Attention: Deborah Turchet

Dear Ms. Turchet:

Re: Severance Application & Sketch
111 Carter Road
Part of Lot 6, Plan 131, East of Blind Line
PIN 71185-0102
Township of Puslinch

RECEIVED

MAR 03 2026

SECRETARY TREASURER
WELLINGTON COUNTY
LAND DIVISION COMMITTEE

Please find enclosed an application for a severance on the above-mentioned property. Included with this submission are copies of the severance sketch, completed application form, PIN Report and Map, the required deed, MDS Farm Data Sheets, a cheque to the GRCA for **\$465.00** and a cheque to the Wellington County for **\$6,000.00**.

Proposal:

The proposal is to create a new parcel for residential parcel along Carter Road. The subject property is known as #111 Carter Road (PIN 71185-0102) where an existing dwelling will remain.

The Severed Parcel is flag shaped and will have a frontage of 13±m, and widens to 64±m to the rear, depth of 252±m, for an area of 1.2±ha where a single-detached dwelling, well and septic are proposed. The existing shed located within the parcel will be removed and a new entrance is proposed to access the property.

There are many "flag-shaped" lots in the Township of Puslinch where there is a narrow strip leading to a larger "square" for the residential area. We have seen many of these types of parcels being approved over the last few years. The proposed configuration makes good use of a vacant area of land, that consists of grass / scrub land and where a building envelope is proposed.

The Retained Parcel (#111) will have a frontage of 50±m, depth of 80±m, for an area of 0.40±ha where the existing dwelling, septic and well will remain. The existing driveway will continue to provide safe access to the dwelling.

Minimum Distance Separation (MDSI):

There are two properties in the surrounding area that we have evaluated for MDS as part of this severance application. The first barn is located to the east at #83 Carter Road. Based on the MDS Form, using Type B calculation, the required distance is 162m and the actual distance to the severed parcel is 166±m, therefore, MDS is met.

The second property evaluated is located at #540 Arkell Road. Based on the MDS Form, using Type B calculation, the required distance is 302m and the actual distance to the severed parcel is 415±m, therefore, MDS is met.

There is an old bank barn and accessory buildings at #86 Farnham Road, however the property was re-zoned in 2024 (File D14/JEF) to a Specialized Agricultural (Asp-113) to prohibit the housing of livestock in the existing buildings. Therefore, MDS is not applicable to this severance application.

Planning Policies:

The subject property is zoned Agricultural and the Zoning requirements are met for the Retained Parcel in terms of lot frontage, area and setbacks outlined in Section 11.4 for the Reduced Agricultural Lot Requirements of the Zoning By-law.

The Zoning requirements are met for the Severed Parcel in terms of lot area and setbacks outlined in Section 11.4 for the Reduced Agricultural Lot Requirement, however a minor variance is required for the reduced lot frontage to be 13.0m vs. 25m required. The 13±m frontage has been evaluated and safe access is possible and it provides enough width for a driveway and drainage, leading to a large open area where a dwelling is proposed. There are numerous lots with a similar configuration within Puslinch and we consider this request to be minor and a variance application will be applied for to address this.

The subject property has an underlying County of Wellington Official Plan designation of Prime Agriculture which normally does not support severances for residential uses. However, the subject lands are part of Special Policy Area (PA7-4) designation. This section states that *“if the livestock operations are not affected or have ceased operation, the uses permitted under the Secondary Agricultural Areas would be allowed without an amendment to this Plan.”* There are no livestock operations on the subject property and MDS is met to surrounding barns.

Therefore, the subject lands can be treated as if they are designated Secondary Agricultural – which allows for a severance, provided that certain criteria of the Official Plan (Section 10.4.4) are met. We reviewed this section, and we provide the opinion that the relevant criteria are met including the following:

- The severed lands are designated Secondary Agricultural.
- Ownership is longer than 5 years.
- No severance since March 2005.
- Safe entrance is available – sight lines have been evaluated.
- Adequate space for new dwelling and septic.

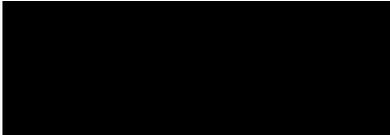

- No impacts on environmentally sensitive lands or woodlot.
- Zoning requirements are met for the Severed Parcel. A minor variance will be applied for to address the frontage.
- MDS requirements are met.

In summary, this severance is very practical and follows the relevant criteria for a severance. The proposed severance is a natural fit given the large lot size and it provides a great opportunity for modest development for a single detached dwelling.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

Hi Jana,

Thank you for providing the above referenced application for review. Since this property is located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), but the activities as indicated, would not create a significant drinking water threat, the application can be screened out and it does not require a Section 59 notice under the *Clean Water Act*. Please note that we may provide comments on any future applications subject to this property, given the vulnerable areas.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

Please feel free to contact me if you have any further questions regarding this application.

Best regards,
Keira
