TOWNSHIP OF PUSLINCH LAUNCHES RECREATION AND PARKS MASTER PLAN AND INVITES PUBLIC INPUT

PUSLINCH – The Township of Puslinch is pleased to announce the development of a new 10-year Recreation and Parks Master Plan and is inviting residents to help shape its future by participating in an online public survey.

The Recreation and Parks Master Plan will serve as a long-term planning tool to guide the future of parks, recreation facilities, programs, and services across the Township. The Plan will support informed decision-making and help ensure municipal recreation services continue to meet the evolving needs of residents, community groups, and visitors.

Community engagement is a key component of the project. Feedback collected throughout the process will help identify priorities, assess current and future recreation needs, and inform practical, sustainable, and achievable recommendations for the next 10 years.

As part of this engagement, the Township is inviting residents to complete an online public survey, which is open from Friday, July 10 to Friday, July 24, 2026. The survey seeks input on a variety of topics, including parks, trails, recreation facilities, programs, services, and future priorities.

"The Recreation and Parks Master Plan is an important opportunity to establish a shared vision for the future of parks and recreation in Puslinch," said Mayor Seeley. "We encourage residents to participate in the survey and engagement opportunities to help ensure the Plan reflects the needs and priorities of our community."

In addition to the online survey, residents are encouraged to participate in other engagement opportunities throughout the project, including:

- Saturday, July 11, 2026 – Meet the project team at the Puslinch Fire Department Open House
- Wednesday, September 16, 2026 – Public Open House

The online survey can be completed at EngagePuslinch.ca. Puslinch residents are encouraged to stay informed and participate throughout the process. Project updates and background information will be shared online at Puslinch.ca/RecMasterPlanUpdate.
