16. NOTICE OF MOTION

16.1. Councillor Goyda submits the following notice of motion to be considered by Council at the July 15, 2026 Council Meeting:

Resolution No. 2026-249:

Moved by Councillor Goyda and
Seconded by Councillor Hurst

Whereas the intersection of Watson Road South and Arkell Road serves as a key gateway and central gathering area within the Village of Arkell and accommodates significant vehicular, pedestrian, and cycling traffic;

And Whereas residents have raised ongoing concerns regarding vehicle speeds, compliance with traffic control devices, traffic queues, and overall safety at this intersection;

And Whereas residents have reported collisions, near misses, and vehicles failing to stop at the intersection, creating safety concerns for motorists, pedestrians, cyclists, and other road users;

And Whereas traffic volumes during peak periods, particularly during school and commuter hours, can result in significant vehicle queues and delays on all approaches to the intersection;

And Whereas sidewalks exist on portions of the intersection, however, there are no marked pedestrian crossings or other traffic control measures that clearly define crossing locations or reinforce right-of-way expectations for pedestrians and motorists;

And Whereas the intersection experiences regular pedestrian activity, including children and families accessing nearby businesses and community destinations located adjacent to the intersection;

And Whereas recent vandalism of traffic calming measures within the Village highlights the challenges associated with managing vehicle speeds and promoting road safety through existing measures alone;

Therefore Be It Resolved That the Council of the Township of Puslinch request that the County of Wellington undertake a review of the intersection of Watson Road South and Arkell Road to assess existing traffic operations, pedestrian activity, cyclist usage, collision history, traffic control compliance, and overall safety conditions, and identify potential measures to improve safety and intersection operations; and,

That the review consider the intersection's function as a village centre, the presence of nearby businesses and community destinations, peak-period traffic congestion, and the need to provide safe and clearly defined crossing opportunities for pedestrians and cyclists including consideration of whether enhanced pedestrian crossing measures may be warranted, and the potential for traffic diversion onto adjacent local roads, including Boreham Drive, and any associated impacts on neighbourhood safety; and

THE CORPORATION OF THE TOWNSHIP OF PUSLINCH
JULY 15, 2026 COUNCIL MEETING
VIRTUAL MEETING BY ELECTRONIC PARTICIPATION
& IN-PERSON AT 7404 WELLINGTON RD 34, PUSLINCH

That the County be requested to provide a presentation to Puslinch Council outlining whether a study or other appropriate review will be undertaken for this intersection and, if so, to present the findings and any recommendations to improve safety for motorists, pedestrians, cyclists, and all other road users.

Further, that the presentation include an overview of the process followed when a local municipality requests speed mitigation measures on a County road, including how the Township can best facilitate those requests and opportunities to improve coordination, communication, and the overall review process between the County and the Township.
