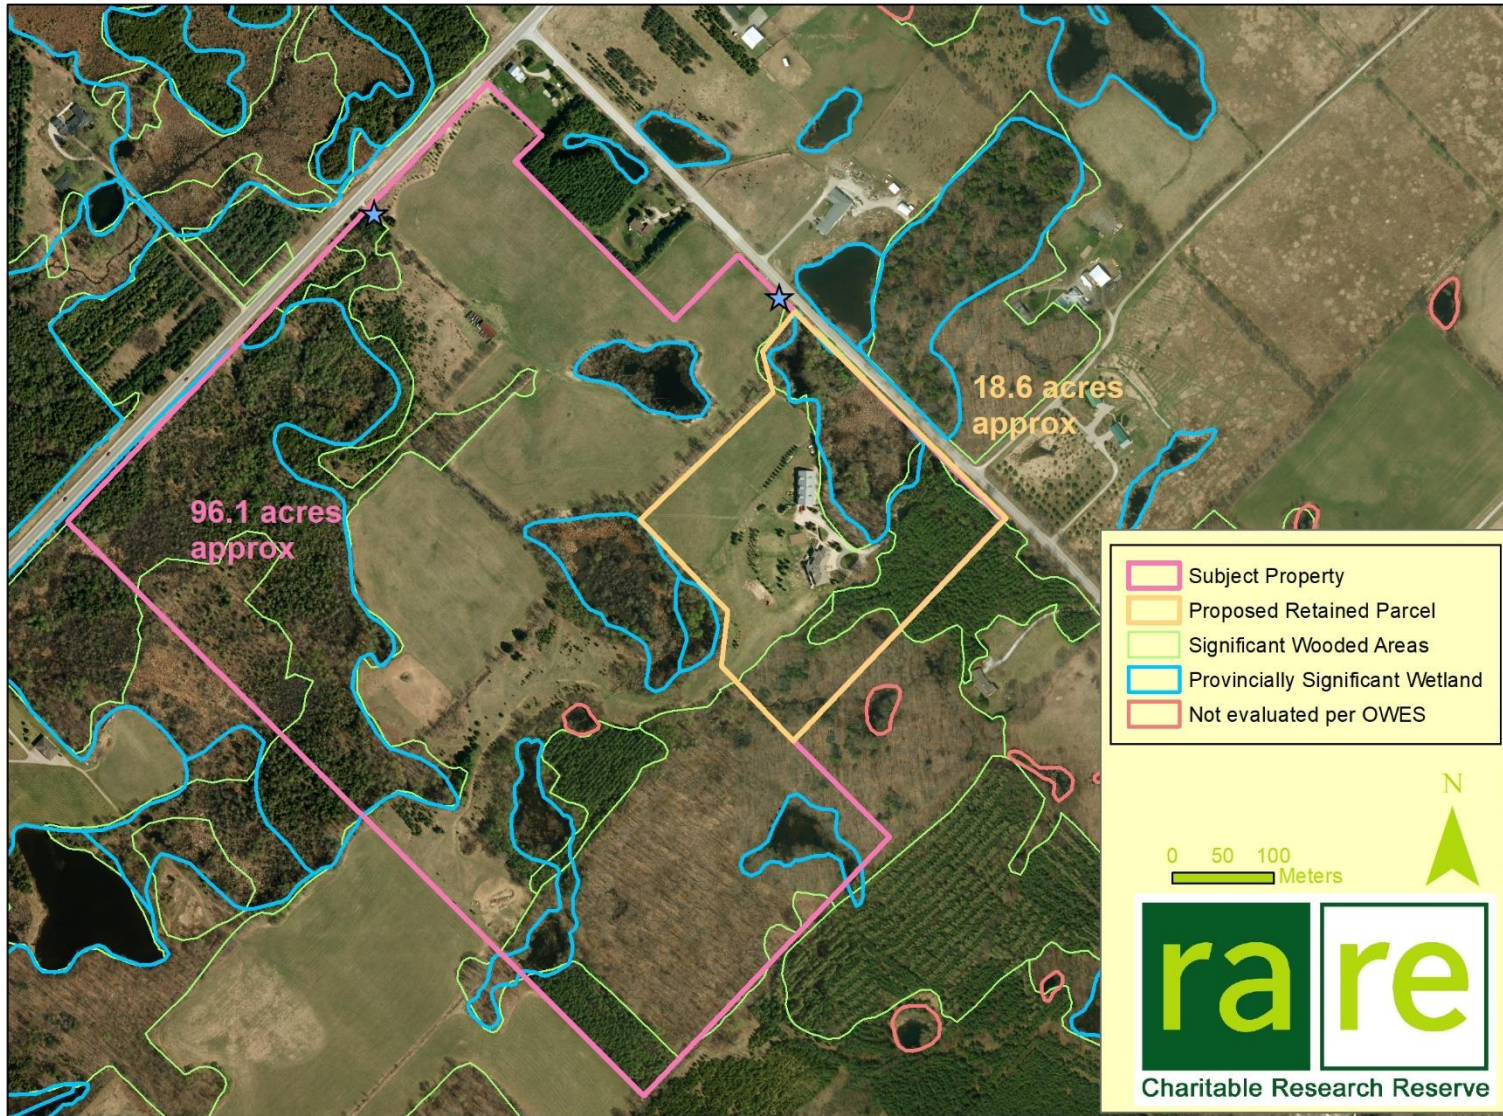

Figure 1. The property at 4438 Watson Rd. S., Puslinch, indicating Environmentally Significant Features.

1.0 Introduction

1.1 Background

The **rare Charitable Research Reserve (rare)** is an urban land trust and environmental institute based in Cambridge, Ontario. We protect and steward over 1200 acres of environmentally significant lands in Waterloo Region and Wellington County, benefitting the community through conservation, research, and education. Under the banner of raresites, **rare** has the goal to bring more lands of high ecological significance under our umbrella through land donations, acquisition, conservation agreements or stewardship partnerships, with a particular regard for connectivity and ecological integrity in our land securement planning, advised by the raresites Land Securement Team, protecting lands intact and in perpetuity for the benefit of future generations. As a charitable land trust and qualified recipient under the Ecological Gifts Program (EcoGifts) of Environment and Climate Change Canada, **rare** is required to protect, steward, and conserve its properties in perpetuity, for the benefit of the community.

Residents of Puslinch and long-time stewards of the land located at 4438 Watson Rd. S., Wythe and Rosemary Scrivener, have expressed a willingness to donate ecologically significant land on their property to **rare** under the EcoGifts Program. Currently this property includes the Scrivener residence, with surrounding landscape features and outbuildings, agricultural fields leased to a neighbouring farmer, and natural habitat areas of wetland and upland forest (Figure 1). A Consent Application is therefore necessary to sever the conservation land from the residence, in order that it can be protected in accordance with the wishes of the donors. The Zoning Bylaw Amendment will preclude future development on the severed parcel, while not preventing agricultural use. While there was a previous severance of a residential lot by the property owners (2010), this should not prejudice the creation of a lot for conservation purposes, which is still desirable under the planning documents and analysis below (Section 2).

1.2 Site Description and Surrounding Uses

The total area of the property is **114.7 acres (46.4 ha)**, encompassing the residence of the donor and the conservation lands in the proposed severance. The proposed Severed portion of the subject property is **96.1 acres (38.9 ha)** of mixed agricultural fields and wooded areas, including Provincially Significant Wetlands that are part of the Mill Creek – Puslinch Wetland Complex (see Figure 1). Thus, the property has several layers of protection from development or other damage and alteration. As a land trust, **rare** can carry out a variety of activities to protect, improve, and restore the property as needed, and bring it into a system of secured and protected lands in rapidly urbanizing Waterloo-Wellington. The application of the **rare** model of conservation, research, and education will allow wise management and community engagement in providing ecological benefits, as our organization builds a system of protected lands in Waterloo-Wellington. The Retained portion of the subject property shall continue to be owned by the donors as their residence and is not subject to the Zoning Bylaw Amendment application. These Retained lands will be **18.6 acres (7.51 ha)**, and include the residence, outbuildings, driveway and landscaped areas associated with the applicants' dwelling. Although this lot exceeds the average area for a rural residence, it is required to encompass the large dwelling area, and is also similar to other large estate lots in this part of Puslinch Township.

There are a variety of key ecological features, functions and linkages that may be affected, directly or indirectly, by development. Bringing the lands under *rare's* land trust ownership would ensure the lands remain preserved for conservation activities only, such as ongoing stewardship and threat mitigation, monitoring, and the potential to develop environmental research projects on the property. There are significant areas of wetland and woodland on the surrounding properties, which make this parcel part of a larger area of conservation significance in the landscape, including for Source Water Protection. There would be opportunities to engage the community through a limited number of related events, such as restoration volunteer days. Access to the property would be limited to *rare* staff and stewardship or monitoring volunteers. In this scenario, there are no plans for open public access or to build additional trails.

Overall, the severed parcel includes the following ecologically valuable features:

1. 23.8 acres (9.63 ha) of agricultural fields, currently growing hay crops and leased to a local tenant farmer. Leasing of the land expected to continue in the near term, although restoration to other open space habitat, such as meadow or grassland, may occur in the future.
2. A portion of the Puslinch-Mill Creek Wetland Complex (PSW) totalling 29.3 acres (11.9 ha). There are several types of wetlands within the subject property, including a large area of white cedar swamp, several isolated areas of forested wetland, and small pools embedded in the hilly topography of the upland forest.
3. The remainder of the property is uncultivated fields and forests, including an area of upland mixed forest in the southern area, coniferous plantations, and open goldenrod-forb meadow.

1.3 The Proposal

A Zoning By-law Amendment is required for the agricultural portion of the subject lands to EP (Environmental Protection), which will provide adequate protection for the environmental and natural heritage features, while still permitting agriculture to continue on this parcel. This is the only available means by which these land uses may be continued, and all policies satisfied as described above.

Consequently, the proposed rezoning the portion of the subject lands exclusive of the Retained parcel from Secondary Agriculture to Environmental Protection. No rezoning is requested for the portion of the subject lands that is already zoned EP (Environmental Protection), namely the Greenlands and Core Greenlands, or for lands in the Retained parcel. The result of the ZBA will be to prevent any future development on the Severed parcel (conservation lands). The Retained (residential) parcel will continue to be subject to all limits to development which preceded this application, including no further subdivision or severance of accessory lots, due to the 2010 severance of a rural residential lot.

“The proposed amendment to TOWNSHIP OF PUSLINCH Comprehensive Zoning Bylaw No. 023-18 (consolidated May 2021) to amend the severed portion of PT LOT 21, CON 9, DES AS PT 1, 61R-11450, TWP OF PUSLINCH [Part 2 in Appendix I] from a mix of Secondary Agriculture and Environmental Protection, solely to Environmental Protection. This severance is intended to support conservation purposes only, to the exclusion of all other uses.”

Discussion with the property owners and municipal staff, and use of the AgriSuite online tool (see output in Appendix II) indicate that there are no livestock operations within the radius of the property that would require submission of Minimum Distance Separation (MDS) evaluations. Furthermore, as no new residential lot is being proposed that could potentially be affected, there is no conflict in use. It is understood that an entrance to the conservation property will need to be established, likely at an existing entrance to the property on Watson Rd. S., and if aggregate or fill is required to improve the existing driveway area a Site Alteration Permit will need to be sought from the Township.

2.0 Planning Documents and Analysis

2.1 Provincial Policy Statement

The Provincial Policy Statement (PPS) does not allow more than one new residence per existing rural lot, although exceptions are made to allow severance for conservation purposes. The conservation lot, which is proposed to be rezoned, will be secured in perpetuity, according to the mission of *rare*.

2.2 Growth Plan for the Greater Golden Horseshoe

The Growth Plan places a strong emphasis on protecting what is valuable (Section 4), which is particularly applicable to land trust activities. This conservation severance and zoning bylaw amendment will allow *rare* to steward and protect resources identified in the Growth Plan, most notably Water Resource Systems (section 4.2.1), Natural Heritage Systems (section 4.2.2), Key Hydrologic and Key Natural Heritage Features (section 4.2.3) and lands adjacent to them (section 4.2.4), in addition to the Agricultural System (section 4.2.6). The Plan directs lower-tier municipalities to conserve environmental and agricultural features in their management of growth (section 2.2.1.3d), which will be supported by the proposed change in zoning for the conservation severance.

2.3 County of Wellington Official Plan

The Township of Puslinch defers to the County in matters of the Official Plan.

Although generally new lots are not allowed in Ontario on environmentally significant and rural properties, exceptions may be granted provided that “the lot is for conservation purposes which provide an overall benefit to the environment” (Wellington County Official Plan, Section 10.2.1c). A buffer of at least 30 meters is maintained between all of the designated environmental features named above and the edge of Section 1 (the Development Parcel), and Sections 2, 3, and 4 will be rezoned as Environmental Protection (EP) (the Conservation Parcel), as shown in Figure 1.

2.4 Grand River Conservation Authority

The Grand River Conservation Authority (GRCA) regulates the majority of this parcel, as most of the property is within 120m of wetlands (Figure 1). In order to guarantee appropriate zoning that prevents any future residential lot, while still allowing agriculture to continue as practical, this zoning bylaw amendment is necessary.

3.0 Conclusion

The findings of this report demonstrate that the proposed Zoning Bylaw Amendment applicable to the subject lands, which will allow severance of the existing residential dwelling, together with its outbuildings and surrounding landscaped area, and update zoning of the conservation parcel for both protection of the environment and continuance of agriculture for as long as is feasible. The amendment is specifically to prohibit development of any kind on the severed parcel, in perpetuity. This proposal is consistent with applicable provincial and municipal land use planning policy as described above and represents good land use planning.

Dear Courtenay:

**Re: ZONING BY-LAW AMMENDMENT – 2nd Submission Comments
Wythe and Rosemary Scrivener and Rare Charitable Trust
4438 Watson Rd S
Township of Puslinch**

Please find the Planning comments below in reference to the above noted Zoning By-law Amendment application (2nd Submission). These comments are provided based on a review of the following:

Reports Submitted:

- Environmental Impact Statement for Land Severance, prepared by rare Charitable Research Reserve, dated January 15, 2024
- Concept Sketch for severance application, prepared by J. D. Barnes Ltd., dated January 15, 2024
- Planning Justification Report for Zoning Amendment, prepared by rare Charitable Research Reserve, dated January 15, 2024

Proposed Use

It is acknowledged that a severance application is proposed prior to application of the Zoning Bylaw Amendment (ZBA). The severance application proposes to sever 97.3 ac (39.3 ha) for Environmental Protection Use. The lands would be transferred to Rare Charitable Research Reserve. The retained lands are proposed to be 16.3 ac (6.6 ha) and would remain in residential/agricultural use.

The intent of the ZBA application is to rezone the proposed severed parcel of the subject property from Agricultural (A) Zone to Natural Environment Site Specific (NE-xx) Zone and Natural Environment Zone to Natural Environment Site Specific (NE-xx) Zone to prohibit future development. Please provide a draft by-law as a part of the application.

Planning Comments:

1. Based on a review of the additional information submitted, we acknowledge the following:
 - a. The applicant has provided a planning justification report and an Environmental Impact Statement for the proposed severance.

- b. The applicant has provided a site plan and has identified the retained parcel is proposed to be accessed by Watson Rd S and Wellington Rd 34.
- i. Please identify the existing buildings on the retained parcel with their area, height, and current and proposed uses.
 - ii. Please provide details of additional uses and buildings proposed.
 - iii. Given the intent is to have the property accessed by the public, please provide details for the proposed parking in compliance with Section 5 of the Township zoning by-law.

Additional Comments/Clarification Items:

Although it appears most of the comments previously made were responded to, we do ask that the above comments be addressed to determine compliance the Zoning By-law. Please ensure that a severance application is submitted to the County of Wellington Land Division Committee.

Please provide additional details requested, prior to deeming the proposed ZBA application complete.

We trust that these comments are of assistance and request a response letter addressing all comments to be submitted prior to deeming this application complete.

Yours truly,

Zach Prince, RPP MCIP

Re: Pre-consultation Process Request for Zoning By-law Amendment 4438 Watson Road South, Puslinch – 2nd Submission
Project #: 21-1227

1.0 Introduction & Background

Groundwater Environmental Management Services Inc. (GEMS) understands that a request has been received regarding the proposed Zoning By-law Amendment for the severance of conservation land from the owners dwelling to donate it to the Agent's organization, a charitable land trust, to protect and steward in perpetuity as open space and wildlife habitat. The proposed severed portion of land will be rezoned to 'Natural Environment' (NE), assuming the approval of retention of an existing unserviced shed. The parcel of land in question is located at 4438 Watson Road South, Puslinch, Ontario. Notably, this is the 2nd review of documents provided by *rare* Charitable Research Reserve supporting the Zoning By-law Amendment application.

To better understand the current site background and request, the following documents were reviewed:

- *rare* Charitable Research Reserve – Planning Justification Report for Zoning Amendment 4438 Watson Rd. S., Puslinch – January 15, 2024
- *rare* Charitable Research Reserve – Environmental Impact Statement for Land Severance 4438 Watson Road South, Township of Puslinch – Second Draft January 15, 2024
- J.D. Barnes Limited – Sketch Prepared for Severance Application #23-14-044-00 – January 15, 2024

2.0 Review Results

On December 14, 2023 a Pre-consultation meeting was held to discuss the proposed Zoning By-law Amendment application regarding the parcel of land located at 4438 Watson Road South, Puslinch, Ontario. Prior to the meeting, GEMS provided a review of background information and documents submitted by the owner and *rare* Charitable Research Reserve regarding the property in question. GEMS concluded that given

the amount of land within the parcel that is designated as a PSW, land currently zoned as 'Natural Environment', 'Environmental Protection Overlay' and SAR in the area it is concluded that the proposed Zoning By-law Amendment to rezone the severed portion to 'Natural Environment' would have a net positive impact on the land and associated SAR that may be present on the property.

A Planning Justification Report and Environmental Impact Statement have now been submitted by *rare* Charitable Research Reserve in support of the Zoning By-law Amendment. As noted in the Justification Report:

"The proposed amendment to TOWNSHIP OF PUSLINCH Comprehensive Zoning Bylaw No. 023-18 (consolidated May 2021) to amend the severed portion of PT LOT 21, CON 9, DES AS PT 1, 61R-11450, TWP OF PUSLINCH [Part 2 in Appendix I] from a mix of Secondary Agriculture and Environmental Protection, solely to Environmental Protection. This severance is intended to support conservation purposes only, to the exclusion of all other uses."

The Environmental Impact Statement supporting the amendment concludes that there are no anticipated impacts to the associated with the land severance and suggests that "the effects of the severance as described will not contravene regulatory requirements and represents sound environmental planning."

After reviewing the additional documentation submitted supporting the proposed Zoning By-law Amendment, GEMS anticipates that the proposed land severance will have no negative impacts on the property in question and result in a net positive impact on the land and associated SAR that may be present on the property. Should any development on the lot occur in the future, GEMS recommends the completion of a full Environmental Impact Study.

3.0 Limitations

Groundwater Environmental Management Services Inc. (GEMS) has prepared this report for our client and its agents exclusively. GEMS accepts no responsibility for any damages that may be suffered by third parties as a result of decisions or actions based on this report.

The findings and conclusions are site-specific and were developed in a manner consistent with that level of care and skill normally exercised by environmental professionals currently practicing under similar conditions in the area. Changing assessment techniques, regulations, and site conditions means that environmental investigations and their conclusions can quickly become dated, so this report is for use presently; the report should not be used without GEMS review/approval. No warranty, expressed or implied, is made.

4.0 Closing

We trust this information will meet your current requirements. Please do not hesitate to contact the undersigned should you have any questions or require additional information.

Yours truly,
Groundwater Environmental Management Services Inc.

Memorandum

To: Lynne Banks – Development and Legislative Coordinator, Township of Puslinch

Cc: Zach Prince – Senior Planner, Wellington County

From: Kim Funk – Source Protection Coordinator, Wellington Source Water Protection

**RE: 4438 Watson Rd S, Township of Puslinch
Zoning By-law Amendment - Preconsultation Submission 2**

Wellington Source Water Protection (WSWP) staff have had the opportunity to review the submitted documents in support of the above noted application. Based on our review, WSWP have no objections to the proposed application receiving draft approval.

The applicant has submitted a Source Water Protection Drinking Water Threats Screening Form and indicated that no activities are proposed on the property that will be significant drinking water threat. Pursuant to the *Clean Water Act*, there is no Notice required for this proposal. It should be noted that if the nature of the development changes, Section 59 Notices may apply.

For more information, please contact sourcewater@centrewellington.ca.

Puslinch, ON, N0B 2J0

Dear Ms. Banks,

Re: Pre-Consultation Request – 2nd Submission
4438 Watson Road South, Township of Puslinch
Owner – Wythe Scrivener
Agent – Tom Woodcock

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted pre-consultation (2nd submission) request for 4438 Watson Road South in the Township of Puslinch. It is understood that the applicant wishes to sever conservation land from their dwelling and donate it to a charitable land trust. It is anticipated that a Zoning By-law Amendment will be a condition of a severance application to be submitted to the County of Wellington.

GRCA Comments

Information available at this office indicates that most of the property is regulated by the GRCA due to the presence of the Mill Creek Puslinch Provincially Significant Wetland (PSW) Complex, watercourse/waterbody, floodplain, and the regulated allowance to these features. GRCA regulated areas mapping has been appended to this letter. Proposed development or site alteration within GRCA regulated area will require prior written consent from the GRCA in the form of a permit pursuant to Ontario Regulation 150/06.

1. It is the understanding of the GRCA that a wetland delineation was completed on October 3rd, 2023 for the wetland segment adjacent Watson Road South. The wetland limits have been confirmed in the field by GRCA ecologists. The GRCA requests that the confirmed wetland boundary be surveyed, and that information (i.e., GIS shapefile) sent to the GRCA for confirmation. It is further requested that the surveyed wetland boundary be used when submitting for ZBA and Consent applications. It is recommended that proposed new lot lines be located outside of the wetland boundary.
2. The GRCA would not support new development or site alteration within the wetland or floodplain on the property. Proposed development or site alteration may necessitate the completion of an Environmental Impact Study (EIS) to demonstrate no negative impacts to the wetland as a result of potential development.
3. Please note that the planned future development of a parking lot will require GRCA permit authorization.

Should you have any questions, please contact me at 519-621-2761 ext. 2327, or vwismer@grandriver.ca.

Sincerely,

Tyler Slaght, RPP, MCIP
Supervisor of Resource Planning

To Whom it May Concern,

This is a response to comments provided for the second stage of planning pre-consultation regarding the Zoning Amendment and Consent Application for 4438 Watson Rd. S. in the Township of Puslinch, Ontario. This property is being severed in order to be donated to the **rare** Charitable Research Reserve, a land trust operating in Waterloo-Wellington, for protection and stewardship in perpetuity. This is in accordance with the wishes of the donors, Wythe and Rosemary Scrivener. The comments and requests for further information are answered below, the efforts of all commenting individuals and agencies are appreciated.

Grand River Conservation Authority

1. We are working with the surveyor to obtain the geodata from their survey of the recently delineated wetland boundary. This will be shared with GRCA at the earliest opportunity.
2. No development is intended, apart from the improvement of the access point on Watson Rd. S.
3. A parking lot will not be constructed on the property (see response to Wellington County comments, below). The current gated access point on Watson Rd. S. is usable by farm vehicles and trucks, but may require improvement for other vehicle. This is currently 21m from the edge of the wetland. It has been suggested that the township roads department may wish to review the location of the gate and access point. We are committed to working with both the township and the GRCA to determine the best location for access.

Wellington County

- Proposed Use mentions incorrect area for both the Severed and Retained parcels. The submitted survey sketch indicates that the Severed parcel as 38.9 hectares, and the Retained parcel as 7.51 hectares.
- Further information provided to clarify issues under Section b of Planning Comments
 - i. Data for existing buildings is provided as an attachment to the Zoning Bylaw Amendment application, and reproduced at the end of this letter.
 - ii. There are no additional uses or buildings proposed under this application. The severed parcel will be used as conservation land according to the mission of *rare*, and subject to the restrictions of the federal Ecological Gifts Program.
 - iii. Both the EIS and Planning Report explicitly state that public access will not be established on the severed property. Only authorized staff and other personnel will access the property, and the driveway will remain gated and locked otherwise. The information provided in these documents, and the discussion of access at the pre-consultation meeting conclude that public access is not appropriate for this conservation property.

We trust that the above satisfies the questions raised by the commenters. If further information is required, please do not hesitate to contact me.

Sincerely,

Tom Woodcock, Ph.D.

Hi Tom and Lynne,

We have no concerns with the zoning proceeding at this time, the severance has been conditionally approved by the County's land division committee.

Tom – regarding consent conditions, it would be best to contact Jana in our office but I'm not sure any of them have been satisfied at this point given the severance was just approved.

Thanks,

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you know the contents to be safe.

Dear Lynne

To the best of my knowledge, all of these conditions have been satisfied. The only outstanding question that I can think of relates to the road access, which is currently suitable for all vehicles (earlier I had suggested the driveway may need improvement). If this needs to be cleared by your Roads department, please let me know how I can best arrange a meeting or evaluation.

Zach P., please indicate whether any of the County conditions are not satisfied at present.

Chris L., please indicate whether any of the GRCA conditions are not satisfied at present.

I appreciate everyone's efforts to ensure that this generous donation to the community and

to conservation in your Township can move forward in a timely manner.

Thank you, Tom

Hi Tom –

Prior to submission of a zoning amendment application, you will need to address the outstanding comments from the County of Wellington as well as the GRCA from your 2nd submission for the preconsultation. Once those comments have been reviewed and satisfied, you will be able to submit the zoning amendment application.

Regards –

Lynne

Dear Lynne

I would like to follow up on last week's committee meeting, regarding next steps on the donation at 4438 Watson Rd. S. and if there are any further questions about the severance. We remain eager to start the process for the zoning amendment, as it will be a condition that will need to be satisfied on the County consent application. That application will be heard at Wellington June 13.

Please let me know if Puslinch staff require anything further.

Thank you!

Fuel oil (home heating)	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>
Waste oil (heating)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>		

3.2 Chemical Handling and Storage

NOT APPLICABLE

	Yes	If Yes, please indicate the type(s) of chemicals if known:		If Yes, please estimate the total amount
		3.2.1 Dense Non-Aqueous Phase Liquids (DNAPLs), including chlorinated solvents	3.2.2 Organic Solvents	
Paints and other coatings (including stains, enamels, lacquers, rust paint)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Dry cleaning chemicals	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Automotive repair/maintenance and/or industrial manufacturing and processing (e.g. degreasers, automotive fluids, oils, furniture stripping products, chemical solvents, adhesives)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Solvent based degreasers or liquids for washing metal parts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

3.3 Road Salt Application and/or Outdoor Storage

NOT APPLICABLE

	Covered	Uncovered	Estimated Volume Stored on Property (m ³)	Estimated Application Area (m ²) including private roads, parking lots, and sidewalks
Road Salt Storage	<input type="radio"/>	<input type="radio"/>		
Road salt application (private roads, parking lots, sidewalks, etc.)				

3.4 Snow Storage (see guide)

NOT APPLICABLE

	Above Grade	Below Grade (buried)	Approximate Storage Area greater than:		
			0.01 ha (double driveway)	0.5 ha (1 soccer field)	1 ha (2 soccer fields)
Snow Storage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3.5 Waste Storage or Disposal (see guide)

NOT APPLICABLE

	Yes
3.5.1 Storage and/or application of raw, untreated liquids and solids that are pumped out of septic systems and holding tanks (not including septic tanks)	<input type="radio"/>
3.5.2 Storage and/or disposal of oils (does not include restaurant oil or grease); hazardous waste; liquid industrial waste; industrial and commercial waste; or PCB waste	<input type="radio"/>

3.6 Storm Water Management/Industrial Sewage

NOT APPLICABLE

	Yes
Stormwater management facility (treatment, retention, infiltration, recharge or control of stormwater)	<input type="radio"/>
Car or truck washing facility	<input type="radio"/>
Oil and Water Separator	<input type="radio"/>
Sediment control (i.e. Stormceptor)	<input type="radio"/>

3.7 Septic Systems

	Existing	Proposed	
		New	Replacement
Septic system for residential or small-scale commercial/industrial/institutional use (Ontario Building Code)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Septic system (Greater than 10,000 litres per day) for commercial/industrial/institutional use (note an Environmental Compliance Approval would be required)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3.8 Water Taking

	Proposed	Existing	If Existing, please provide the following:			
			Drilled	Dug	Well Not In Use*	Approx. Construction Date
3.8.1 Private Well (<i>*Please note that if there is an existing well that is not in use, Section 3.9 must also be checked</i>)	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<div style="border: 2px solid yellow; width: 100px; height: 30px;"></div>
3.8.2 Greater than 50,000 litres per day of water being used (note a Permit to Take Water may be required)	<input type="radio"/>	<input type="radio"/>				

3.9 Transport Pathway (see guide)

NOT APPLICABLE

	Yes
Creation of aggregate pits, geothermal systems, non-residential or large residential caissons/building piers, or utilities/excavation within fractured bedrock and underground parking garages	<input type="radio"/>
Existing private well not in use	<input type="radio"/>

3.10 Recharge Reduction

NOT APPLICABLE

	Yes
Creation of impervious surfaces (including large roofed areas, pavement, etc.) – only applies within Town of Erin	<input type="radio"/>

3.11 Agricultural

NOT APPLICABLE

	Application	Storage	Product Name(s)
3.11.1 Fertilizers	<input type="radio"/>	<input type="radio"/>	
3.11.2 Pesticides	<input type="radio"/>	<input type="radio"/>	
3.11.3 Agricultural source material (i.e. manure)	<input type="radio"/>	<input type="radio"/>	
3.11.4 Non-agricultural source material (i.e. biosolids, commercial food wastes, etc.)	<input type="radio"/>	<input type="radio"/>	

	Yes	Estimated Number of Animals	Type of Animals
3.11.5 Grazing and Pasturing of livestock	<input type="radio"/>		
3.11.6 Outdoor Confinement Yard	<input type="radio"/>		
3.11.7 Nutrient Management Plan or Strategy, NASM Plan applies to or is registered for the property	<input type="radio"/>		
Environmental Farm Plan	<input type="radio"/>		

3.12 None of the above are applicable

Check off this box only if none of the above sections have been checked	<input type="radio"/>

Date

Signature

Applicant or Authorized Agent

I, _____, declare that the information contained in this application and all attached documentation is true to the best of my knowledge.

Nov 30 / 2023
Date

Information is collected pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*, R.S.O. 1990, c. M.56 and the *Clean Water Act*, 2006, S.O. 2006, c. 22 for the administration and enforcement of the *Clean Water Act*. Please note that business identity information is not considered personal information pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*.

For any inquiries about the collection of this information, please contact the Risk Management Official, Wellington Source Water Protection, 7444 Wellington Road 21, Elora, ON, N0B 1S0, 519-846-9691 ext. 362.

Explanatory Guide for Completing the Drinking Water Source Protection Screening Form

Your property is located within a municipal well head protection area or intake protection zone and therefore may be subject to the *Clean Water Act*, 2006. The Wellhead Protection Area (WHPA) is the area around a municipal well where land use activities have the potential to affect the quality and quantity of water that flows into the wellhead. For more information, refer to www.wellingtonwater.ca or contact 1-844-383-9800.

To assist staff in determining whether your property and/or application is subject to the Act, the Drinking Water Source Protection Screening Form is completed to inventory the activities that are proposed on your property. The following sections explain the form.

Section 1 – Property Information:

Please fill out the municipal address and property owner for the subject property.

Section 2 – Proposal:

Please check all that apply to the application and provide a brief explanation of the proposed development and/or construction details if construction a geothermal (such as depth, vertical r horizontal, closed loop or open loop).

Section 3 – Potential Threat Activities Associated with Proposed Application:

Within this section please fill out all that apply to your application. If there is a circle provided in the table, please provide a check mark; if there is a blank space in the table please write in the applicable information.

3.1 Liquid Fuel Handling and Storage:

Fill out this section if on the property there is liquid fuel storage or handling greater than 250 litres (1 gal = 3.785 L). This can be located in land uses for residential, agricultural, gas, commercial, industrial or institutional purposes and includes gasoline, diesel or home heating oil. It does not include propane or natural gas.

3.2 Chemical Handling and Storage:

Fill out this section if the application is regarding one of the listed chemical handling or storage activities on the form.

3.2.1 Known DNAPLs:

Fill out this section only if applicant is aware of a Dense Non-Aqueous Phase Liquid (DNAPL) on the property. DNAPLs are chemicals that are denser than water and therefore have the ability to contaminate the groundwater easily. The specific DNAPLs that pose a potential threat are poly-aromatic hydrocarbons (PAHs), 1, 4-dioxane, trichloroethylene, tetrachloroethylene or perchloroethylene (PCE or PERC) and Vinyl Chloride.

- **Vinyl Chloride:** Used to make polyvinyl chloride (PVC) pipes, wire coatings, vehicle upholstery and plastic kitchen ware
- **PAHs:** Used in wood preservatives, pharmaceuticals, dyes and asphalt products.

- **1,4-dioxane:** Used as a degreasing solvent or solvent stabilizer in various manufacturing processes.
- **Tetrachloroethylene** (PCE or PERC): Used in dry cleaning, metal cleaning and as an intermediate in manufacturing processes.
- **Trichloroethylene** (TCE): Mainly used for degreasing of metal parts in the automotive and metal industries and also found in some household products such as adhesives, paint removers, paints, rug cleaning fluids, and metal cleaners.

3.2.2 Known Organic Solvents:

Fill out this section if the applicant is aware of Organic Solvents on the property. Organic Solvents are liquid organic compounds with the ability to dissolve solid, gases or liquids and therefore have the ability to contaminate drinking water sources. Organic Solvents that are of potential concern include Carbon Tetrachloride, Chloroform, Dichloromethane and Pentachlorophenol (PCP).

- **Carbon Tetrachloride:** Once used widely in fire extinguishers, as a cleaning agent, in the manufacture of refrigerants as well as an industrial solvent and metal degreasing agent is a banned substance in Ontario since 1999. The only permitted uses of the chemical are in research laboratories or in the manufacturing process where the product is converted to an alternative product which does not contain a class of ozone-depleting substances.
- **Chloroform:** commonly used in a laboratory setting, and in the production of pharmaceuticals, dyes and pesticides.
- **Dichloromethane** (also known as methylene chloride): used as a solvent in paint strippers and removers. It is used as a process solvent in the manufacture of drugs, pharmaceuticals and film coatings. It is also used as a metal cleaning and finishing solvent in electronics manufacturing, aerosol propellant and as an agent in urethane foam blowing.
- **Pentachlorophenol** (PCP): used as an herbicide, insecticide, fungicide, algacide and disinfectant, and as an ingredient in antifouling paint. Its use has significantly declined due to its high toxicity. Today it is used industrially as a wood preservative and is not manufactured in Canada.

3.3 Road Salt Application, Handling and Storage:

Fill out this section if there will be road salt storage on the property or road salt application on a private road, parking lot, or sidewalk located on the property. Please provide estimates in m³ for volume and m² for area.

3.4 Snow Storage:

Fill out this section if there will be snow storage (above or below grade) on the property and indicate whether the storage will be greater than 0.01 hectare (0.03 acre or 10 metres by 10 metres), greater than 0.5 hectares (1.24 acres or 50 metres by 50 metres), or greater than 1 hectare (2.5 acres or 100 metres by 100 metres). For reference, 0.01 hectare is roughly the size of a double driveway, 0.5 hectares is roughly the size of one soccer field, and 1 hectare is roughly the size of two soccer fields.

3.5.1 Waste Storage or Disposal - Septic Tank Pump outs

Fill out this section only if application is involved in the pumping out or disposal/treatment of raw sewage or septage, porta potties or holding tanks.

3.5.2 Waste Storage or Disposal - Storage and/or Disposal of Hazardous Waste:

Fill out this section if there is hazardous waste or liquid industrial waste stored on the property including waste oil, solvents, and automotive fluids. Please note storage or disposal of oil does not include restaurant oil or grease. Storage of hazardous waste or liquid industrial waste includes wastes requiring registration with the Ontario Hazardous Waste Information Network (HWIN), if applicable. Disposal of waste on site includes landfilling and incineration. Typically, this will only be at commercial or industrial properties.

3.6 Storm Water Management/Industrial Sewage:

Fill out this section if one of the listed storm water management or industrial sewage activities is planned or present. For reference, a storm water management facility may include a retention or detention pond (wet or dry), catch basins, sediment control, recharge systems (such as infiltration galleries), swales and ditches.

3.7 Septic Systems:

Fill out this section if the property will be serviced by a septic system. Please indicate whether the septic system is existing or proposed. If the existing or proposed septic system has a design capacity of less than 10,000 litres, it is regulated under the Ontario Building Code (OBC). A building permit, obtained through the municipality, is required by the OBC for installation of a new septic system and for the repair/replacement of an existing system. If the existing or proposed septic system has a design capacity of greater than 10,000 litres a day, a provincial Environmental Compliance Approval may be required under the Ontario Water Resources Act. Please contact the local Ontario Ministry of the Environment and Climate Change office for more information.

3.8.1 Water Taking - Private well installed:

Fill out this section if there is an existing well present or a new well being installed on the property. This includes private drinking water wells, environmental test wells, geotechnical wells, irrigation wells, etc. Please indicate whether the well is proposed or existing, and fill out the rest of the section (dug or drilled as well as the approximate construction date) for existing wells only.

3.8.2 Water Taking - Greater than 50,000 litres per day

Fill out this section if more than 50,000 litres per day is being withdrawn from a well or a water body (1 gal = 3.785 gal).

3.9 Transport Pathway

Transport pathways are human constructed pathways through soil and bedrock that may increase the vulnerability of groundwater to certain contaminants.

Please check the first circle if your application will be installing a vertical geothermal system, installation of caissons or building piers for a non-residential application or for a large residential application, aggregate project, or installation of utilities or excavation within fractured bedrock. A road occupancy permit application could indicate when fracture bedrock excavation occurs. If geothermal, please provide construction details including depth, vertical or horizontal, closed loop or open loop in the space provided in Part 2 (on the first page of this document). A large residential application includes multi-story, multi-unit residential developments.

Please check the second circle if there is an existing private well that is not in use. Private wells include environmental and / or geotechnical monitoring wells and domestic wells. If you filled out Section 3.8.1 as private well not in use, Section 3.9 should also be completed.

3.10 Recharge Reduction:

Fill out this section if there is going to be an increase in impervious surfaces on the property. For example, asphalt (driveways and parking areas) and covered areas (roofs, decks and structures). If building within current building envelope then it is not an increase. Please note this box only applies within the Town of Erin.

3.11.1 Fertilizers and/or 3.11.2 Pesticides:

Fill out this if there is storage or use of fertilizer or pesticides for agricultural or commercial use. Do not fill out this section if used only for personal use.

3.11.3 Agricultural - Application, handling and storage of agricultural (i.e. manure) and/or 3.11.4 non-agricultural source material (bio solids):

Fill out this section if there is application, handling or storage of Agricultural Source Material (ASM) (manure) or Non-Agricultural Source Material (NASM) on the property. ASM and NASMs include; manure (ASM) and biosolids, commercial food waste, etc. For more information on NASMs and ASMs please look at fact sheet number 4, available on our website, www.wellingtonwater.ca

3.11.5 Agricultural - Grazing and pasturing of livestock:

Fill out this section if there is any grazing, pasturing or housing of one or more livestock on the property excluding household pets. Livestock can include cows, horses, sheep, goats and other animals. If unsure, please contact Wellington Source Water Protection for clarification. Please give an estimation of the number of animals, as well as the type of animal(s).

3.11.6 Outdoor Confinement Yard:

Fill out this section if there are any livestock including cows, horses, sheep, goats and other animals housed in an outdoor confinement yard on the property. If unsure, please contact Wellington Source Water Protection for clarification. Please give an estimation of the number of animals, as well as the type of animal(s).

3.11.7 Prescribed Instruments

Fill out this section if there are any provincially prescribed instruments that apply to or are registered for the property. This includes Nutrient Management Strategies, Nutrient Management Plans and Non-Agricultural Source Material Plans.

3.12 None of the above are applicable:

Check that none of the above sections in Part 3 are applicable to the application. This section should only be checked if none of the other sections have been checked.

Section 4 - Declaration:

Either the owner or the applicant must sign and date the form.

To Whom it May Concern,

This is a response to comments provided for the second stage of planning pre-consultation regarding the Zoning Amendment and Consent Application for 4438 Watson Rd. S. in the Township of Puslinch, Ontario. This property is being severed in order to be donated to the **rare** Charitable Research Reserve, a land trust operating in Waterloo-Wellington, for protection and stewardship in perpetuity. This is in accordance with the wishes of the donors, Wythe and Rosemary Scrivener. The comments and requests for further information are answered below, the efforts of all commenting individuals and agencies are appreciated.

Grand River Conservation Authority

1. We are working with the surveyor to obtain the geodata from their survey of the recently delineated wetland boundary. This will be shared with GRCA at the earliest opportunity.
2. No development is intended, apart from the improvement of the access point on Watson Rd. S.
3. A parking lot will not be constructed on the property (see response to Wellington County comments, below). The current gated access point on Watson Rd. S. is usable by farm vehicles and trucks, but may require improvement for other vehicle. This is currently 21m from the edge of the wetland. It has been suggested that the township roads department may wish to review the location of the gate and access point. We are committed to working with both the township and the GRCA to determine the best location for access.

Wellington County

- Proposed Use mentions incorrect area for both the Severed and Retained parcels. The submitted survey sketch indicates that the Severed parcel as 38.9 hectares, and the Retained parcel as 7.51 hectares.
- Further information provided to clarify issues under Section b of Planning Comments
 - i. Data for existing buildings is provided as an attachment to the Zoning Bylaw Amendment application, and reproduced at the end of this letter.
 - ii. There are no additional uses or buildings proposed under this application. The severed parcel will be used as conservation land according to the mission of *rare*, and subject to the restrictions of the federal Ecological Gifts Program.
 - iii. Both the EIS and Planning Report explicitly state that public access will not be established on the severed property. Only authorized staff and other personnel will access the property, and the driveway will remain gated and locked otherwise. The information provided in these documents, and the discussion of access at the pre-consultation meeting conclude that public access is not appropriate for this conservation property.

We trust that the above satisfies the questions raised by the commenters. If further information is required, please do not hesitate to contact me.

Sincerely,

Tom Woodcock, Ph.D.

Planning Ecologist

Deborah Turchet, Secretary-Treasurer
County of Wellington Planning and Land Division Committee
74 Woolwich Street
Guelph, Ontario N1H 3T9

Dear Deborah,

Re: Committee of Adjustment Meeting – May 22nd, 2024 - Revised

Applications for Consent

B28-24Part Lots 21 & 22, Concession 9, 4438 Watson Road South

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted consent application. It is the understanding of staff that the applicant would like to sever 96.1ac (38.9ha) from the subject property at 4428 Watson Road South in the Township of Puslinch for conservation purposes by the rare Charitable Research Reserve.

Recommendation

Based on updated information provided by the applicant, the GRCA has no objection to the approval of the proposed consent application. Please see below for our detailed comments.

GRCA Comments

GRCA has reviewed this application under the Mandatory Programs and Services Regulation (Ontario Regulation 686/21), including acting on behalf of the Province regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020), as a regulatory authority under Ontario Regulation 41/24 and as a public body under the *Planning Act* as per our CA Board approved policies.

The GRCA has received an updated severance sketch (prepared by J.D. Barnes, plotted May 24, 2024) from the applicant, that includes the request wetland boundary. Based off our review of the revised consent sketch, the proposed lot line will be outside of the wetland, therefore, we have no objection to the approval of the consent application.

We note that the wetland is labeled as 'Wetland Boundary Delineated by GRCA on Oct. 3, 2023.' For any future planning act or permit applications, we request that this be revised to 'Wetland Boundary verified by GRCA on Oct. 3, 2023.'

Should you have any questions, please contact Vanessa Wismer at 519-621-2761 ext. 2327 or vwismer@grandriver.ca.

Sincerely,

Chris Foster-Pengelly, M.Sc.
Supervisor of Resource Planning and Regulation Services
Grand River Conservation Authority

July 30, 2024

Lynne Banks
7404 Wellington Road 34,
Puslinch, Ontario

Dear Lynne Banks,

RE: **NPG Comments**
4438 Watson Rd S
RE: Application for Zoning By-law Amendment

NPG Planning Solutions Inc. (NPG) has been retained to provide comments regarding a Zoning By-law Amendment Application to rezone a portion of the Subject Lands to Natural Environment (NE) Zone. This application is being sought as a condition of approval for a Consent Application (File NO.B28-24). The Consent Application approved the severance of 38.9 ha of lands to be donated to the *rare* Charitable Research Reserve for conservation use. The retained 7.51 ha would remain with the existing rural residential use. There are no changes proposed for the existing structures/buildings. This is the third submission for this application.

Comments:

1. Previous planning comments requested that a draft by-law be provided as part of the application. We request that this be provided with a zoning chart demonstrating how the proposal complies with the Puslinch Zoning By-law. Of note, as per Table 4.1 of the Township Zoning By-law, the maximum height of an accessory building and structure is 7 metres. As the workshop has a height of 10 metres, a site-specific exemption is required.

Sincerely,

Jesse Auspitz, MCIP, RPP

**Re: ZBA Submission
4438 Watson Road South
Puslinch, ON**

Dear Ms. Banks:

Following our review of submission documents for Zoning By-law Amendment application received on July 18, 2024, we are providing comments in support of the proposed rezoning at 4438 Watson Road South in the Township of Puslinch. It is our understanding that the current owner is looking to sever land from their property and designate it as Environmental Protection to be donated to a charitable land trust. No development is intended apart from improvement of the access point at Watson Road South.

The pre-consultation request was received on November 23, 2023, per our review letter dated November 29, 2023. Our only pre-consultation comment was requesting that GRCA comments be provided to the Township. As noted below, GRCA comments were provided and GRCA staff have no objections.

The following submission documents were received in support of the Zoning By-law Amendment:

- Sketch Prepared for Severance Application, prepared by JD Barnes, dated January 15, 2024.
- Notice of Application for Consent, prepared by County of Wellington, dated April 12, 2024.
- GRCA Comments, prepared by GRCA, dated May 24, 2024.

We defer detailed review of the submitted documents to Township staff and other consultants.

From an engineering perspective, we do not have any concerns with respect to the Zoning By-Law Amendment application.

If you have any questions or require additional information, please do not hesitate to contact us.

Sincerely,

GEI Consultants Canada Ltd.

Dear Ms. Hoytfox:

**Re: ZONING BY-LAW AMMENDMENT – Deeming Complete
Wythe and Rosemary Scrivener and Rare Charitable Trust
4438 Watson Rd S
Township of Puslinch**

Thank you for circulating the above noted application and provide the following comments for the Township's consideration in deeming the application complete:

Based on the review of the information submitted, County Planning staff have no objections to the proposed Zoning By-law amendment application being deemed complete. It is requested that a copy of the proposed draft amending By-law be provided with the Notice of Complete Application and Public Meeting for County Planning staff's review. Any detailed planning comments will be provided at that time.

We trust that these comments are of assistance.

Yours truly,

Asavari Jadhav
Planner

July 30th, 2024

Via email

Deborah Turchet, Secretary-Treasurer
County of Wellington Planning and Land Division Committee
74 Woolwich Street
Guelph, Ontario N1H 3T9

Dear Deborah,

Re: Zoning By-law Amendment Application
Part Lots 21 & 22, Concession 9, 4438 Watson Road South

Grand River Conservation Authority (GRCA) staff have reviewed the above-noted Zoning By-law Amendment Application. It is the understanding of staff that the applicant would like to amend the severed portion of the subject property at 4438 Watson Road South in the Township of Puslinch from a mix of Secondary Agriculture and Environmental Protection, solely to Environmental Protection. This severance is intended to support conservation purposes only, to the exclusion of all other uses. The use of the retained parcel is to remain the same.

Recommendation

The GRCA has no objection to the approval of the proposed Zoning By-law Amendment Application. Please see below for our detailed comments.

GRCA Comments

GRCA has reviewed this application under the Mandatory Programs and Services Regulation (Ontario Regulation 686/21), including acting on behalf of the Province regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020), as a regulatory authority under Ontario Regulation 41/24 and as a public body under the *Planning Act* as per our CA Board approved policies.

The survey has been revised as requested on May 24th, 2024. The Zoning By-law Amendment will serve to environmentally protect the subject property, which does not negatively impact the regulated features on-site or require a permit from the GRCA at this time.

Staff note that should development (inclusive of grading and site alteration) be proposed in the future, please contact GRCA staff to confirm whether a permit is required.

Consistent with the GRCA's 2024 approved fee schedule, this application is considered a minor Zoning By-law Amendment Application, and the applicant will be invoiced in the amount of \$465 for the GRCA's review of this application.

Should you have any questions, please contact Vanessa Wismer at 519-621-2761 ext. 2327 or vwismer@grandriver.ca.

Sincerely,

Chris Foster-Pengelly, M.Sc.
Supervisor of Resource Planning and Regulations

**A By-law to amend
TOWNSHIP OF PUSLINCH
Comprehensive Zoning By-Law No. 023-18
Consolidated 2021**

**Pt Lots 21 & 22, Con 9 as in RO758825 Save & Except Pt 1,
61R11450; Township of Puslinch
(part of 4438 Watson Rd. S.)**

WHEREAS the Council of the Corporation of the Township of Puslinch deems it expedient to enact this By-law to amend Zoning By-law Number 023-18;

AND WHEREAS Council is empowered to enact this By-law under the authority of Section 34 of the *Planning Act*, R.S.O. 1990, Chapter P. 13, as amended;

NOW THEREFORE the Council of the Corporation of the Township of Puslinch hereby enacts as follows:

1. That Zoning By-law Number 023-18, Section 14.0 Site-Specific Special Provisions, is hereby amended to add item #XX as follows:
 - a) That lands as identified as Part 2 on Schedule 'A' of this By-law (the Severed Lands), currently a mixture of Agricultural (A) and Natural Environment (NE), be re-zoned to Natural Environment (NE) only, in order that no dwelling or accessory structures shall be permitted except for the existing unserviced frame building on Part 2 used for tool storage.
2. That existing buildings on Part 1 (the Retained Lands), specifically the workshop, with a height of 10m, exceeds the height permitted by Zoning By-law Number 023-18 for an accessory building. This building, legally constructed prior to adoption of Zoning By-law Number 023-18, is deemed in compliance (see Schedule "B" Summary of Buildings).
3. All other applicable provisions of By-law 023-18 shall continue to apply to the lands affected by this amendment.
4. That this By-law shall become effective from the date of passing hereof.

Dear Jesse

Please see the updated document attached. I don't know if adding a schedule B with the building data and requirements is the proper way to present what we discussed on the phone.

Thanks, Tom

Sensitivity: Confidential

Good morning,

Please see comments as follows:

Workshop on Part 1

As discussed, the height of the workshop on Part 1 should also be recognized in your draft By-law. I note that there are two provisions regarding height that apply. One of the main buildings and one for accessory buildings and structures. The workshop on Part 1 would be an accessory building and structure.

4.10 HEIGHT RESTRICTIONS

a. Unless otherwise restricted in the By-law, no building or structure shall exceed 10 metres in height, except that neither this provision, nor any other provision of this By-law shall apply to restrict the height of any of the following structures:...

4.4.2 Accessory Buildings and Structures

Table 4.1 Additional Regulations – Accessory Buildings and Structures
Agricultural (A) Zone – lot area greater than 1 ha - 7 m

Frame Building on Part 2

We completed a subsequent review, and we note that there is an existing frame building on Part 2. Is there intent to remove that building? I note that the zoning by-law does not permit buildings within the Natural Environment (NE) zone. If the intent is to keep the frame building would add the highlighted text with the use for the frame building noted.

1. That lands as identified as Part 2 on Schedule 'A' of this By-law (the Severed Lands), currently a mixture of Agricultural (A) and Natural Environment (NE), be re-zoned to Natural Environment (NE) only, in order that no dwelling or accessory structures shall be permitted, **except for the existing frame building on Part 2 being used for [state its use]**

While completed a preliminary zoning review of both parts, you should complete your own review, to confirm if there is any additional relief that is required. I typically would prepare a table, looking at the general provision in Section 4.0 of the Zoning By-law, parking in Section 5.0 and the specific provisions in the Agricultural Zone (Section 11.0) to confirm that both parts are in compliance.

<https://puslinch.ca/wp-content/uploads/2024/07/Puslinch-ZBL-023-18-Consolidated-June-2024.pdf>

These comments are very minor but should still be addressed prior to consideration of the Application.

Best regards,

Other Name(s): _____
Address: _____
City: _____
Postal Code: _____
Email Address: _____
Telephone Number: _____
Fax: _____

Name, address, and phone number of all persons having any mortgages, charges, or encumbrances on the property.

n/a

Send correspondence to: Owner: Agent: Other: _____

When did the current owner acquire the subject land? Date: Sept 18, 1996

4. What does the amendment cover?

The "entire" property:
A "portion" of the property:

(This information should be illustrated on the required drawing under item 24 of this application)

5. Provide a description of the "entire" property:

Municipal address: 4438 WATSON RD. S. PUSLIMON ON N0B 2C0

Concession: PT. 9 Lot: PT 21 PT 22

Registered Plan Number: 61R11450

Area: 45.97 ha Depth: 654 m Frontage: 370.9 m
113.6 ac 2145 ft. 1217 ft.

6. Provide a description of the area to be amended if only a "portion" of the property:

Area: 38.9 ha Depth: 803.60 m Frontage: 599.92 m
96.1 ac 2636.5 ft. 1968.2 ft.

7. Is the application to amend the zoning by-law consistent with the Provincial Policy Statement?

Yes: No:

8. Is the subject land within an area of land designated under any provincial plan or plans?

Greenbelt Plan: Places to Grow: Other (specify): N/A

If yes, does the application conform to and not conflict with the application provincial plan or plans?

Yes: No:

9. County Official Plan

What is the current County Official Plan designation of the subject property?
SECONDARY AGRICULTURE / GREENLANDS (OVERLAY)

List land uses permitted by the current Official Plan designation:

ALL PERMITTED UNDER PRIMARY AGRICULTURE (SECTION 6.4.3. AGRICULTURE, HOME AND FARM BUSINESSES, EXISTING USES, SINGLE DETACHED HOME, ADDITIONAL OR ACCESSORY RESIDENCES SUBJECT TO REGULATIONS, FORESTRY, WASTEWATER PITS AND CULVERTS, AGGREGATE, COMMUNITY SERVICE, CAMP HOMES, KENNELS). PLUS SMALL-SCALE COMMERCIAL, INDUSTRIAL, INSTITUTIONAL, PUBLIC SERVICE (SECTION 6.5.3)

How does the application conform to the Official Plan?

THE REZONING OF THIS PROPERTY WILL CONSERVE LAND AND ECOSYSTEMAL FEATURES, AND WILL NOT PRECLUDE AGRICULTURE.

If the application is to implement an alteration to the boundary of an area of settlement or to implement a new area of settlement, provide details of the Official Plan or Official Plan amendment that deals with the matter.

n/a

If the application is to remove land from an area of employment, provide details of the Official Plan or Official Plan amendment that deals with the matter.

n/a

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

n/a

10. Zoning:

What is the current zoning of the property? AGRICULTURE/NATURAL ENVIRONMENT

What uses are permitted? See Zoning Bylaw 11.2 and 13.3

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

n/a

If the subject land is within an area where the municipality has pre-determined minimum and maximum density requirements or the minimum and maximum height requirements provide a statement of these requirements.

n/a

Existing and Proposed Land Uses and Buildings:

11. What is the "existing" use(s) of the subject land?

RURAL RESIDENTIAL / AGRICULTURE /

12. How long has the "existing" use(s) continued on the subject land?

UNCERTAIN - > 100 years

13. What is the "proposed" use(s) of the subject land?

CONSERVATION / AGRICULTURE

14. Provide the following details for all buildings or structures on the subject land: *NO NEW BUILDINGS PROPOSED - SEE ATTACHED LIST OF EXISTING*

Building Details	Existing		Proposed	
Type of Building(s) or structures	LARGE STED			
Date of construction				
Building height	m	ft	m	ft
Number of floors				
* Total floor area	m ²	ft ²	m ²	ft ²
Ground floor area (exclude basement)	m ²	ft ²	m ²	ft ²
Distance from building structure to the:				
Front lot line	m	ft	m	ft
Side lot line	m	ft	m	ft
Other side lot line	m	ft	m	ft
Rear lot line	m	ft	m	ft

Building Details	Existing		Proposed	
*Percentage lot coverage				
*Number of parking spaces				
*Number of loading spaces				

Existing and Proposed Services:

15. What is the access to the subject property?

- Provincial Highway:
- Continually maintained municipal road:
- Right-of-way:
- Seasonally maintained municipal road:
- Water access:
- Other (please specify)

16. What is the name of the road or street that provides access to the subject property.

RETAINED: WATSON RD. S.
 SEVERED: WELLINGTON RD. 34 / WATSON RD. S

17. If access is by water only, please describe the parking and docking facilities used or to be used and the approximate distance of these facilities from subject land to the nearest public road.

n/a.

(This information should be illustrated on the required drawing under item 24 of this application)

18. Indicate the applicable water supply and sewage disposal:

Water Supply	Existing		Proposed	
Municipal water				

Water Supply	Existing	Proposed
Communal water		
Private well	X	
Other water supply		
Water sewers		
Municipal sewers		
Communal sewers		
Private septic	X	
Other sewage disposal		

19. If the application would permit development on privately owned and operated individual or communal septic systems, would more than 4500 litres of effluent be produced per day as a result of the development being completed?

Yes:

No:

not applicable

If yes, the following reports are required:

Servicing options report

A hydrogeological report

20. How is storm drainage provided?

Storm Sewers:

Ditches:

Swales:

Other: (explain below)

not applicable for this project

Other Related Planning Applications:

21. Has the current owner (or any previous owner) made application for any of the following, either on the subject property or within 120 metres of the subject lands?

Planning Application	Yes	No	*File Number	Approval Authority	Subject Lands	Purpose	*Status
Official Plan Amendment							
Zoning By-Law Amendment							
Minor Variance							
Plan of Subdivision							
Consent (Severance)	X		B58/10	WELLINGTON		CURRENTLY VACANT	GRANTED OCT 13/2010
Site Plan Control							

22. Has the subject land ever been the subject of a Minister's Zoning Order?

Yes: No:

If yes, provide the Ontario Regulation number of that order, if known: _____

Other Supporting Information

23. Please list the titles of any supporting documents: (e.g. Environmental Impacts Study, Hydrogeological Report, Servicing Options Report, Traffic Study, Market Area Study, Aggregate Licence Report, Stormwater Management Report, etc.)

- ENVIRONMENTAL IMPACT STUDY ATTACHED
 - SUMMARY OF EXISTING BUILDINGS

Application Drawing

24. Please provide an accurate drawing of the proposal, preferably prepared by a qualified professional. In some cases, it may be more appropriate to submit additional drawings at varying scales a lot better illustrate the proposal. The drawing must include the following information (see on following page):

- Owner/applicant's names;
- Legal description of the property;
- Boundaries and dimensions of the subject and its current land use;
- Dimensions of area of amendment (if not, the entire property);
- The size and use of all abutting land;
- All existing and proposed parking and loading areas, driveways, and lanes;
- The location and nature of any easements or restrictive covenants on the property;
- The location of any existing drains or award drains;
- Woodlots, forested areas, ANSIs, ESAs, wetlands, floodplain, and all natural watercourses (rivers, stream banks, etc.);
The location, size, and type of all existing and proposed buildings and structures on the subject land, indicating their distance from the front lot line, rear lot line, and side lot lines;
The name, location, and width of each abutting public or private road, unopened road allowance or right-of-way
- If access to the subject land is by water only provide the location of the parking and docking facilities to be used;
- Other features both on site or nearby that in the opinion of the applicant will have an effect on the application (such as bridges, railways, airports, roads, drainage ditches, wells, septic systems, springs, slopes, gravel pits); and
- The drawing should also include the scale, north arrow, and date when the drawing was prepared.

REPORT PDAC-2024-005

TO: Planning and Development Advisory Committee Chair and
Members of Committee

PREPARED BY: Lynne Banks, Development and Legislative Coordinator

PRESENTED BY: Lynne Banks, Development and Legislative Coordinator

MEETING DATE: October 8, 2024

SUBJECT: Zoning By-law Amendment Application (D14/QUI)
Dan Quinnell
1873 Townline Road
Request for Committee Review and Comments
File: D14/QUI

RECOMMENDATIONS

That Report PDAC-2024-005 entitled Zoning By-law Amendment Application D14/QUI Request for the Committee's review and comments be received; and

That the Committee provide the following comments for Council's consideration:

Purpose

The purpose of this report is to:

1. Advise the Committee of an application for a Site Specific Zoning By-law Amendment for a portion of the property described as Part Lot 1, Concession 1, Township of Puslinch, (the "Subject Lands"). The site is currently zoned Agricultural (A) and Natural Environment (NE) zone and application proposes to rezone a portion of the Subject Lands to a specialized Agricultural Zone (A-xx) and a specialized Natural Environment Zone (NE-xx); and
2. Seek comments from the Committee prior to the Public Meeting tentatively scheduled for November 27, 2024.

Application

The proposed Zoning By-law Amendment is to amend the Township of Puslinch Zoning By-law 23-2018 to rezone a portion of the property from Agricultural (A) and Natural Environment (NE) zone and application proposes to rezone a portion of the Subject Lands to a specialized Agricultural Zone (A-xx) and a specialized Natural Environment Zone (NE-xx) to permit outdoor storage of recreational trailers, not including a motorized recreational vehicle on the lot.

A consent application was submitted in regards to the Subject Lands (File B101-21), which was approved with conditions on January 12, 2022. The consent application proposes to sever approximately 0.46 hectares from the property for future rural residential use. The Zoning By-law Amendment application is required to fulfill conditions of approval for the consent application.

The following reports and plans have been submitted with the pre-consultation application:

- Pre-Consultation Application, September 2022
- Concept Plan, September 2022

The following reports and plans have been submitted with the Zoning By-law Amendment application:

- 1st Submission Planning Justification Report – MHBC, dated July 2023.
- 1st Submission Concept Plan dated October, 2023
- 1st Submission Source Water Screening Form, dated July, 2023.
- 1st Submission Cover Letter dated July, 2023.
- 2nd Submission Response Matrix to 1st submission comments
- 3rd Submission Concept Site Plan dated September 5, 2024
- 3rd Submission Concept Plan dated August 12, 2024
- 3rd Submission Conceptual Site Plan dated August 12, 2024
- 3rd Submission Draft By-law dated August 12, 2024
- 3rd Submission Planning Addendum Letter dated August 13, 2024.

Consultation:

1. Pre-Consultation

A pre-submission consultation for the proposed rezoning was submitted on September 20, 2022 and the applicant was provided with preliminary comments from Township Staff and its consultants. This application was not subject to Mandatory Pre-consultation in accordance with the legislation at the time.

Comments

An Application was submitted on July 18, 2023 which did not include all required materials and staff provided a list of requirements on August 1, 2023. Two subsequent submissions were made to provide all required materials. The zoning amendment application including all required documents was received on August 13, 2024 and was circulated to Township staff, consultants, County of Wellington Staff and external agencies at which time all deficiencies were addressed as outlined in Schedule "B". The prescribed fee was submitted to the Township on September 16, 2024.

Staff recommend that Council deem the application to be complete at this time as the applicant has addressed all outstanding issues as noted by Township staff and consultants. The applicant has paid the required fee to the Township and is responsible for paying all third party costs.

Should Council deem the application to be complete, the timelines in the Planning Act stipulate 90 days to process the application. The Township continues to process applications as close to the stipulated timelines as practical. The legislation sets out the following process to be completed:

- Circulate the statutory notice to properties within a 120 metre buffer, in addition to all required agencies;
- Peer review all submitted materials to the satisfaction of the Township;
- Present the application to the Township Planning and Development Advisory Committee for comments (October 8, 2024);
- Schedule and conduct at least one public meeting (scheduled for November 27, 2024);
- Advertise the complete application and public meeting in the Wellington Advertiser in accordance with statutory notice requirements and installing physical signage on the property; and
- Provide Council with a planning recommendation report and proposed by-law (tentatively scheduled for December 18, 2024).

Zoning By-law Amendment Application

Date submitted: _

The Amendment:

Type of amendment:

Site specific:

Other (specify):

Purpose of and reasons for the proposed amendment(s):

Proposed Zoning By-law amendment to permit recreational vehicle storage on a portion of the subject lands.

General Information:

1. Applicant Information:

Registered Owner's Name(s): _ Robert & Gerritje Quinnell

Address: 1873 Townline Road

City: Cambridge

Postal Code: N1T 2J3

Email Address: [REDACTED]

Telephone Number: _____

Fax: _____

Applicant (Agent) Name(s): .MHBC Planning c/o Dave Aston
Address: 540 Bingemans Centre Drive, Suite 200
City: Kitchener
Postal Code: N2B 3X9
Email Address: daston@mhbcplan.com
Telephone Number: 519-576-3650 x709
Fax:

Other Name(s):
Address:
City:
Postal Code:
Email Address:
Telephone Number:
Fax:

Name, address, and phone number of all persons having any mortgages, charges, or encumbrances on the property.

Send correspondence to: Owner: Agent: Other: _____

When did the current owner acquire the subject land? Date: unknown

4. What does the amendment cover?

The "entire" property:
A "portion" of the property:

(This information should be illustrated on the required drawing under item 24 of this application)

5. Provide a description of the "entire" property:

Municipal address: 1873 Townline Road, Cambridge, Ontario, N1T 2J3

If the application is to implement an alteration to the boundary of an area of settlement or to implement a new area of settlement, provide details of the Official Plan or Official Plan amendment that deals with the matter.

N/A

If the application is to remove land from an area of employment, provide details of the Official Plan or Official Plan amendment that deals with the matter.

N/A

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

Please refer to Planning Justification Report included with this application.

10. Zoning:

What is the current zoning of the property? Agricultural, Natural Environment, Environmental Protection Overlay

What uses are permitted? Please refer to Planning Justification Brief included with this application.

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

Please refer to Planning Justification Brief included with this application.

If the subject land is within an area where the municipality has pre-determined minimum and maximum density requirements or the minimum and maximum height requirements provide a statement of these requirements.

N/A

Existing and Proposed Land Uses and Buildings:

11. What is the "existing" use(s) of the subject land?

Agricultural and recreational vehicle storage.

12. How long has the "existing" use(s) continued on the subject land?

Since 1990

13. What is the "proposed" use(s) of the subject land?

Site Specific zoning to permit recreational vehicle storage.

14. Provide the following details for all buildings or structures on the subject land:

Building Details	Existing		Proposed	
Type of Building(s) or structures	Barn	Residential Dwelling	No new buildings or changes to buildings proposed.	
Date of construction				
Building height	m	ft	m	ft
Number of floors				
* Total floor area	m ²	ft ²	m ²	ft ²
Ground floor area (exclude basement)	m ²	ft ²	m ²	ft ²
Distance from building structure to the:				
Front lot line	m	ft	m	ft
Side lot line	m	ft	m	ft
Other side lot line	m	ft	m	ft
Rear lot line	m	ft	m	ft

Building Details	Existing		Proposed	
*Percentage lot coverage				
*Number of parking spaces				
*Number of loading spaces				

Existing and Proposed Services:

15. What is the access to the subject property?

- Provincial Highway:
- Continually maintained municipal road:
- Right-of-way:
- Seasonally maintained municipal road:
- Water access:
- Other (please specify):

16. What is the name of the road or street that provides access to the subject property.

Townline Road

17. If access is by water only, please describe the parking and docking facilities used or to be used and the approximate distance of these facilities from subject land to the nearest public road.

N/A

(This information should be illustrated on the required drawing under item 24 of this application)

18. Indicate the applicable water supply and sewage disposal:

Water Supply	Existing		Proposed	
Municipal water				

Water Supply	Existing	Proposed
Communal water		
Private well		
Other water supply		
Water sewers		
Municipal sewers		
Communal sewers		
Private septic		
Other sewage disposal		

19. If the application would permit development on privately owned and operated individual or communal septic systems, would more than 4500 litres of effluent be produced per day as a result of the development being completed?

Yes: No:

If yes, the following reports are required:

Servicing options report

A hydrogeological report

20. How is storm drainage provided?

Storm Sewers:

Ditches:

Swales:

Other: (explain below)

There is no change to require storm water management, there is no change to grades for the storage of the trailers

Other Related Planning Applications:

21. Has the current owner (or any previous owner) made application for any of the following, either on the subject property or within 120 metres of the subject lands?

Planning Application	Yes	No	*File Number	Approval Authority	Subject Lands	Purpose	*Status
Official Plan Amendment							
Zoning By-Law Amendment							
Minor Variance							
Plan of Subdivision							
Consent (Severance)	x		B101-21	County of Wellington	Part Lot 1, Con 9	Lot severance	Conditionally approved
Site Plan Control							

22. Has the subject land ever been the subject of a Minister's Zoning Order?

Yes: No:

If yes, provide the Ontario Regulation number of that order, if known: _____

Other Supporting Information

23. Please list the titles of any supporting documents: (e.g. Environmental Impacts Study, Hydrogeological Report, Servicing Options Report, Traffic Study, Market Area Study, Aggregate Licence Report, Stormwater Management Report, etc.)

Application Drawing

24. Please provide an accurate drawing of the proposal, preferably prepared by a qualified professional. In some cases, it may be more appropriate to submit additional drawings at varying scales a lot better illustrate the proposal. The drawing must include the following information (see on following page):

- Owner/applicant's names;
- Legal description of the property;
- Boundaries and dimensions of the subject and its current land use;
- Dimensions of area of amendment (if not, the entire property);
- The size and use of all abutting land;
- All existing and proposed parking and loading areas, driveways, and lanes;
- The location and nature of any easements or restrictive covenants on the property;
- The location of any existing drains or award drains;
- Woodlots, forested areas, ANSIs, ESAs, wetlands, floodplain, and all natural watercourses (rivers, stream banks, etc.);
The location, size , and type of all existing and proposed buildings and structures on the subject land , indicating their distance from the front lot line, rear lot line, and side lot lines;
The name, location, and width of each abutting public or private road, unopened road allowance or right-of-way;
- If access to the subject land is by water only, provide the location of the parking and docking facilities to be used;
- Other features both on site or nearby that in the opinion of the applicant will have an effect on the application (such as bridges, railways, airports, roads, drainage ditches, wells, septic systems, springs, slopes, gravel pits); and
- The drawing should also include the scale, north arrow, and date when the drawing was prepared.

7404 Wellington Road 34
Puslinch, ON N0B 2 J0

Dear Ms. Banks:

**RE: Pre-Consultation Request – Without Prejudice
1873 Townline Road, Cambridge
OUR FILE 22269A**

On behalf of our clients, R. Dan Quinnell & Gerritje Quinnell, please find enclosed a submission for a pre-consultation request for the property located at 1873 Townline Road, Cambridge (the “subject lands”). The purpose of this pre-consultation request is to discuss the proposed zoning for the subject lands.

The subject lands are located on the east side of Townline Road, south east of the Can-Amara Parkway roundabout. The subject lands have a total area of approximately 17.4 hectares with frontage on Townline Road. The subject lands currently contain a residential dwelling, a storage barn, agricultural land and outdoor recreational vehicle storage.

A severance application was submitted for the subject lands and approved with conditions on January 11, 2022 (File No. B101-21). Condition 3 of the approved severance requires that the owner achieve zoning conformity for the existing outdoor storage use located on the retained lands.

Without prejudice to any arguments our client may have as to legal non-conforming use status it is proposed to re-zone a portion of the subject lands with a site specific zoning regulation permitting the outdoor storage of recreational vehicles including trailers, boats and campers. The site specific zoning is proposed to be established based on the location of the existing outdoor storage area, having an area of approximately 2.44 hectares. The proposed concept plan enclosed with this submission shows the extent of the outdoor storage on the property and the proposed location of the site specific zoning.

The subject lands are designated Secondary Agricultural, Greenlands and Core Greenlands in the Wellington County Official Plan. Small scale commercial, industrial and institutional uses which meet the criteria of the Official Plan are permitted within the Secondary Agricultural designation. The recreational storage use on the subject lands meets the criteria for commercial uses based on the following:

- Additional sewage and water systems are not required;
- The use requires a large land area necessitating a non-urban location;
- Outdoor storage of recreational vehicles will not prevent future agricultural uses on the lands; and
- The use will be limited in scale and located on a portion of one lot.

Within the Greenlands and Core Greenlands designation, permitted uses include existing uses and uses permitted in adjacent designations. The outdoor recreational storage is an existing use that is permitted within the adjacent Secondary Agricultural designation.

The Township of Puslinch Comprehensive Zoning By-law No. 023-18 (the "Zoning By-law") zones the subject lands Agricultural and Natural Environment with an Environmental Protection Zone Overlay. A site specific regulation is proposed to permit the storage of recreational vehicles on a portion of the subject lands.

Please find enclosed the following in support of the pre-application request:

- Concept Plan, prepared by MHBC Planning, dated September 14, 2022.

The required fees for the application will be paid online with this submission.

Should you require any additional information or have any questions regarding the enclosed please do not hesitate to contact the undersigned.

Yours truly,

MHBC

Dear Ms. Lynne Banks:

Re: Pre-consultation Request – 1873 Townline Road

Thank you for circulating the request for pre-consultation comments for the above-noted property. As part of the pre-consultation, we have reviewed the following submitted items:

- Pre-Consultation Proposal Letter
- Conceptual Plan

Based on our review of the above information, and in our capacity as the Township's Planning consultants, we offer the following planning comments for consideration:

Proposal:

- The property has an active consent application (B101-21) with a condition of approval that requires zoning compliance conformity.
- The proposal is to re-zone a portion of the property to include a site specific provision permitting the existing use of outdoor storage of recreational vehicles including trailers, boats, and campers.
- The site specific zone is proposed to be established where the outdoor storage of recreational vehicles currently exists on-site which covers approximately 2.44 ha (ac)

Provincial Policy Statement

- Section 1.1.5 contains policies regarding development within rural lands.
- Section 2.1.4 directs that development and site alteration shall not be permitted within provincially significant wetlands.
- Section 2.1.5 directs that development shall not be permitted within significant woodlands and areas of natural and scientific interest unless it can be demonstrated that there will be no negative impacts to the feature and its ecological functions.

Growth Plan

- Section 2.9 is to be reviewed and consistency demonstrated.
- Section 4.2.4 requires that any development or site alteration be located a minimum of 30 m from the outside boundary of all wetlands.

County of Wellington Official Plan:

- The subject property is designated as Secondary Agricultural, Core Greenlands and Greenlands within the County of Wellington Official Plan.

COUNTY OF WELLINGTON

PLANNING AND DEVELOPMENT DEPARTMENT

Joanna Salsberg, B.A., M.P.L.

TEL: (519) 837-2600 ext. 2380

EMAIL: joannasal@wellington.ca

ADMINISTRATION CENTRE

74 WOOLWICH STREET

GUELPH, ONTARIO

N1H 3T9

- The proposed location of the site specific zone includes lands within both the Secondary Agricultural Designation and the Greenlands System. Features that appear to be within the proposed site specific zone include the Environmentally Sensitive Area (ESA), wetlands of Provincial and local significance, an Area of Natural and Scientific Interest (ANSI (Life Science)), slope valley hazards, and significant woodland. Other features on the subject lands outside of the site specific location include flood plain and a watercourse.
- Section 6.5.3 directs that the permitted uses in Secondary Agricultural Areas include: 'a) all uses allowed in the Prime Agricultural Area; b) small scale commercial, industrial and institutional uses; c) public service facilities.
- Section 6.5.4 provides that small scale commercial, industrial and institutional uses *may* be permitted provided certain criteria can be met including:
 - 'a) appropriate sewage and water systems can be established;
 - b) the proposed use is compatible with surrounding uses;
 - c) the use requires a non-urban location due to:
 - market requirements;
 - land requirements;
 - compatibility issues.
 - d) the use will not hinder or preclude the potential for agriculture or mineral aggregate operations;
 - e) the use will be small scale and take place on one lot and large scale proposals or proposals involving more than one lot will require an official plan amendment.'
- Section 4.7 Urban Area Protection prohibits new development adjacent to existing urban centres such as the City of Cambridge.
- Part 5 of the Official Plan contains policies regarding the Greenlands System which will need to be reviewed and demonstration of consistency with these policies is required. Its important to highlight:
 - The Official Plan does not permit development or site alteration, which includes a change of use, with Provincially Significant Wetlands.
 - In regards to hazard features, the Official Plan identifies development shall be directed away from areas subject to flood or erosion hazards that could be unsafe for development or site alteration. Grand River Conservation Authority regulates this property and their comments should be considered.
 - Section 5.5 provides policy on Greenlands features will be protected from development or site alteration that would have a negative impact on the natural features or their ecological functions.
- The subject lands are identified as being part of a Wellhead Protection Area B with a vulnerability score of 4, 6 and 8. The subject lands are also identified as an Issues Contributing Area. Comments from Source Water Protection staff are required.

Township Zoning By-law:

- The subject property is zoned Agricultural (A) Zone, Natural Environment (NE) Zone, and Environmental Protection Zone Overlay.
- A portion of the proposed area for the site specific zone is located within the NE Zone and the EP Overlay.
- When preparing a zoning amendment application, a detailed review of the zoning by-law will be required to demonstrate compliance as part of the required Planning Justification Report.

COUNTY OF WELLINGTON

PLANNING AND DEVELOPMENT DEPARTMENT
Joanna Salsberg, B.A., M.PL.
TEL: (519) 837-2600 ext. 2380
EMAIL: joannasal@wellington.ca

ADMINISTRATION CENTRE
74 WOOLWICH STREET
GUELPH, ONTARIO
N1H 3T9

- Permitted uses within the A Zone, NE Zone, and the EP Overlay do not include the storage of recreational vehicles as a permitted use.
- Section 13.2 for the EP Overlay requires that development within an ANSI, Stream or Valley, significant woodland or ESA will not be allowed unless it has been demonstrated to the satisfaction of the Township that there will be no negative impact on the feature or its ecological functions.
- Compliance with Minimum Distance Separation (MDS I) Formula must be reviewed in a submitted Planning Justification Report. It is noted that MDS I compliance is required as a condition of consent application B101-21 (Condition 8) and relief may be addressed through the removal of the livestock barn or prohibition of livestock within the barn.
- Section 4.22 contains policy requirements for outdoor storage uses and areas including minimum setbacks from surrounding lot lines, limits the outdoor storage area, screening requirements, height restrictions, and surfacing requirements.

Submission Requirements a Zoning By-law Amendment:

Included below is a preliminary list of potential supporting studies that are required for a Zoning Amendment application. The list of studies/assessments identifies minimum requirements.

- Planning justification report, including a draft amending By-law and details of the operation.
- Environmental Impact Study
- Updated site plan
- All of the studies, plans and submission requirements as identified by the other commenting agencies and Township Consultants.

All studies/assessments are required to meet (at a minimum) the requirements set out in Section 4.6 *Impact Assessment* of the Official Plan. All studies/assessments are to be completed and signed by a qualified professional.

If a zoning amendment is successful, Site Plan approval would be required. An additional pre-consultation meeting will be required to outline specific requirements of this application.

Additional Planning Comments:

- Planning staff are concerned that this proposal does not meet the intent of the Official Plan, including the criteria for small-scale commercial/industrial uses. Planning staff would recommend that the use cease to address zoning compliance as planning staff may not be in a position to support this application.
- There are concerns regarding the proposed location in proximity to environmental features. Planning staff would not be supportive of a site specific provision to be located within a Provincially Significant Wetland as the PPS and the County of Wellington Official Plan does not permit development (including a change of land use) within a Provincially Significant Wetland. Further, the Growth Plan requires a minimum 30 m vegetative buffer from key hydrologic features. The comments of the Grand River Conservation Authority should also be considered.
- There are concerns regarding the compatibility of the use in close proximity to rural residential uses within the surrounding area including the proposed severed lot through consent application B101-21. Information regarding the operation (hours, what's being stored, for how long, number of employed etc.) has not been provided as part of this pre-consultation submission.

- Aerial photography identifies that over the years that tree removal has taken place on-site. At this time, we are not aware of any tree removal permits being issued by the County. Compensation will be required to be considered as part of the Environmental Impact Study, if this application is pursued.
- Regarding the other features on the property, a requirement for an Environmental Impact Study for any application submission is applicable showing no negative impact on the Greenlands System features on-site.
- Comments from the Region of Waterloo are required to determine the need for any potential study requirements such as a Traffic Impact Study.

These comments have been prepared without the benefit of reviewing detailed comments from other consultants or agencies and are based on a conceptual proposal. These comments may change as the development progresses and as more details are provided.

I trust these comments will be of assistance. If you have questions, please contact the County of Wellington Planning and Development Department.

Yours truly,

Joanna Salsberg, B.A., M.PL.

Attention: Ms. Lynne Banks

Re: Pre-Consultation
Proposed Addition of Industrial Building
1873 Townline Road, Township of Puslinch

Dear Ms. Banks,

Following our review of pre-consultation submission documents received on September 21, 2022, we are providing pre-consultation comments related to a future zoning bylaw amendment application to allow existing outdoor storage of recreational vehicles on a 2.44 ha portion of the subject lands at 1873 Townline Road in the Township of Puslinch.

In support of the identification of the engineering requirements for the future zoning bylaw amendment application, the following documents and drawings were received and reviewed:

- Pre-Consultation Request Letter, prepared by MHBC, dated September 20, 2022.
- Concept Plan, prepared by MHBC, dated September 14, 2022.

We understand that there is no development proposed as part of this application. No additional sewage or water systems are required. There is no proposed regrading or resurfacing. Storage of recreational vehicles is located on grassed and gravel surfaces.

As such, we provide the following requirements for a zoning bylaw amendment application:

- **Site Plan**, generally showing existing and proposed aboveground and underground infrastructure, including but not limited to, buildings, storage areas, parking areas, driveways, entrances, lighting, fencing, potable water well, septic system, and fire route.

If you have any questions or require additional information, please do not hesitate to contact us.

Yours truly,

GM BLUEPLAN ENGINEERING

Attention: Jeff Bunn, Deputy Clerk

Re: **Pre-consultation Ecology Peer Review for Zoning Conformity at 1873
Townline Road, Cambridge, Ontario
File #D11/PRE/1873Townline**

Dear Mr. Bunn:

Azimuth Environmental Consulting, Inc. (Azimuth) is pleased to provide this pre-consultation peer review letter for the Township of Puslinch (Township) pertaining to the property at the address above. Azimuth's review was completed by Dr. Scott Tarof (natural heritage).

Azimuth reviewed the following documents from the Township:

- 1) "Pre-Consultation Request – Without Prejudice" letter from MHBC (dated September 20, 2022); and,
- 2) Concept Plan prepared by MHBC (dated September 14, 2022);

The documents reviewed relate to a severance application for the property that has been approved with conditions. In particular, as per the Pre-Consultation Request letter, "Condition #3 of the severance requires that the owner achieve zoning conformity for the existing outdoor storage use located on the retained lands." It has been proposed that the approximate 2.4 hectare (ha) portion of the property currently used for outdoor recreational vehicle storage be re-zoned to conform with zoning policies.

Based on correspondence with the Township, the scope of Azimuth's review was to:

- Complete an ecology peer review of the information provided in the context of the pre-consultation stage of the re-zoning process; and,
- Provide a peer review letter to the Township.

Based on MHBC's letter, the ~17.4ha property is currently designated as Secondary Agricultural, Greenlands and Core Greenlands in the Wellington County (County) Official Plan (OP; 2022). The existing outdoor recreational vehicle storage use meets County OP land use criteria. However, the Township's Zoning By-law No. 023-18 zones the property as Agricultural and Natural Environment with an Environmental Protection overlay. Consequently, conformity with Township zoning is required. The Concept Plan shows the location of the property and ~2.4ha area for rezoning (Appendix A).

The property is in Ecoregion 6E and is adjacent to natural heritage features to the north and east (e.g. woodlands, wetlands). Lands to the south are a combination of residential lots and natural heritage features (e.g. woodlands, wetlands). Land use to the west is comprised of residential and commercial (Appendix B). Provincial background mapping from the Natural Heritage Information Centre (NHIC) shows woodlands and a Provincially Significant Wetland (PSW) occupying the eastern two-thirds of the property (Puslinch Lake Irish Creek PSW Complex) that extend beyond property limits, as noted above (Appendix A). The area of woodlands and PSW is also mapped as an Area of Natural and Scientific Interest (ANSI; Puslinch Lake and Wetlands). There may be mapped drainage features within 120 metres (m) of the eastern property that appear to be at least 200m away from the outdoor recreational vehicle storage area (VuMap, Appendix B). The property is mapped entirely within the Natural Heritage System of the Growth Plan for the Greater Golden Horseshoe [Ministry of Municipal Affairs and Housing (MMAH), 2020)]. Natural heritage planning policies of the Growth Plan Area (MMAH, 2020) should be considered (Appendix B).

A Species at Risk (SAR) background search of grid square 17NJ5806 in NHIC indicates records for the following Threatened or Endangered species: American Chestnut (*Castanea dentata*, Endangered); Eastern Meadowlark (*Sturnella magna*, Threatened) and Blanding's Turtle (*Chelydra serpentina*, Threatened) (Appendix A). Records also exist for Eastern Ribbonsnake (*Thamnophis sauritus*, Special Concern) and Snapping Turtle (*Chelydra serpentina*, Special Concern). Given the habitat types present in the area east of Townline Road (based on aerial imagery), these SAR have the potential to occur on and/or adjacent to the property. Habitat of Threatened or Endangered species, and the species themselves, are protected under Sections 9 and 10 of Ontario's *Endangered Species Act, 2007* (ESA). Special Concern species do not receive protection under Ontario's *Endangered Species Act, 2007* (ESA), but are considered under provincial Significant Wildlife Habitat guidelines. Other potential environmental constraints that may be associated with the property and/or adjacent lands may include Butternut (*Juglans cinerea*, Endangered), Black Ash (*Fraxinus nigra*, Endangered), SAR bats and bat habitat, and other SAR birds.

Based on the information provided and background mapping, Azimuth is providing the following recommendations to the Township regarding natural heritage features and functions related to the re-zoning. The outdoor recreational vehicle storage area on the property is pre-existing. Historical imagery from Google Earth Pro suggests the specific land use has occurred since at least 2005. As such, it is expected that continuing to use the area for outdoor recreational vehicle storage will not result in new or cumulative impacts to natural heritage features and functions providing expansion to the existing disturbance area footprint does not occur. In this case, a typical approach for new development or site alteration would involve the following recommendations:

- Re-zoning consider the option of reducing the size of the storage area (to the extent possible – see comment below regarding the existing path to the lake) to accommodate a buffer between the storage area and natural heritage features east of the storage area and their ecological functions. This option would be consistent with provincial buffer policies/principles regarding PSWs, woodlands and habitat for SAR (*e.g.* Natural Heritage Reference Manual – OMNR, 2010);
- An Edge Management Plan be developed to restore a buffer to the features and help mitigate potential for future impacts. An Edge Management Plan should be reviewed by a professional ecologist; and,
- The reduced-size outdoor storage area (*i.e.* reduced to accommodate a buffer) be defined (*e.g.* fenced) so that encroachment into adjacent natural heritage features or functions (*e.g.* PSW, woodland, ANSI, potential habitat of Endangered or Threatened species, Significant Wildlife Habitat) does not occur.

It is recognized that the existing development footprint currently occurs within the above recommended buffer. Azimuth highlights this typical approach to assist the Township in their decision-making process pertaining to contemplation of re-zoning the property. Should the Township opt for buffer accommodation, allowances for the existing path that extends down to the lake (Appendix A) may be appropriate under the circumstances.

If the property owner wishes to remove trees/vegetation in the defined outdoor storage area, removals should be completed outside of the migratory breeding bird window (*i.e.* removals can occur September 1-March 31 of a given year) to avoid potential impacts to migratory breeding birds and possible contravention of the *Migratory Birds Convention Act, 1994* and/or Ontario's *Fish and Wildlife Conservation Act, 1997*. If removals cannot be completed outside the migratory breeding bird window, the area(s) for tree/vegetation removal should be surveyed by a professional ecologist with experience in breeding birds in the region.

We trust this pre-consultation ecology review is helpful. Azimuth would be pleased to attend a pre-consultation meeting (in-person or virtual), as required by the Township. If you have any questions please do not hesitate to contact the undersigned.

Yours truly,
AZIMUTH ENVIRONMENTAL CONSULTING, INC.

Azimuth Environmental Consulting, Inc.

Applying for planning and building permits

As of July 2016, the Clean Water Act and all Source Protection Plans across Ontario are in effect. This means all planning and building permit applications regarding land within a vulnerable area (refer to Fact Sheet 1) will need to be screened by the municipality to ensure the project is not a threat to drinking water quality or quantity.

The purpose of screening

Planning and building permit applications submitted to municipalities within Wellington County require Source Water screening to assess any risks from the proposed activity. If a property is not within a vulnerable area or if the activity does not trigger a Prohibition or Risk Management Plan policy, your application will proceed as normal.

The screening process

Step 1: Once an application is received by the building or planning department, municipal staff will determine whether or not the property is located within a vulnerable area. If it is not located within a vulnerable area, no further action is required and the application proceeds. If it is located within a vulnerable area, the applicant must fill out a Drinking Water Source Protection Screening Form

for municipal staff to review before the application can be deemed complete.

Step 2: If source protection screening is required, municipal staff will review the completed screening Form and a copy of the application may be forwarded to the Risk Management Official for further review.

Step 3: Review of application by the Risk Management Official (see step three of flow chart for further information).

Step 4: Negotiation of Risk Management Plan, if required

To find out if your property falls within a vulnerable area, visit wellingtonwater.ca or get in touch with your municipality or Risk Management Official.

DEFINITIONS: Risk Management Plan

A risk management plan is a tool introduced by the *Clean Water Act* that requires an agreement be reached between a Risk Management Official (RMO) and the person engaged in the threat activity. This agreement creates a plan to manage the risk activity and is negotiated unless agreement cannot be reached. Once a plan is agreed to or established, these plans are legally binding.

FACT SHEET 6 PLANNING & DEVELOPMENT

6

Source Water Protection REVIEW PROCESS for Planning and Building Applications

STEP 1

Application is received and reviewed by municipality

Does the property fall within a Vulnerable Area?

NO. Application proceeds through regular municipal process.

YES. The property is within a vulnerable area. Proceed to Step 2.

STEP 2

Applicant fills out Source Protection Screening form

Does the application require further review? *

NO. Application proceeds through regular municipal process.

YES. Municipality submits a Screening Form to the Risk Management Official (RMO) for review. Proceed to Step 3.

* Application is not deemed complete until Screening Form is received and notice issued, if applicable.

STEP 3

Application forwarded to Risk Management Official for review

RMO determines whether a notice or Risk Management Plan is required.

Notice not required. Application proceeds through regular municipal process.

Notice to proceed issued. Application proceeds.

RMP Required. Proceed to Step 4.

Notice of prohibition. Application does not proceed. Consult RMO.

STEP 4

Negotiation of Risk Management Plan (RMP)

RMO and applicant reach agreement and RMP issued. Application proceeds.

RMO and applicant do not reach an agreement. Application does not proceed until RMP is issued.

Vulnerability Score: _____

Find out if you live in a vulnerable drinking water area at www.wellingtonwater.ca

For assistance in completing this form, please refer to the “Explanatory Guide” beginning on page 6.

Please note that you may still need to contact the applicable Conservation Authority, as this is not considered correspondence on their behalf.

1. Property Information

Municipal Address of Subject Property: _____

Assessment Roll Number of Subject Property: _____

Property Owner: _____

2. Proposal (Please check all that apply to this application):

Building	
<input type="checkbox"/>	New Structure
<input type="checkbox"/>	Expansion or Conversion of an Existing Structure
<input type="checkbox"/>	New Septic System
<input type="checkbox"/>	Replacement Septic System
<input type="checkbox"/>	Geothermal System (Transport Pathway)
<input type="checkbox"/>	Change of Use

Planning	
<input type="checkbox"/>	Minor Variance
<input type="checkbox"/>	Official Plan Amendment
<input type="checkbox"/>	Consent Application
<input type="checkbox"/>	Zoning By-law Amendment Application
<input type="checkbox"/>	Subdivision/Condominium Application
<input type="checkbox"/>	Site Plan Application

Brief Description of the Proposed Use of Land, Proposed Buildings or Structures. If constructing a geothermal, please provide construction details including depth, vertical or horizontal, closed loop or open loop.

3. Potential Threat Activities Associated with the Application

Please check all applicable activities that may be associated with the development proposal:

3.1 Fuel Handling and Storage greater than 250 litres

	Existing	Proposed	Greater than 2,500L	Underground Storage Tank	Aboveground Storage Tank	Inside Home	Outside Home
Liquid Fuel (i.e. gasoline or diesel)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>		
Fuel oil (home heating)	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>
Waste oil (heating)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>		

3.2 Chemical Handling and Storage

	Yes	If Yes, please indicate the type(s) of chemicals if known:		If Yes, please estimate the total amount
		3.2.1 Dense Non-Aqueous Phase Liquids (DNAPLs), including chlorinated solvents	3.2.2 Organic Solvents	
Paints and other coatings (including stains, enamels, lacquers, rust paint)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Dry cleaning chemicals	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Automotive repair/maintenance and/or industrial manufacturing and processing (e.g. degreasers, automotive fluids, oils, furniture stripping products, chemical solvents, adhesives)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Solvent based degreasers or liquids for washing metal parts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

3.3 Road Salt Application and/or Outdoor Storage

	Covered	Uncovered	Estimated Volume Stored on Property (m ³)	Estimated Application Area (m ²) including private roads, parking lots, and sidewalks
Road Salt Storage	<input type="radio"/>	<input type="radio"/>		
Road salt application (private roads, parking lots, sidewalks, etc.)				

3.4 Snow Storage (see guide)

	Above Grade	Below Grade (buried)	Approximate Storage Area greater than:		
			0.01 ha (double driveway)	0.5 ha (1 soccer field)	1 ha (2 soccer fields)
Snow Storage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3.5 Waste Storage or Disposal (see guide)

	Yes
3.5.1 Storage and/or application of raw, untreated liquids and solids that are pumped out of septic systems and holding tanks (not including septic tanks)	<input type="radio"/>
3.5.2 Storage and/or disposal of oils (does not include restaurant oil or grease); hazardous waste; liquid industrial waste; industrial and commercial waste; or PCB waste	<input type="radio"/>

3.6 Storm Water Management/Industrial Sewage

	Yes
Stormwater management facility (treatment, retention, infiltration, recharge or control of stormwater)	<input type="radio"/>
Car or truck washing facility	<input type="radio"/>
Oil and Water Separator	<input type="radio"/>
Sediment control (i.e. Stormceptor)	<input type="radio"/>

3.7 Septic Systems

	Existing	Proposed	
		New	Replacement
Septic system for residential or small-scale commercial/industrial/institutional use (Ontario Building Code)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Septic system (Greater than 10,000 litres per day) for commercial/industrial/institutional use (note an Environmental Compliance Approval would be required)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3.8 Water Taking

	Proposed	Existing	If Existing, please provide the following:			
			Drilled	Dug	Well Not In Use*	Approx. Construction Date
3.8.1 Private Well (<i>*Please note that if there is an existing well that is not in use, Section 3.9 must also be checked</i>)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
3.8.2 Greater than 50,000 litres per day of water being used (note a Permit to Take Water may be required)	<input type="radio"/>	<input type="radio"/>				

3.9 Transport Pathway (see guide)

	Yes
Creation of aggregate pits, geothermal systems, non-residential or large residential caissons/building piers, or utilities/excavation within fractured bedrock and underground parking garages	<input type="radio"/>
Existing private well not in use	<input type="radio"/>

3.10 Recharge Reduction

	Yes
Creation of impervious surfaces (including large roofed areas, pavement, etc.) – only applies within Town of Erin	<input type="radio"/>

3.11 Agricultural

	Application	Storage	Product Name(s)
3.11.1 Fertilizers	<input type="radio"/>	<input type="radio"/>	
3.11.2 Pesticides	<input type="radio"/>	<input type="radio"/>	
3.11.3 Agricultural source material (i.e. manure)	<input type="radio"/>	<input type="radio"/>	
3.11.4 Non-agricultural source material (i.e. biosolids, commercial food wastes, etc.)	<input type="radio"/>	<input type="radio"/>	

	Yes	Estimated Number of Animals	Type of Animals
3.11.5 Grazing and Pasturing of livestock	<input type="radio"/>		
3.11.6 Outdoor Confinement Yard	<input type="radio"/>		
3.11.7 Nutrient Management Plan or Strategy, NASM Plan applies to or is registered for the property	<input type="radio"/>		
Environmental Farm Plan	<input type="radio"/>		

3.12 None of the above are applicable

Check off this box only if none of the above sections have been checked	<input type="radio"/>

Information is collected pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*, R.S.O. 1990, c. M.56 and the *Clean Water Act*, 2006, S.O. 2006, c. 22 for the administration and enforcement of the *Clean Water Act*. Please note that business identity information is not considered personal information pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*.

For any inquiries about the collection of this information, please contact the Risk Management Official, Wellington Source Water Protection, 7444 Wellington Road 21, Elora, ON, N0B 1S0, 519-846-9691 ext. 362.

Explanatory Guide for Completing the Drinking Water Source Protection Screening Form

Your property is located within a municipal well head protection area or intake protection zone and therefore may be subject to the *Clean Water Act*, 2006. The Wellhead Protection Area (WHPA) is the area around a municipal well where land use activities have the potential to affect the quality and quantity of water that flows into the wellhead. For more information, refer to www.wellingtonwater.ca or contact 1-844-383-9800.

To assist staff in determining whether your property and/or application is subject to the Act, the Drinking Water Source Protection Screening Form is completed to inventory the activities that are proposed on your property. The following sections explain the form.

Section 1 – Property Information:

Please fill out the municipal address and property owner for the subject property.

Section 2 – Proposal:

Please check all that apply to the application and provide a brief explanation of the proposed development and/or construction details if construction a geothermal (such as depth, vertical r horizontal, closed loop or open loop).

Section 3 – Potential Threat Activities Associated with Proposed Application:

Within this section please fill out all that apply to your application. If there is a circle provided in the table, please provide a check mark; if there is a blank space in the table please write in the applicable information.

3.1 Liquid Fuel Handling and Storage:

Fill out this section if on the property there is liquid fuel storage or handling greater than 250 litres (1 gal = 3.785 L). This can be located in land uses for residential, agricultural, gas, commercial, industrial or institutional purposes and includes gasoline, diesel or home heating oil. It does not include propane or natural gas.

3.2 Chemical Handling and Storage:

Fill out this section if the application is regarding one of the listed chemical handling or storage activities on the form.

3.2.1 Known DNAPLs:

Fill out this section only if applicant is aware of a Dense Non-Aqueous Phase Liquid (DNAPL) on the property. DNAPLs are chemicals that are denser than water and therefore have the ability to contaminate the groundwater easily. The specific DNAPLs that pose a potential threat are poly-aromatic hydrocarbons (PAHs), 1, 4-dioxane, trichloroethylene, tetrachloroethylene or perchloroethylene (PCE or PERC) and Vinyl Chloride.

- **Vinyl Chloride:** Used to make polyvinyl chloride (PVC) pipes, wire coatings, vehicle upholstery and plastic kitchen ware
- **PAHs:** Used in wood preservatives, pharmaceuticals, dyes and asphalt products.

- **1,4-dioxane:** Used as a degreasing solvent or solvent stabilizer in various manufacturing processes.
- **Tetrachloroethylene** (PCE or PERC): Used in dry cleaning, metal cleaning and as an intermediate in manufacturing processes.
- **Trichloroethylene** (TCE): Mainly used for degreasing of metal parts in the automotive and metal industries and also found in some household products such as adhesives, paint removers, paints, rug cleaning fluids, and metal cleaners.

3.2.2 Known Organic Solvents:

Fill out this section if the applicant is aware of Organic Solvents on the property. Organic Solvents are liquid organic compounds with the ability to dissolve solid, gases or liquids and therefore have the ability to contaminate drinking water sources. Organic Solvents that are of potential concern include Carbon Tetrachloride, Chloroform, Dichloromethane and Pentachlorophenol (PCP).

- **Carbon Tetrachloride:** Once used widely in fire extinguishers, as a cleaning agent, in the manufacture of refrigerants as well as an industrial solvent and metal degreasing agent is a banned substance in Ontario since 1999. The only permitted uses of the chemical are in research laboratories or in the manufacturing process where the product is converted to an alternative product which does not contain a class of ozone-depleting substances.
- **Chloroform:** commonly used in a laboratory setting, and in the production of pharmaceuticals, dyes and pesticides.
- **Dichloromethane** (also known as methylene chloride): used as a solvent in paint strippers and removers. It is used as a process solvent in the manufacture of drugs, pharmaceuticals and film coatings. It is also used as a metal cleaning and finishing solvent in electronics manufacturing, aerosol propellant and as an agent in urethane foam blowing.
- **Pentachlorophenol** (PCP): used as an herbicide, insecticide, fungicide, algacide and disinfectant, and as an ingredient in antifouling paint. Its use has significantly declined due to its high toxicity. Today it is used industrially as a wood preservative and is not manufactured in Canada.

3.3 Road Salt Application, Handling and Storage:

Fill out this section if there will be road salt storage on the property or road salt application on a private road, parking lot, or sidewalk located on the property. Please provide estimates in m³ for volume and m² for area.

3.4 Snow Storage:

Fill out this section if there will be snow storage (above or below grade) on the property and indicate whether the storage will be greater than 0.01 hectare (0.03 acre or 10 metres by 10 metres), greater than 0.5 hectares (1.24 acres or 50 metres by 50 metres), or greater than 1 hectare (2.5 acres or 100 metres by 100 metres). For reference, 0.01 hectare is roughly the size of a double driveway, 0.5 hectares is roughly the size of one soccer field, and 1 hectare is roughly the size of two soccer fields.

3.5.1 Waste Storage or Disposal - Septic Tank Pump outs

Fill out this section only if application is involved in the pumping out or disposal/treatment of raw sewage or septage, porta potties or holding tanks.

3.5.2 Waste Storage or Disposal - Storage and/or Disposal of Hazardous Waste:

Fill out this section if there is hazardous waste or liquid industrial waste stored on the property including waste oil, solvents, and automotive fluids. Please note storage or disposal of oil does not include restaurant oil or grease. Storage of hazardous waste or liquid industrial waste includes wastes requiring registration with the Ontario Hazardous Waste Information Network (HWIN), if applicable. Disposal of waste on site includes landfilling and incineration. Typically, this will only be at commercial or industrial properties.

3.6 Storm Water Management/Industrial Sewage:

Fill out this section if one of the listed storm water management or industrial sewage activities is planned or present. For reference, a storm water management facility may include a retention or detention pond (wet or dry), catch basins, sediment control, recharge systems (such as infiltration galleries), swales and ditches.

3.7 Septic Systems:

Fill out this section if the property will be serviced by a septic system. Please indicate whether the septic system is existing or proposed. If the existing or proposed septic system has a design capacity of less than 10,000 litres, it is regulated under the Ontario Building Code (OBC). A building permit, obtained through the municipality, is required by the OBC for installation of a new septic system and for the repair/replacement of an existing system. If the existing or proposed septic system has a design capacity of greater than 10,000 litres a day, a provincial Environmental Compliance Approval may be required under the Ontario Water Resources Act. Please contact the local Ontario Ministry of the Environment and Climate Change office for more information.

3.8.1 Water Taking - Private well installed:

Fill out this section if there is an existing well present or a new well being installed on the property. This includes private drinking water wells, environmental test wells, geotechnical wells, irrigation wells, etc. Please indicate whether the well is proposed or existing, and fill out the rest of the section (dug or drilled as well as the approximate construction date) for existing wells only.

3.8.2 Water Taking - Greater than 50,000 litres per day

Fill out this section if more than 50,000 litres per day is being withdrawn from a well or a water body (1 gal = 3.785 gal).

3.9 Transport Pathway

Transport pathways are human constructed pathways through soil and bedrock that may increase the vulnerability of groundwater to certain contaminants.

Please check the first circle if your application will be installing a vertical geothermal system, installation of caissons or building piers for a non-residential application or for a large residential application, aggregate project, or installation of utilities or excavation within fractured bedrock. A road occupancy permit application could indicate when fracture bedrock excavation occurs. If geothermal, please provide construction details including depth, vertical or horizontal, closed loop or open loop in the space provided in Part 2 (on the first page of this document). A large residential application includes multi-story, multi-unit residential developments.

Please check the second circle if there is an existing private well that is not in use. Private wells include environmental and / or geotechnical monitoring wells and domestic wells. If you filled out Section 3.8.1 as private well not in use, Section 3.9 should also be completed.

3.10 Recharge Reduction:

Fill out this section if there is going to be an increase in impervious surfaces on the property. For example, asphalt (driveways and parking areas) and covered areas (roofs, decks and structures). If building within current building envelope then it is not an increase. Please note this box only applies within the Town of Erin.

3.11.1 Fertilizers and/or 3.11.2 Pesticides:

Fill out this if there is storage or use of fertilizer or pesticides for agricultural or commercial use. Do not fill out this section if used only for personal use.

3.11.3 Agricultural - Application, handling and storage of agricultural (i.e. manure) and/or 3.11.4 non-agricultural source material (bio solids):

Fill out this section if there is application, handling or storage of Agricultural Source Material (ASM) (manure) or Non-Agricultural Source Material (NASM) on the property. ASM and NASMs include; manure (ASM) and biosolids, commercial food waste, etc. For more information on NASMs and ASMs please look at fact sheet number 4, available on our website, www.wellingtonwater.ca

3.11.5 Agricultural - Grazing and pasturing of livestock:

Fill out this section if there is any grazing, pasturing or housing of one or more livestock on the property excluding household pets. Livestock can include cows, horses, sheep, goats and other animals. If unsure, please contact Wellington Source Water Protection for clarification. Please give an estimation of the number of animals, as well as the type of animal(s).

3.11.6 Outdoor Confinement Yard:

Fill out this section if there are any livestock including cows, horses, sheep, goats and other animals housed in an outdoor confinement yard on the property. If unsure, please contact Wellington Source Water Protection for clarification. Please give an estimation of the number of animals, as well as the type of animal(s).

3.11.7 Prescribed Instruments

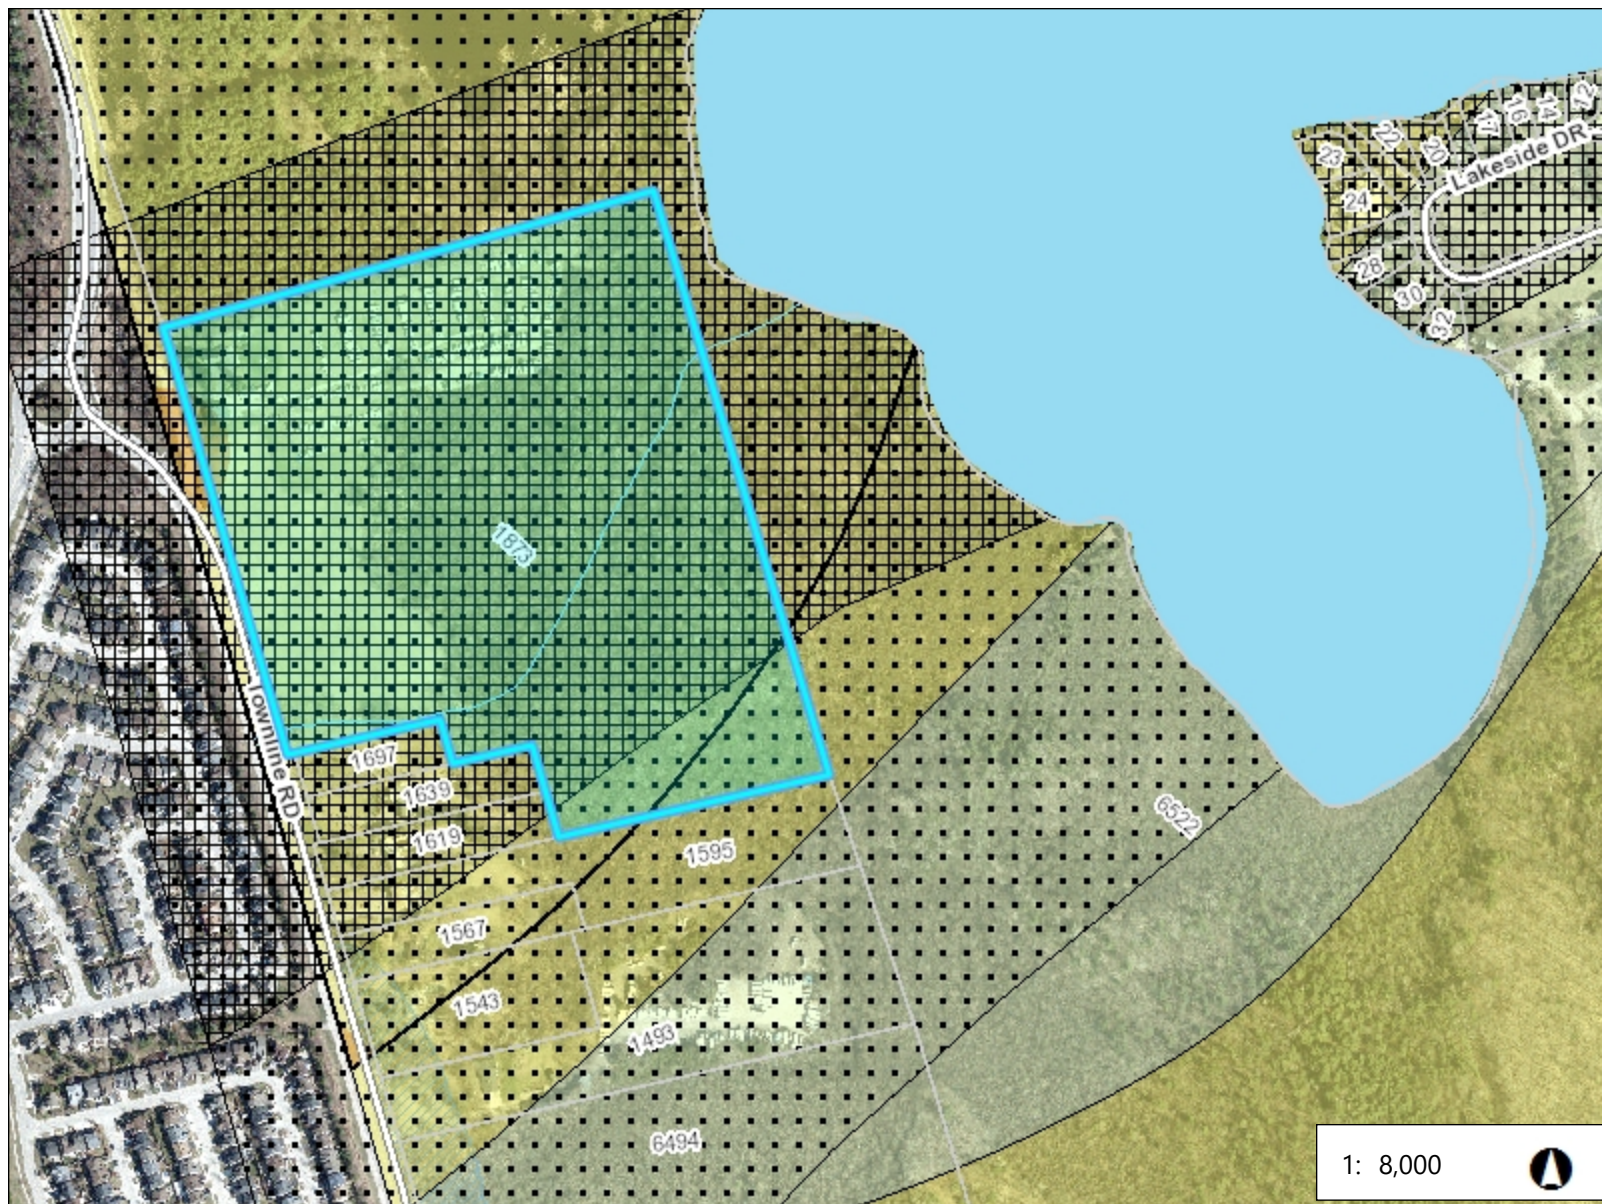

Fill out this section if there are any provincially prescribed instruments that apply to or are registered for the property. This includes Nutrient Management Strategies, Nutrient Management Plans and Non-Agricultural Source Material Plans.

3.12 None of the above are applicable:

Check that none of the above sections in Part 3 are applicable to the application. This section should only be checked if none of the other sections have been checked.

Section 4 - Declaration:

Either the owner or the applicant must sign and date the form.

Puslinch, ON, N0B 2J0

Dear Ms. Banks,

Re: Pre-Consultation – Proposed Zoning By-law Amendment
1873 Townline Road, Puslinch
R. Dan Quinnell & Gerritje Quinnell

Grand River Conservation Authority (GRCA) staff has reviewed the above-noted Pre-Consultation Request for Zoning By-law Amendment at 1873 Townline Road in the Township of Puslinch.

GRCA Comments

The property contains the following features of interest to the GRCA: the Puslinch Lake Irish Creek Provincially Significant Wetland Complex, floodplain, slope valley, and the regulated allowance to these features (see attached resource mapping). Information currently available at this office suggests that part of the property proposed for site-specific regulation includes a portion of the Puslinch Lake Irish Creek Provincially Significant Wetland Complex. The GRCA would not be supportive of a site-specific regulation for these lands as the Provincial Policy Statement (PPS, 2020) does not permit development (including a change in land use) within a Provincially Significant Wetland in Ontario Ecoregion 6E.

The GRCA would request the following information in support of the proposed Zoning By-law Amendment:

1. A wetland boundary delineation performed by a qualified professional and subsequent verification by the GRCA.
2. An Environmental Impact Study (EIS) demonstrating no negative or adverse hydrological or ecological impacts on the wetland resulting from the proposed land use. The EIS should follow GRCA guidelines and submission standards for wetlands (GRCA, 2005).
3. An EIS Terms of Reference (TOR) circulated to the GRCA for review and approval prior to undertaking the EIS.
4. If earthworks are proposed, please circulate grading and stormwater management plans (as applicable) to GRCA for review and approval.

We wish to note that this application may be subject to Growth Plan policies for key hydrologic features and suggest that the Township of Puslinch consider the applicable policies in their review of this application.

Should you have any questions, please contact me at 519-621-2236 ext. 2236 or clorenz@grandriver.ca.

Sincerely,

Chris Lorenz, M.Sc.

Puslinch, ON N0B 2J0

Dear Ms. Banks:

**RE: Zoning By-law Amendment Application
 1873 Townline Road, Cambridge
 OUR FILE 22269A**

On behalf of our clients, R. Dan Quinnell & Gerritje Quinnell, please find enclosed a submission for a Zoning By-law Amendment application for the lands municipally addressed as 1873 Townline Road, Cambridge (the "subject lands").

A Zoning By-law Amendment application is proposed to re-zone a portion of the lands with a site specific zoning regulation permitting the outdoor storage of recreational trailers. The site specific zoning is proposed to be established based on the location of the existing outdoor storage area.

The subject lands are located on the east side of Townline Road, south east of the Can-Amera Parkway roundabout. The subject lands have a total area of approximately 17.4 hectares with frontage on Townline Road. The subject lands currently contain a residential dwelling, a storage barn, agricultural land and outdoor recreational trailer storage.

The subject lands are designated Secondary Agricultural, Greenlands and Core Greenlands in the Wellington County Official Plan and zoned Agricultural and Natural Environment with an Environmental Protection Zone Overlay in the Township of Puslinch Zoning By-law No. 023-18.

In support of the Zoning By-law Amendment application, please find enclosed the following:

- Completed and Signed Application Form;
- Copy of a cheque in the amount of \$2,500, representing the Zoning By-law Amendment application fee;
- Planning Justification Report, prepared by MHBC Planning, dated July 2023;
- Concept Plan, prepared by MHBC Planning, dated October 24, 2022;
- Completed and Signed Drinking Water Source Protection Screening Form

Should you require any additional information or have any questions regarding the enclosed please do not hesitate to contact the undersigned.

Yours truly,

MHBC

5.0	CONCLUSION	13

1.0 INTRODUCTION

MacNaughton Hermsen Britton Clarkson Planning Limited (MHBC Planning) has been retained by R. Dan Quinnell and Gerritje Quinnell to assist with a Zoning By-law Amendment application and prepare a Planning Justification Report for the lands municipally known as 1873 Townline Road, Cambridge (the “subject lands”), in the Township of Puslinch.

The subject lands are designated Secondary Agricultural, Greenlands and Core Greenlands in the Wellington County Official Plan and zoned Agricultural and Natural Environment with an Environmental Protection Overlay over a portion of the property under Zoning By-law 023-18. The subject lands currently contain a residential dwelling, storage barn, agricultural land and outdoor recreational trailer storage. The subject lands have received recent approval for a new residential lot to be created.

The purpose of the application is to amend the Township of Puslinch Zoning By-law to add a site-specific zoning regulation to the lands to permit the existing recreational trailer storage use.

The recreational trailer storage use is an existing use on the subject lands and is described by the following:

- The use involves the storage of recreational trailers and boats;
- The use does not involve the storage of transport trucks or shipping containers;
- The location of the use is to remain within the existing location;
- The use does not involve development as defined by Provincial and County of Wellington planning frameworks; and
- The use does not require any infrastructure or infrastructure upgrades.

This Planning Justification Letter has been prepared for submission to the Township of Puslinch and includes the following:

- An introduction and general description of the subject lands and surrounding uses to provide an understanding of the locational context;
- A description of the proposed modification to the Zoning By-law to legally permit the existing use;
- A review of the existing Provincial and Municipal policy framework in relation to the proposed Zoning By-law Amendment and an assessment of consistency and conformity with Provincial Policy, County and Township Official Plans and Zoning By-law; and,
- Conclusions in support of the proposed Zoning By-law Amendment application.

A pre-consultation request was submitted and comments were received in October 2022. The following plans and reports were requested as part of a complete application:

- Planning Justification Report
- Environmental Impact Study
- Concept Plan
- Section 59 Notice
- Drinking Water Threats Screening Form
- Minimum Distance Separation (MDS) | Compliance

An Environmental Impact Study is not provided with the application as the use on the property is existing and no development or site alteration is proposed.

A discussion of the MDS Compliance is included in **Section 4.2** of this report.

2.0 SITE DESCRIPTION AND SURROUNDING LAND USES

2.1 Site Description

The subject lands are municipally known as 1873 Townline Road, Cambridge and are located on the east side of Townline Road, south east of the Can-Amera Parkway roundabout. The subject lands have a total area of approximately 17.4 hectares with frontage on Townline Road and contain a residential dwelling, storage barn, agricultural land and outdoor recreational trailer storage. The subject lands are outlined in “red” on **Figure 1**. The City of Cambridge urban boundary is located on the west side of Townline Road.

Figure 1: Aerial Location Plan

2.2 Surrounding Land Uses

The surrounding land uses includes a mix of existing residential uses, rural residential lands and natural environment lands, as shown on Figure 1 (aerial photograph):

North – Vacant wooded lands;

West – Townline Road, Can-Amera Parkway and Townline Road roundabout, single-detached residential;

East – Vacant wooded lands and wetlands, Puslinch Lake; and

South – Rural residential.

3.0 PROPOSED ZONING BY-LAW AMENDMENT

3.1 Background & Existing Use

The subject lands are currently used for agricultural uses and for the outdoor storage of recreational trailers. The outdoor storage use on the property was established prior to 2006 and has been confirmed through the review of aerial imagery. The property owner previously reviewed the use with the Township building official under the old Zoning By-law 19/85 and received verbal confirmation that the use may continue. Since confirmation was provided, a new Zoning By-law was adopted by Council in 2018 as Zoning By-law No. 023-18.

A severance application was submitted for the subject lands to sever a residential lot. The consent application received approval with conditions on January 11, 2022 (File No. B101-21). The conditionally approved parcel to be severed is shown on **Figure 2**. As part of the approval conditions, the owner was required to achieve zoning conformity for the existing outdoor recreational trailer storage use located on the retained lands. This application is being submitted to satisfy and fulfill the condition of severance.

Figure 2: Concept Plan

The location of the outdoor storage area is shown in 'yellow' on the concept plan in **Figure 2**, and covers an area of approximately 2.44 hectares. No new development, buildings, sewage or water systems are proposed as part of this application.

A portion of the subject lands contain a Provincially Significant Wetland (PSW) and Regulated Floodplain as mapped by the Grand River Conservation Authority (GRCA), shown in **Figure 3**. Prior to the consent application, the limit of the wetland was flagged with the GRCA and the existing outdoor recreational trailer storage use was permitted to continue. As part of the consent application, a portion of the wetland limit was flagged and surveyed by J.D. Barnes in 2022, and is shown as a 'green' dashed line relative to the GRCA Mapping (**Figure 3**).

The area of the existing outdoor recreational trailer storage is located outside of the flagged wetland limit, in the southwest portion, and outside of the GRCA mapped wetland limit in the southeast portion. The outdoor storage is not located within the GRCA regulated floodplain.

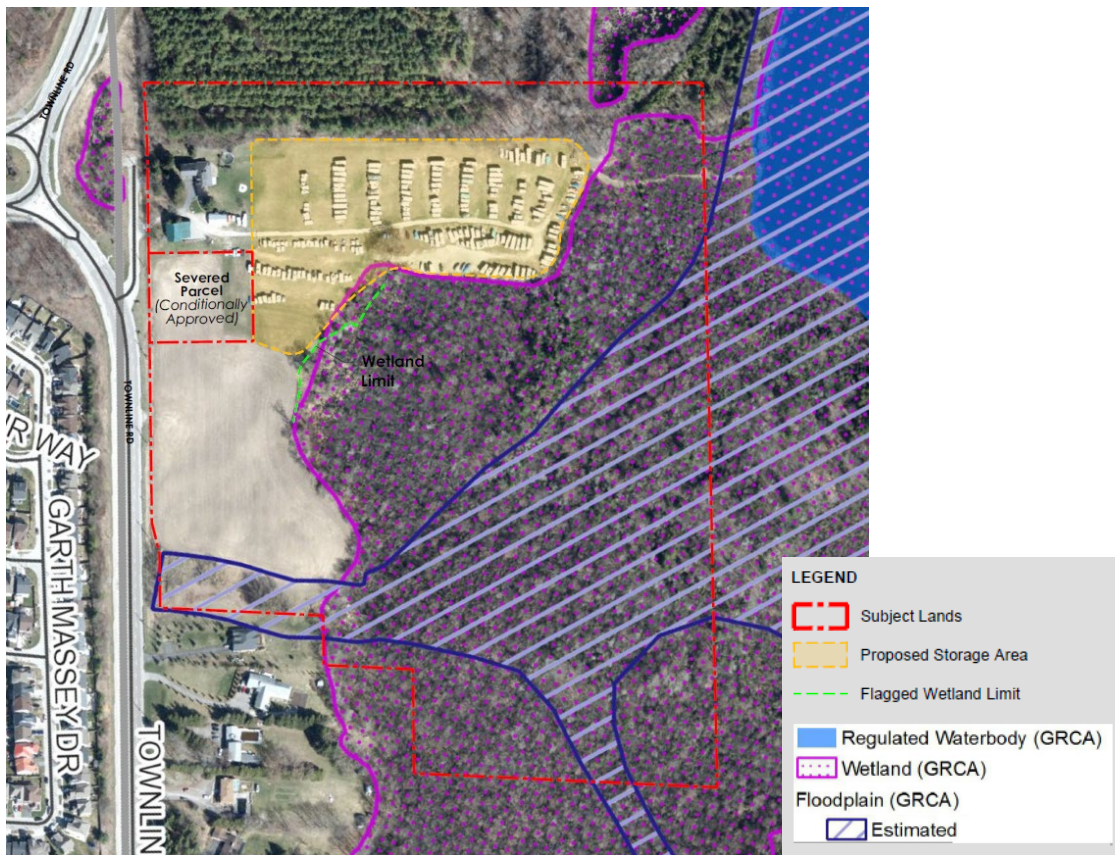

Figure 3: GRCA Mapping

3.2 Proposed Zoning By-law Amendment

The purpose of the application is to amend the Township of Puslinch Zoning By-law to rezone the lands to add a site specific provision to the Agricultural and Natural Environment Zone to permit the existing recreational trailer storage use. The proposed site specific zoning provision is as follows:

“Notwithstanding the Agricultural (A) and Natural Environment (NE) zoning designations, for those lands delineated as ‘A(sp___)’ and NE(sp___) on Schedule ‘A’ to this By-law, the following uses shall be permitted:

- i. The outdoor storage of recreational trailers, not including a motorized recreational vehicle.*

4.0 PLANNING ANALYSIS

This section of the report reviews the applicable land use policy framework as it applies to the subject lands and how the proposal is consistent with and/or conforms to, this framework.

4.1 Provincial Policy Statement, 2020

The Provincial Policy Statement (“PPS”) provides a vision for land use planning in Ontario that encourages the efficient use of land, resources and public investment in infrastructure and public service facilities. A mix of land uses is encouraged to provide choice and diversity. A variety of modes of transportation are promoted to facilitate pedestrian movement and reduce reliance on the automobile. Public transit is encouraged as a means of creating more sustainable and healthy communities. Generally, the PPS encourages development that will provide long term prosperity, environmental health and social well-being.

One of the key themes of the PPS is building strong, healthy communities and achieving efficient and resilient development patterns. Section 1.1.1 of the PPS provides that healthy, liveable and safe communities are sustained by: promoting efficient development and land use patterns; accommodating an appropriate range and mix of uses; avoiding development which may cause environmental or public health and safety concerns; avoiding development and land use patterns that would prevent the efficient expansion of settlement areas; and, promoting cost effective development patterns to minimize land consumption and servicing costs.

Rural Areas in Municipalities

The subject lands are located within a Rural Area and on Rural Lands. PPS policy 1.1.4.1 states that Rural Areas should be supported by building upon rural character, leveraging rural amenities and assets, promoting diversification of the economic base, and employment opportunities. The existing outdoor storage use provides a diversified economic activity within a rural area.

PPS policy 1.1.5 provides direction for Rural Lands promoting recreational, tourism and other economic opportunities, development that is compatible with the rural landscape and can be sustained by rural service levels. The proposed application supports an existing economic activity that diversifies the rural economy and does not require changes in infrastructure or rural service levels. The parking of recreational trailers supports recreation and tourism in Ontario as the trailers are temporarily stored to be utilized by the owners for off-site overnight stays in park areas in economic support of those areas and potential investment or expenditures at surrounding businesses (ie. food store or retail).

Development and Site Alteration Definition

Development is defined in the PPS as the “*creation of a new lot, a change in land use, or the construction of buildings or structures required approval under the Planning Act*”.

Site Alteration is defined in the PPS as “*activities, such as grading, excavation and the placement of fill that would change the landform and natural vegetative characteristics of a site*”.

The proposed Zoning By-law Amendment seeks to recognize an existing use on the subject lands and a new use is not proposed. No development or site alteration is proposed as part of the application based on the following:

- The use is existing and no change in land use is proposed;
- The use does not propose the construction of new buildings or structures; and
- The use does not require new activities of grading, excavation or fill.

Based on the definitions of the PPS, this application does not include development or site alteration and therefore the proposed use is not in conflict with the policies.

Natural Heritage

Section 2.1 of the PPS provides direction for natural heritage features including significant wetlands. No development or site alteration is permitted within significant wetlands or on adjacent lands unless an environmental study is completed. The proposed use is located outside of the adjacent wetland as flagged and mapped by the GRCA, and shown in **Figure 3**.

As no development or site alteration are proposed as part of this application, the requirement for an environmental study on lands adjacent to a significant wetland is not applicable. The proposed zoning would not permit any parking within natural features and all natural features are maintained with no alterations proposed.

Based on the above, it is concluded that the proposed Zoning By-law Amendment is consistent with the Provincial Policy Statement.

4.2 County of Wellington Official Plan

The County of Wellington Official Plan (the “Official Plan”) was adopted by the Wellington County Council on September 24, 1998 and approved by the Ministry of Municipal Affairs and Housing on April 13, 1999 and came into effect on May 6, 1999.

The Official Plan supports sustainable development that balances the protection of natural resources and enhancing economic competitiveness. The subject lands are identified within the Rural System. The Official Plan seeks to protect prime agricultural areas while permitting a broader range of uses within secondary agricultural areas. Areas of existing seasonal and recreational uses are to be identified.

The Official Plan provides a general land use guide and intends to promote land use decisions which provide an economically strong and healthy community. The subject lands are located within the Rural Area where a range of uses are permitted that serve the rural resource or agricultural sector, and support a range of recreation and tourism uses.

4.2.1 Land Use

The subject lands are designated Secondary Agricultural, Greenlands and Core Greenlands in the Wellington County Official Plan, as shown in **Figure 3**.

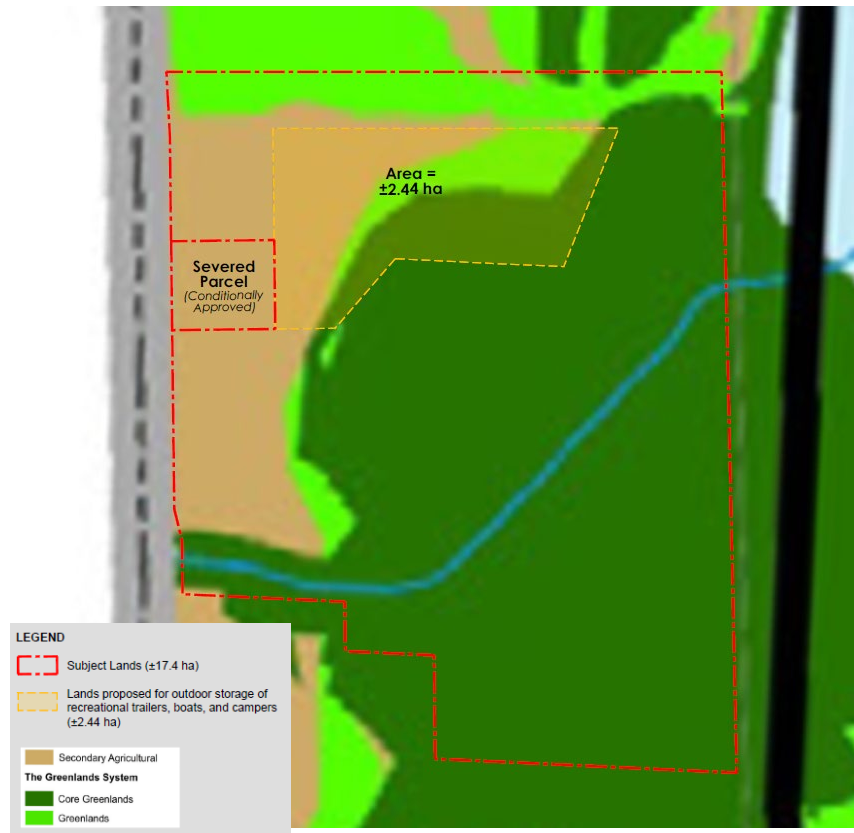

Figure 3: Wellington County Official Plan – Schedule A7 Puslinch

Secondary Agricultural Designation

Within the Secondary Agricultural designation, small scale commercial, industrial and institutional uses which meet the criteria of the Official Plan are permitted. The outdoor recreational trailer storage on the subject lands meets the criteria for commercial uses based on the following:

- Additional sewage and water systems are not required;
- The use is existing and the proposed application will allow for the use to become a legal conforming use with the by-law;
- The use requires a large land area necessitating a non-urban location;
- The use is located in close proximity to recreational areas creating market demand;

- Outdoor storage of recreational trailers will not prevent future agricultural uses on the lands; and
- The use will be limited in scale and located on a portion of one lot.

Based on the foregoing, the recreational trailer storage use is permitted in the Secondary Agricultural designation.

Core Greenlands & Greenlands Designation

A portion of the lands used for recreational trailer storage are designated Core Greenlands and Greenlands. The Core Greenlands designation identifies lands which include: Provincially Significant Wetlands (PSWs), all other wetlands, habitat of endangered or threatened species and fish habitat, and hazardous lands. The Greenlands designation includes areas which contain natural heritage features not included within the Core Greenlands designation.

The permitted uses of the Core Greenlands and Greenlands designation include existing uses and may permit uses permitted in adjacent designations. The outdoor recreational trailer storage is an existing use that is permitted within the adjacent Secondary Agricultural designation.

Policy 5.6.4 of the Official Plan identifies that the Zoning By-law may recognize existing land uses in Core Greenlands. The recreational trailer use is an existing use and no new development is proposed. No additional water or sewer services are required and no buildings are proposed.

Policy 5.6.7 identifies that the mapping of the Core Greenlands and Greenlands may be refined by more detailed mapping on individual sites, and minor adjustments may be made without an amendment to the Official Plan. The land use policies of the adjacent designation will apply as determined by Council. The concept plan in **Figure 2** demonstrates the area used for outdoor recreational trailer storage. It is the intent of this application that the outdoor storage use be limited in area to the existing location of the use.

It is proposed that the mapping of the Greenlands and Core Greenlands be updated to reflect the current condition of the lands. It is further requested that the existing use be recognized through a site specific zoning amendment.

Township Pre-consultation Comments - Ecology Peer Review

As part of the pre-consultation comments provided by the Township of Puslinch, an ecology peer review was completed by Azimuth Environmental Consulting, Inc, dated October 7, 2022. The pre-consultation comments and ecology peer review provided the following recommendations and conclusions:

- Historical imagery suggests the specific land use has occurred since at least 2005;
- It is expected that continuing to use the area for outdoor recreational trailer storage will not result in new or cumulative impacts to natural heritage features and functions, provided expansion does not occur;
- An approach and recommendations are provided for new development or site alteration.

The pre-consultation comments provided by Azimuth support that the use is existing and is not expected to have new or cumulative impacts to the natural heritage. No development or site alteration are proposed as part of this application and therefore the recommendations for new development would not apply.

Minimum Distance Separation Formula

Policy 6.5.6 of the County Official Plan provides that within Secondary Agricultural Areas, the *“provincial minimum distance formula will be applied to new land uses, lot creation and new or expanding livestock facilities”*. The proposed application seeks to recognize the existing outdoor storage use and no new land uses or lot creation are proposed. Further, the outdoor storage use is not a sensitive land use and no new livestock facilities or expansions are proposed. Policy 6.5.6 of the Official Plan therefore does not apply to the application and an MDS calculation is not required.

Summary

In summary, the Secondary Agricultural designation permits small scale commercial uses including the existing outdoor recreational trailer storage. The Official Plan supports the continuation of existing uses within the Greenlands and Core Greenlands designations and permits the modification of the Greenlands mapping on individual sites to reflect existing conditions on the lands.

Based on the above, it is concluded that the proposed Zoning By-law Amendment conforms to the County of Wellington Official Plan.

4.3 Township of Puslinch Zoning By-law

4.3.1 Zoning By-law 19/85

The subject lands were previously zoned Agricultural (A Zone) and Hazard (H Zone) by Zoning By-law No. 19/85. The Agricultural Zone permits home occupation uses which are defined as an *“occupation or business conducted for gain or profit as an accessory use within, or on the same lot as, a permitted dwelling or dwelling unit by one or more persons residing therein”*. The outdoor recreation trailer storage falls within the ‘Home Occupation’ definition as it is accessory to the agricultural use and residential dwelling on the lands, and is located on the same lot as primary use.

It is our understanding, based on information from the landowner, that the existing outdoor recreational trailer storage use was previously reviewed with the Building Official of the Township of Puslinch and was a permitted use under the former Zoning By-law as a home occupation use.

4.3.2 Zoning By-law 023-2018

The Township of Puslinch Zoning By-law No. 023-2018 was adopted by Council in April 2018, repealing the former Zoning By-law No. 19/85

The new Zoning By-law zones the subject lands Agricultural (A), Natural Environmental (NE) with an Environmental Protection Overlay over a portion of the lands. The existing zoning is shown on **Figure 4**. Section 1.1.5 of the new Zoning By-law provides a provision that legally existing uses, existing before the passing of the by-law, are permitted to continue. The outdoor recreational trailer storage was a permitted home occupation use under the former By-law and therefore is permitted to continue.

The purpose of this application is to request that a site specific permission be added to the Agricultural (A) Zone and Natural Environment (NE) Zone to permit the existing outdoor recreational trailer storage use.

The Environmental Protection (EP) Overlay is located on a portion of the lands proposed for the site specific amendment. The EP Overlay corresponds to the Greenlands designation in the Official Plan and the lands mapped by the Grand River Conservation Authority (GRCA) where Regulation 150/06 applies. The special provisions of the overlay restrict development on environmental features. The proposed Zoning By-law Amendment seeks to recognize an existing use and no new development is proposed. The area of the site specific amendment is proposed to be limited in size to reflect the current location of the outdoor storage use, as show in **Figure 4**.

The details of the Zoning By-law Amendment are outlined in Section 3.0.

Figure 4: Township of Puslinch Zoning By-law

5.0 CONCLUSION

This Planning Justification Report concludes that the proposed Zoning By-law Amendment application represent good planning for the following reasons:

- The Zoning By-law amendment is consistent with the Provincial Policy Statement and conforms to the County of Wellington Official Plan.
- The Zoning By-law amendment conforms with the intent of the County Official Plan and supports the economic objectives of the Rural Area. The criteria for commercial use within the Secondary Agricultural designation has been considered and addressed for the proposed site specific use.
- The Zoning By-law Amendment will legally permit an existing use and no new development, buildings or services are proposed.

Respectfully submitted,

MHBC

Other (specify):

Purpose of and reasons for the proposed amendment(s):

Proposed Zoning By-law amendment to permit recreational vehicle storage on a portion of the subject lands.

General Information:

1. Applicant Information:

Registered Owner's Name(s): _ Robert & Gerritje Quinnell
Address: 1873 Townline Road
City: Cambridge
Postal Code: N1T 2J3
Email Address: [REDACTED]
Telephone Number: _____
Fax: _____

Applicant (Agent) Name(s): .MHBC Planning c/o Dave Aston
Address: 540 Bingemans Centre Drive, Suite 200
City: Kitchener
Postal Code: N2B 3X9
Email Address: daston@mhbcplan.com
Telephone Number: 519-576-3650 x709
Fax:

Other Name(s):
Address:
City:
Postal Code:
Email Address:
Telephone Number:
Fax:

Name, address, and phone number of all persons having any mortgages, charges, or encumbrances on the property.

Send correspondence to: Owner: Agent: Other: _____

When did the current owner acquire the subject land? Date: unknown

4. What does the amendment cover?

The "entire" property:
A "portion" of the property:

(This information should be illustrated on the required drawing under item 24 of this application)

5. Provide a description of the "entire" property:

Municipal address: 1873 Townline Road, Cambridge, Ontario, N1T 2J3

If the application is to implement an alteration to the boundary of an area of settlement or to implement a new area of settlement, provide details of the Official Plan or Official Plan amendment that deals with the matter.

N/A

If the application is to remove land from an area of employment, provide details of the Official Plan or Official Plan amendment that deals with the matter.

N/A

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

Please refer to Planning Justification Report included with this application.

10. Zoning:

What is the current zoning of the property? Agricultural, Natural Environment, Environmental Protection Overlay

What uses are permitted? Please refer to Planning Justification Brief included with this application.

If the subject land is within an area where zoning with conditions may apply, provide an explanation of how the application conforms to the Official Plan policies relating to zoning with conditions.

Please refer to Planning Justification Brief included with this application.

If the subject land is within an area where the municipality has pre-determined minimum and maximum density requirements or the minimum and maximum height requirements provide a statement of these requirements.

N/A

Existing and Proposed Land Uses and Buildings:

11. What is the "existing" use(s) of the subject land?

Agricultural and recreational vehicle storage.

12. How long has the "existing" use(s) continued on the subject land?

Since 1990

13. What is the "proposed" use(s) of the subject land?

Site Specific zoning to permit recreational vehicle storage.

14. Provide the following details for all buildings or structures on the subject land:

Building Details	Existing		Proposed	
Type of Building(s) or structures	Barn	Residential Dwelling	No new buildings or changes to buildings proposed.	
Date of construction				
Building height	m	ft	m	ft
Number of floors				
* Total floor area	m ²	ft ²	m ²	ft ²
Ground floor area (exclude basement)	m ²	ft ²	m ²	ft ²
Distance from building structure to the:				
Front lot line	m	ft	m	ft
Side lot line	m	ft	m	ft
Other side lot line	m	ft	m	ft
Rear lot line	m	ft	m	ft

Building Details	Existing		Proposed	
*Percentage lot coverage				
*Number of parking spaces				
*Number of loading spaces				

Existing and Proposed Services:

15. What is the access to the subject property?

- Provincial Highway:
- Continually maintained municipal road:
- Right-of-way:
- Seasonally maintained municipal road:
- Water access:
- Other (please specify):

16. What is the name of the road or street that provides access to the subject property.

Townline Road

17. If access is by water only, please describe the parking and docking facilities used or to be used and the approximate distance of these facilities from subject land to the nearest public road.

N/A

(This information should be illustrated on the required drawing under item 24 of this application)

18. Indicate the applicable water supply and sewage disposal:

Water Supply	Existing		Proposed	
Municipal water				

Water Supply	Existing	Proposed
Communal water		
Private well		
Other water supply		
Water sewers		
Municipal sewers		
Communal sewers		
Private septic		
Other sewage disposal		

19. If the application would permit development on privately owned and operated individual or communal septic systems, would more than 4500 litres of effluent be produced per day as a result of the development being completed?

Yes: No:

If yes, the following reports are required:

Servicing options report

A hydrogeological report

20. How is storm drainage provided?

Storm Sewers:

Ditches:

Swales:

Other: (explain below)

There is no change to require storm water management, there is no change to grades for the storage of the trailers

Other Related Planning Applications:

21. Has the current owner (or any previous owner) made application for any of the following, either on the subject property or within 120 metres of the subject lands?

Planning Application	Yes	No	*File Number	Approval Authority	Subject Lands	Purpose	*Status
Official Plan Amendment							
Zoning By-Law Amendment							
Minor Variance							
Plan of Subdivision							
Consent (Severance)	x		B101-21	County of Wellington	Part Lot 1, Con 9	Lot severance	Conditionally approved
Site Plan Control							

22. Has the subject land ever been the subject of a Minister's Zoning Order?

Yes: No:

If yes, provide the Ontario Regulation number of that order, if known: _____

Other Supporting Information

23. Please list the titles of any supporting documents: (e.g. Environmental Impacts Study, Hydrogeological Report, Servicing Options Report, Traffic Study, Market Area Study, Aggregate Licence Report, Stormwater Management Report, etc.)

Application Drawing

24. Please provide an accurate drawing of the proposal, preferably prepared by a qualified professional. In some cases, it may be more appropriate to submit additional drawings at varying scales a lot better illustrate the proposal. The drawing must include the following information (see on following page):

- Owner/applicant's names;
- Legal description of the property;
- Boundaries and dimensions of the subject and its current land use;
- Dimensions of area of amendment (if not, the entire property);
- The size and use of all abutting land;
- All existing and proposed parking and loading areas, driveways, and lanes;
- The location and nature of any easements or restrictive covenants on the property;
- The location of any existing drains or award drains;
- Woodlots, forested areas, ANSIs, ESAs, wetlands, floodplain, and all natural watercourses (rivers, stream banks, etc.);
The location, size , and type of all existing and proposed buildings and structures on the subject land , indicating their distance from the front lot line, rear lot line, and side lot lines;
The name, location, and width of each abutting public or private road, unopened road allowance or right-of-way;
- If access to the subject land is by water only, provide the location of the parking and docking facilities to be used;
- Other features both on site or nearby that in the opinion of the applicant will have an effect on the application (such as bridges, railways, airports, roads, drainage ditches, wells, septic systems, springs, slopes, gravel pits); and
- The drawing should also include the scale, north arrow, and date when the drawing was prepared.

Authorization for Agent/Solicitor to act for Owner

(If affidavit is signed by an Agent/Solicitor on Owner's behalf, the Owner's written authorization below shall be completed)

I (we) Dan Quinnell of the
Wellington Township of Puslinch County/Region of
Wellington do hereby authorize
MHBC Planning to act as my agent in this application.

Signature of Owner(s)

June 20/23
Date

Affidavit

I (we) DAVID ASTON of the
CITY of CAMBRIDGE County/Region of
WATERLOO solemnly declare that all the statements
contained in this application are true, and I, (we), make this solemn declaration
conscientiously believing it to be true, and knowing that it is of the same force and effect
as if made under oath and by virtue of the CANADA EVIDENCE ACT. DECLARED
before me at the CITY of KITCHENER in the
County/Region of WATERLOO this 13th day of
July, 20 23.

Signature of Owner or authorized
solicitor or agent

July 13/2023
Date

Signature of Commissioner
Paul Ronald Britton, a Commissioner, etc.,
Regional Municipality of Waterloo, for
MacNaughton Hermesen Britton Clarkson
Planning Limited,
2000 Appleton Ave., Waterloo, ON N2L 2K1

JULY 17/23

Application deemed complete:

Signature of Municipal Employee

Date

Personal information on this form is collected under the authority of the Planning Act. The information is used for the purpose of processing this application and administering the legislation and is maintained in accordance with the Municipal Freedom of Information and Protection of Privacy Act. Questions regarding the collection of this information may be directed to the Township Clerk's office.

The Township of Puslinch is committed to providing accessible formats and communication supports for people with a disability. If another format would work better for you, please contact the Township Clerk's office for assistance.

Drinking Water Source Protection Screening Form

Office Use Only

Roll Number: _____

File Number: _____

Submission Date: _____

WHPA, IPZ, ICA: _____

Vulnerability Score: _____

Find out if you live in a vulnerable drinking water area at www.wellingtonwater.ca

For assistance in completing this form, please refer to the “Explanatory Guide” beginning on page 6.

Please note that you may still need to contact the applicable Conservation Authority, as this is not considered correspondence on their behalf.

1. Property Information

Municipal Address of Subject Property: 1873 Townline Road, Cambridge

Assessment Roll Number of Subject Property: 2301000003083000000

Property Owner: Robert & Gerritje Quinnel

2. Proposal (Please check all that apply to this application):

Building	
<input type="checkbox"/>	New Structure
<input type="checkbox"/>	Expansion or Conversion of an Existing Structure
<input type="checkbox"/>	New Septic System
<input type="checkbox"/>	Replacement Septic System
<input type="checkbox"/>	Geothermal System (Transport Pathway)
<input type="checkbox"/>	Change of Use

Planning	
<input type="checkbox"/>	Minor Variance
<input type="checkbox"/>	Official Plan Amendment
<input type="checkbox"/>	Consent Application
<input checked="" type="checkbox"/>	Zoning By-law Amendment Application
<input type="checkbox"/>	Subdivision/Condominium Application
<input type="checkbox"/>	Site Plan Application

Brief Description of the Proposed Use of Land, Proposed Buildings or Structures. If constructing a geothermal, please provide construction details including depth, vertical or horizontal, closed loop or open loop.

Proposed Zoning By-law Amendment to recognize the existing outdoor recreational vehicle storage use on the subject lands.

3. Potential Threat Activities Associated with the Application

Please check all applicable activities that may be associated with the development proposal:

3.1 Fuel Handling and Storage greater than 250 litres

	Existing	Proposed	Greater than 2,500L	Underground Storage Tank	Aboveground Storage Tank	Inside Home	Outside Home
Liquid Fuel (i.e. gasoline or diesel)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>		
Fuel oil (home heating)	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>
Waste oil (heating)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>		

3.2 Chemical Handling and Storage

	Yes	If Yes, please indicate the type(s) of chemicals if known:		If Yes, please estimate the total amount
		3.2.1 Dense Non-Aqueous Phase Liquids (DNAPLs), including chlorinated solvents	3.2.2 Organic Solvents	
Paints and other coatings (including stains, enamels, lacquers, rust paint)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Dry cleaning chemicals	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Automotive repair/maintenance and/or industrial manufacturing and processing (e.g. degreasers, automotive fluids, oils, furniture stripping products, chemical solvents, adhesives)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
Solvent based degreasers or liquids for washing metal parts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	

3.3 Road Salt Application and/or Outdoor Storage

	Covered	Uncovered	Estimated Volume Stored on Property (m ³)	Estimated Application Area (m ²) including private roads, parking lots, and sidewalks
Road Salt Storage	<input type="radio"/>	<input type="radio"/>		
Road salt application (private roads, parking lots, sidewalks, etc.)				

3.4 Snow Storage (see guide)

	Above Grade	Below Grade (buried)	Approximate Storage Area greater than:		
			0.01 ha (double driveway)	0.5 ha (1 soccer field)	1 ha (2 soccer fields)
Snow Storage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3.5 Waste Storage or Disposal (see guide)

	Yes
3.5.1 Storage and/or application of raw, untreated liquids and solids that are pumped out of septic systems and holding tanks (not including septic tanks)	<input type="radio"/>
3.5.2 Storage and/or disposal of oils (does not include restaurant oil or grease); hazardous waste; liquid industrial waste; industrial and commercial waste; or PCB waste	<input type="radio"/>

3.6 Storm Water Management/Industrial Sewage

	Yes
Stormwater management facility (treatment, retention, infiltration, recharge or control of stormwater)	<input type="radio"/>
Car or truck washing facility	<input type="radio"/>
Oil and Water Separator	<input type="radio"/>
Sediment control (i.e. Stormceptor)	<input type="radio"/>

3.7 Septic Systems

	Existing	Proposed	
		New	Replacement
Septic system for residential or small-scale commercial/industrial/institutional use (Ontario Building Code)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Septic system (Greater than 10,000 litres per day) for commercial/industrial/institutional use (note an Environmental Compliance Approval would be required)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3.8 Water Taking

	Proposed	Existing	If Existing, please provide the following:			
			Drilled	Dug	Well Not In Use*	Approx. Construction Date
3.8.1 Private Well (<i>*Please note that if there is an existing well that is not in use, Section 3.9 must also be checked</i>)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
3.8.2 Greater than 50,000 litres per day of water being used (note a Permit to Take Water may be required)	<input type="radio"/>	<input type="radio"/>				

3.9 Transport Pathway (see guide)

	Yes
Creation of aggregate pits, geothermal systems, non-residential or large residential caissons/building piers, or utilities/excavation within fractured bedrock and underground parking garages	<input type="radio"/>
Existing private well not in use	<input type="radio"/>

3.10 Recharge Reduction

	Yes
Creation of impervious surfaces (including large roofed areas, pavement, etc.) – only applies within Town of Erin	<input type="radio"/>

3.11 Agricultural

	Application	Storage	Product Name(s)
3.11.1 Fertilizers	<input type="radio"/>	<input type="radio"/>	
3.11.2 Pesticides	<input type="radio"/>	<input type="radio"/>	
3.11.3 Agricultural source material (i.e. manure)	<input type="radio"/>	<input type="radio"/>	
3.11.4 Non-agricultural source material (i.e. biosolids, commercial food wastes, etc.)	<input type="radio"/>	<input type="radio"/>	

	Yes	Estimated Number of Animals	Type of Animals
3.11.5 Grazing and Pasturing of livestock	<input type="radio"/>		
3.11.6 Outdoor Confinement Yard	<input type="radio"/>		
3.11.7 Nutrient Management Plan or Strategy, NASM Plan applies to or is registered for the property	<input type="radio"/>		
Environmental Farm Plan	<input type="radio"/>		

3.12 None of the above are applicable

Check off this box only if none of the above sections have been checked	<input checked="" type="checkbox"/>

Information is collected pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*, R.S.O. 1990, c. M.56 and the *Clean Water Act*, 2006, S.O. 2006, c. 22 for the administration and enforcement of the *Clean Water Act*. Please note that business identity information is not considered personal information pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*.

For any inquiries about the collection of this information, please contact the Risk Management Official, Wellington Source Water Protection, 7444 Wellington Road 21, Elora, ON, N0B 1S0, 519-846-9691 ext. 362.

Explanatory Guide for Completing the Drinking Water Source Protection Screening Form

Your property is located within a municipal well head protection area or intake protection zone and therefore may be subject to the *Clean Water Act*, 2006. The Wellhead Protection Area (WHPA) is the area around a municipal well where land use activities have the potential to affect the quality and quantity of water that flows into the wellhead. For more information, refer to www.wellingtonwater.ca or contact 1-844-383-9800.

To assist staff in determining whether your property and/or application is subject to the Act, the Drinking Water Source Protection Screening Form is completed to inventory the activities that are proposed on your property. The following sections explain the form.

Section 1 – Property Information:

Please fill out the municipal address and property owner for the subject property.

Section 2 – Proposal:

Please check all that apply to the application and provide a brief explanation of the proposed development and/or construction details if construction a geothermal (such as depth, vertical r horizontal, closed loop or open loop).

Section 3 – Potential Threat Activities Associated with Proposed Application:

Within this section please fill out all that apply to your application. If there is a circle provided in the table, please provide a check mark; if there is a blank space in the table please write in the applicable information.

3.1 Liquid Fuel Handling and Storage:

Fill out this section if on the property there is liquid fuel storage or handling greater than 250 litres (1 gal = 3.785 L). This can be located in land uses for residential, agricultural, gas, commercial, industrial or institutional purposes and includes gasoline, diesel or home heating oil. It does not include propane or natural gas.

3.2 Chemical Handling and Storage:

Fill out this section if the application is regarding one of the listed chemical handling or storage activities on the form.

3.2.1 Known DNAPLs:

Fill out this section only if applicant is aware of a Dense Non-Aqueous Phase Liquid (DNAPL) on the property. DNAPLs are chemicals that are denser than water and therefore have the ability to contaminate the groundwater easily. The specific DNAPLs that pose a potential threat are poly-aromatic hydrocarbons (PAHs), 1, 4-dioxane, trichloroethylene, tetrachloroethylene or perchloroethylene (PCE or PERC) and Vinyl Chloride.

- **Vinyl Chloride:** Used to make polyvinyl chloride (PVC) pipes, wire coatings, vehicle upholstery and plastic kitchen ware
- **PAHs:** Used in wood preservatives, pharmaceuticals, dyes and asphalt products.

- **1,4-dioxane:** Used as a degreasing solvent or solvent stabilizer in various manufacturing processes.
- **Tetrachloroethylene** (PCE or PERC): Used in dry cleaning, metal cleaning and as an intermediate in manufacturing processes.
- **Trichloroethylene** (TCE): Mainly used for degreasing of metal parts in the automotive and metal industries and also found in some household products such as adhesives, paint removers, paints, rug cleaning fluids, and metal cleaners.

3.2.2 Known Organic Solvents:

Fill out this section if the applicant is aware of Organic Solvents on the property. Organic Solvents are liquid organic compounds with the ability to dissolve solid, gases or liquids and therefore have the ability to contaminate drinking water sources. Organic Solvents that are of potential concern include Carbon Tetrachloride, Chloroform, Dichloromethane and Pentachlorophenol (PCP).

- **Carbon Tetrachloride:** Once used widely in fire extinguishers, as a cleaning agent, in the manufacture of refrigerants as well as an industrial solvent and metal degreasing agent is a banned substance in Ontario since 1999. The only permitted uses of the chemical are in research laboratories or in the manufacturing process where the product is converted to an alternative product which does not contain a class of ozone-depleting substances.
- **Chloroform:** commonly used in a laboratory setting, and in the production of pharmaceuticals, dyes and pesticides.
- **Dichloromethane** (also known as methylene chloride): used as a solvent in paint strippers and removers. It is used as a process solvent in the manufacture of drugs, pharmaceuticals and film coatings. It is also used as a metal cleaning and finishing solvent in electronics manufacturing, aerosol propellant and as an agent in urethane foam blowing.
- **Pentachlorophenol** (PCP): used as an herbicide, insecticide, fungicide, algacide and disinfectant, and as an ingredient in antifouling paint. Its use has significantly declined due to its high toxicity. Today it is used industrially as a wood preservative and is not manufactured in Canada.

3.3 Road Salt Application, Handling and Storage:

Fill out this section if there will be road salt storage on the property or road salt application on a private road, parking lot, or sidewalk located on the property. Please provide estimates in m³ for volume and m² for area.

3.4 Snow Storage:

Fill out this section if there will be snow storage (above or below grade) on the property and indicate whether the storage will be greater than 0.01 hectare (0.03 acre or 10 metres by 10 metres), greater than 0.5 hectares (1.24 acres or 50 metres by 50 metres), or greater than 1 hectare (2.5 acres or 100 metres by 100 metres). For reference, 0.01 hectare is roughly the size of a double driveway, 0.5 hectares is roughly the size of one soccer field, and 1 hectare is roughly the size of two soccer fields.

3.5.1 Waste Storage or Disposal - Septic Tank Pump outs

Fill out this section only if application is involved in the pumping out or disposal/treatment of raw sewage or seepage, porta potties or holding tanks.

3.5.2 Waste Storage or Disposal - Storage and/or Disposal of Hazardous Waste:

Fill out this section if there is hazardous waste or liquid industrial waste stored on the property including waste oil, solvents, and automotive fluids. Please note storage or disposal of oil does not include restaurant oil or grease. Storage of hazardous waste or liquid industrial waste includes wastes requiring registration with the Ontario Hazardous Waste Information Network (HWIN), if applicable. Disposal of waste on site includes landfilling and incineration. Typically, this will only be at commercial or industrial properties.

3.6 Storm Water Management/Industrial Sewage:

Fill out this section if one of the listed storm water management or industrial sewage activities is planned or present. For reference, a storm water management facility may include a retention or detention pond (wet or dry), catch basins, sediment control, recharge systems (such as infiltration galleries), swales and ditches.

3.7 Septic Systems:

Fill out this section if the property will be serviced by a septic system. Please indicate whether the septic system is existing or proposed. If the existing or proposed septic system has a design capacity of less than 10,000 litres, it is regulated under the Ontario Building Code (OBC). A building permit, obtained through the municipality, is required by the OBC for installation of a new septic system and for the repair/replacement of an existing system. If the existing or proposed septic system has a design capacity of greater than 10,000 litres a day, a provincial Environmental Compliance Approval may be required under the Ontario Water Resources Act. Please contact the local Ontario Ministry of the Environment and Climate Change office for more information.

3.8.1 Water Taking - Private well installed:

Fill out this section if there is an existing well present or a new well being installed on the property. This includes private drinking water wells, environmental test wells, geotechnical wells, irrigation wells, etc. Please indicate whether the well is proposed or existing, and fill out the rest of the section (dug or drilled as well as the approximate construction date) for existing wells only.

3.8.2 Water Taking - Greater than 50,000 litres per day

Fill out this section if more than 50,000 litres per day is being withdrawn from a well or a water body (1 gal = 3.785 gal).

3.9 Transport Pathway

Transport pathways are human constructed pathways through soil and bedrock that may increase the vulnerability of groundwater to certain contaminants.

Please check the first circle if your application will be installing a vertical geothermal system, installation of caissons or building piers for a non-residential application or for a large residential application, aggregate project, or installation of utilities or excavation within fractured bedrock. A road occupancy permit application could indicate when fracture bedrock excavation occurs. If geothermal, please provide construction details including depth, vertical or horizontal, closed loop or open loop in the space provided in Part 2 (on the first page of this document). A large residential application includes multi-story, multi-unit residential developments.

Please check the second circle if there is an existing private well that is not in use. Private wells include environmental and / or geotechnical monitoring wells and domestic wells. If you filled out Section 3.8.1 as private well not in use, Section 3.9 should also be completed.

3.10 Recharge Reduction:

Fill out this section if there is going to be an increase in impervious surfaces on the property. For example, asphalt (driveways and parking areas) and covered areas (roofs, decks and structures). If building within current building envelope then it is not an increase. Please note this box only applies within the Town of Erin.

3.11.1 Fertilizers and/or 3.11.2 Pesticides:

Fill out this if there is storage or use of fertilizer or pesticides for agricultural or commercial use. Do not fill out this section if used only for personal use.

3.11.3 Agricultural - Application, handling and storage of agricultural (i.e. manure) and/or 3.11.4 non-agricultural source material (bio solids):

Fill out this section if there is application, handling or storage of Agricultural Source Material (ASM) (manure) or Non-Agricultural Source Material (NASM) on the property. ASM and NASMs include; manure (ASM) and biosolids, commercial food waste, etc. For more information on NASMs and ASMs please look at fact sheet number 4, available on our website, www.wellingtonwater.ca

3.11.5 Agricultural - Grazing and pasturing of livestock:

Fill out this section if there is any grazing, pasturing or housing of one or more livestock on the property excluding household pets. Livestock can include cows, horses, sheep, goats and other animals. If unsure, please contact Wellington Source Water Protection for clarification. Please give an estimation of the number of animals, as well as the type of animal(s).

3.11.6 Outdoor Confinement Yard:

Fill out this section if there are any livestock including cows, horses, sheep, goats and other animals housed in an outdoor confinement yard on the property. If unsure, please contact Wellington Source Water Protection for clarification. Please give an estimation of the number of animals, as well as the type of animal(s).

3.11.7 Prescribed Instruments

Fill out this section if there are any provincially prescribed instruments that apply to or are registered for the property. This includes Nutrient Management Strategies, Nutrient Management Plans and Non-Agricultural Source Material Plans.

3.12 None of the above are applicable:

Check that none of the above sections in Part 3 are applicable to the application. This section should only be checked if none of the other sections have been checked.

Section 4 - Declaration:

Either the owner or the applicant must sign and date the form.

REPORT PDAC - 2024-004

TO: Planning & Development Advisory Committee

PREPARED BY: Lynne Banks, Development and Legislative Coordinator

PRESENTED BY: Lynne Banks, Development and Legislative Coordinator

MEETING DATE: October 8, 2024

SUBJECT: Proposed 2025 Planning & Development Advisory Committee Meeting Schedule

RECOMMENDATIONS

That staff report PDAC-2024-004 regarding the Proposed 2025 Planning & Development Advisory Committee Meeting Schedule be received for information; and further,

That the 2025 Planning & Development Advisory Committee Meeting Schedule be approved as presented.

Purpose

The purpose of this report is to provide the Planning & Development Advisory Committee with the proposed 2025 Committee Meeting Date Schedule.

Background

The Planning & Development Advisory Committee Terms of Reference state that the Committees meet monthly on the second Tuesday of each month at 7:00 p.m., or another time mutually agreed upon by the Committees, and as many additional times as the Committees deem necessary.

Comments

Below are the proposed dates for the 2025 Planning & Development Advisory Committee Meetings:

2025 Meeting Dates
Tuesday January 14, 2025 @7p.m.
Tuesday February 11, 2025 @7p.m.

Tuesday March 11, 2025 @7p.m
Tuesday April 8, 2025 @7p.m.
Tuesday May 13, 2025 @7p.m.
Tuesday June 10, 2025 @7p.m.
Tuesday July 8, 2025 @7p.m.
Tuesday August 12, 2025 @7p.m
Tuesday September 9, 2025 @7p.m.
Tuesday October 14, 2025 @7p.m.
Wednesday November 12, 2025 @7p.m.
Tuesday December 9, 2025 @7p.m.
