9.1 Land Division (Consents)

9.1.1. B18-26 – Hohenadel, Mary & Paul– 4458 Victoria Rd S, Township of Puslinch

Proposed lot line adjustment is 750 m² with 18m frontage, vacant land with partial pond to be added to abutting rural residential parcel - Michael Hohenadel. Together with a proposed hydro easement over the severed parcel to benefit the retained.

Retained parcel is 5.3 hectares with 13.9m frontage, existing and proposed rural residential use with existing dwelling and accessory buildings

Recommendation:

That Report PDAC-2026-012 entitled Consent Application B18-26 be received for information; and

Whereas the Township has reviewed the proposal to adjust the boundary between 4458 Victoria Road and 4456 Victoria Road within the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent proposes a minor lot line adjustment to transfer approximately 0.075 hectare (750 m²) of land from 4458 Victoria Road South to 4456 Victoria Road South, resulting in a merged parcel approximately 0.47 hectares in area, and a retained parcel of approximately 5.3 hectares at 4458 Victoria Road South; and

Whereas the lands at 4456 Victoria Road South contain an existing dwelling, septic system, as well as a portion of a pond; and

Whereas the lands at 4458 Victoria Road South contain an existing dwelling, three accessory structures, septic system, and a portion of a pond; and

Whereas the additional lands are requested to wholly contain the existing pond within the boundaries of 4456 Victoria Road South; and

Whereas the proposed boundary adjustment will not result in any loss of agricultural lands;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends approval of the application subject to the following conditions:

- 1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject lands; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.*
- 2. That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch and a letter of clearance of this condition is received by the Secretary Treasurer of the Land Division Committee from the Township of Puslinch.*
- 3. That the owner demonstrates, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.*

9.1.2. Amended Report PDAC-2026-013 – B20-26 – McFee, Allan – 4315 Watson Rd, Township of Puslinch

Proposed severance is 0.49 hectares with 55m frontage, existing agricultural use for proposed rural residential use.

7404 WELLINGTON RD 34, PUSLINCH

Retained parcel is 37.5 hectares with 156m frontage, existing and proposed agricultural use with existing dwelling, barn & shed.

Recommendation:

That Report PDAC-2026-013 entitled Consent Application B20-26 be received for information; and

Whereas the Township has reviewed the proposal to create one new residential parcel along Watson Road South in the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent includes the proposed severance of the subject property (4315 Watson Road South, Township of Puslinch) into two parcels; and

Whereas the severed parcel would be a vacant lot suitable for a future dwelling, featuring a lot frontage of approximately 55 metres, a lot depth of approximately 90 metres, and a lot area of approximately 0.49 hectares; and

Whereas the retained parcel would continue as an agricultural operation, feature a lot frontage of approximately 156 metres along Watson Road South, and an approximate lot depth of 1,032 metres, and a lot area of approximately 37.5 hectares;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends approval of the application subject to the following conditions:

- 1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject property; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.*
- 2. That the Owner obtain zoning compliance for both the merged and retained parcels including but not limited to item 2.1 and 2.2, to be demonstrated to the satisfaction of the Township of Puslinch; should zoning compliance not be achieved, the Owner shall obtain approval of a Zoning By-law Amendment or minor variance, as applicable, to bring the parcels into compliance; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.*

- 2.1 *That the Owner obtain approval of a Zoning By-law Amendment , to the satisfaction of the Township of Puslinch, implementing all measures necessary to ensure compliance with the Minimum Distance Separation (MDS) Guidelines for the severed parcel, including but not limited to the barn located at 4315 Watson Road South. Such amendment may include site specific provisions, but is not limited to, the reclassification of detached structures to accessory structures (storage) to achieve MDS calculations and the prohibition of any existing livestock facilities and manure storage on the retained parcel, or other zoning provisions deemed necessary to achieve MDS compliance. MDS calculations will be required for any new buildings constructed on the retained lands after the passing of the Zoning By-law Amendment that contain livestock and/or manure storage areas, in accordance with Section 4.16 of the Township Zoning By-law, as amended. Upon approval, the Township shall provide written confirmation to the Secretary-Treasurer that this condition has been fulfilled.*
- 2.2 *That the Owner obtains zoning compliance for MDS I, including but not limited to the barn located at the property municipally known as 4342 Watson Road South, for both the severed and retained parcels, and show zoning compliance that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.*
3. *That the Owner demonstrate, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.*
4. *That the Owner demonstrate, to the satisfaction of the Township of Puslinch, that safe access to the severed parcel can be achieved; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.*
5. *That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant/Owner. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch, upon receipt of any and all fees being paid; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.*
6. *That the Owner submit a pre-development site plan for the severed parcel to the satisfaction of the Township of Puslinch identifying the proposed dwelling location and setbacks from property lines, driveway location, well and septic system on the severed parcel, and any topographic constraints; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.*

9.1.3. B21-26 – Paddock, Gwendolyn – 4121 Wellington Rd 35, Township of Puslinch

Proposed severance is $60.96\text{m} \times 99.06 = 0.60$ hectares, existing agricultural use for proposed rural residential use.

Retained parcel is 39.7 hectares with 952.85m frontage, existing and proposed agricultural use.

Recommendation:

That Report PDAC-2026-014 entitled Consent Application B21-26 be received for information; and

Whereas the Township has reviewed the proposal to create one new rural residential parcel with frontage along Wellington Road 35 in the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent includes the proposed severance of the subject property (4121 Wellington Road 36) into two parcels; and

Whereas the severed parcel would be a vacant lot intended for a future rural residential development, featuring a lot frontage of approximately 62.96 metres, a lot depth of approximately 99.06 metres, and a lot area of approximately 0.6 hectares; and

Whereas the retained parcel would be retained for agricultural purposes, feature a lot frontage of approximately 387.28 metres along Concession 1 Road, a lot depth of approximately 1,013 metres and a lot area of approximately 39.7 hectares;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends refusal of the application based on the following:

1. *The subject property is designated as Prime Agricultural per Schedule B7 of the County of Wellington Official Plan (County Official Plan). Per Section 4.3.3 of the Provincial Planning Statement (PPS, 2024), lot creation in prime agricultural areas is discouraged and may only be permitted in accordance with the following provincial guidelines:*
 - a. *Agricultural uses;*
 - b. *Agricultural-related uses;*
 - c. *A residence surplus to a farming operation;*
 - d. *Infrastructure purposes*

PLANNING AND DEVELOPMENT ADVISORY COMMITTEE MEETING
VIRTUAL MEETING BY ELECTRONIC PARTICIPATION &
IN-PERSON AT THE MUNICIPAL OFFICE –
7404 WELLINGTON RD 34, PUSLINCH

Further, Section 10.3.1 of the County Official Plan reinforces the Provincial policies by stating that within Prime Agricultural Areas lot creation is only permitted for:

- e. Agricultural uses;*
- f. Agricultural-related uses;*
- g. A residence surplus to a farming operation;*
- h. Lot line adjustments;*
- i. Community service facilities;*

Accordingly, as the proposed lot creation for a vacant lot for future rural residential development does not fall within any of the permitted forms of lot creation in Prime Agricultural Areas, the Township finds that the application is not consistent with the PPS and does not conform to the County Official Plan and recommends refusal.

Should the County approve the application, the following conditions shall apply:

- 1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject property; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.*
- 2. That the Owner obtain zoning compliance for both the severed and retained parcels including but not limited to item 2.1, to be demonstrated to the satisfaction of the Township of Puslinch; should zoning compliance not be achieved, the Owner shall obtain approval of a Zoning By-law Amendment or minor variance, as applicable, to bring the parcels into compliance; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.*
 - 2.1 That the Owner obtains zoning compliance for MDS I, including but not limited to the barn located at 4227 Wellington Road 35 and 6920 Concession 1 Road, and show zoning compliance for the severed parcel that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.*
- 3. That the Owner demonstrate, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.*

4. *That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant/Owner. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch, upon receipt of any and all fees being paid; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.*

9.2.3. B24-26 - Keidinger-Krebs, Christina – 19 Lakeside Dr, Township of Puslinch

Proposed lot line adjustment is 129 square metres with 6.15m frontage, existing residential use to be added to abutting residential lot - Ralph Krebs for driveway & wheelchair ramp.

Retained parcel is 1440 square metres with 25.13m frontage, existing and proposed residential use.

Recommendation:

That Report PDAC-2026-015 entitled Consent Application B24-26 be received for information; and

Whereas the Township has reviewed the proposal to adjust the boundary between 19 Lakeside Drive and 20 Lakeside Drive within the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent proposes a minor lot line adjustment to transfer approximately 129 m² of land from 20 Lakeside Drive to 19 Lakeside Drive, resulting in a merged parcel of approximately 919 m² for 19 Lakeside Drive and a retained parcel of approximately 1,311 m² at 20 Lakeside Drive; and

Whereas the lands 20 Lakeside Drive contain an existing one-storey brick dwelling, septic system and well, and a portion of a wheelchair ramp. The additional lands are requested to resolve the existing encroachment of the wheelchair ramp to ensure it is contained wholly on the enlarged parcel (19 Lakeside Drive);

Whereas the lands at 20 Lakeside Drive and 19 Lakeside Drive currently feature a shared driveway. The boundary adjustment will also provide sufficient space for a new driveway which is also proposed as part of the application;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends approval of the application subject to the following conditions:

That the Committee provide the following comments for Council's consideration:

- 1. The Committee recommends that the specific number and types of RVs, trailers, sheds and storage containers to be stored be provided via a drawing/diagram and be included in the Zoning By-law Amendment*
- 2. The Committee recommends that appropriate screening be provided going south on Victoria Rd.*
- 3. The Committee recommends no RV sales; RV maintenance and no occupancy be permitted in the trailers on the site.*
- 4. The Committee recommends that the Township Fire Department assess the design of the fire route and the hammerhead for accessibility, including through the winter months.*
- 5. The Committee recommends that a Fuel Spill Plan should be provided.*
- 6. Committee requests that the area to be rezoned be confirmed and accurately represented in the Zoning By-law Amendment.*
- 7. The Committee suggests that Council consider approving this application subject to all requirements of the application being met.*
- 8. Council should consider how to address standardizing new applications for recreational vehicle storage sites on agricultural zoned lands and possibly address this through a Zoning By-law Housekeeping Amendment or new Township of Puslinch Official Plan. This may require a hold being placed on new applications for this type of zoning amendment.*

REPORT PDAC-2026-012

TO: Planning and Development Advisory Committee Chair and Members of Committee

PREPARED BY: Max Fedchyshak, MCIP, RPP, Senior Planner

PRESENTED BY: Monika Farncombe, Planning and Corporate Services Coordinator

MEETING DATE: August 11, 2026

SUBJECT: County Consent Application File: B18-26
4458 Victoria Road South & 4456 Victoria Road South, Part of Lot 21, Concession 8, Township of Puslinch

APPLICANT: VanHarten Land Surveyors & Engineers (Agent), Paul & Mary Hohenadel (Property Owner)

RECOMMENDATION

That Report PDAC-2026-012 entitled Consent Application B18-26 be received for information; and

Whereas the Township has reviewed the proposal to adjust the boundary between 4458 Victoria Road and 4456 Victoria Road within the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent proposes a minor lot line adjustment to transfer approximately 0.075 hectare (750 m²) of land from 4458 Victoria Road South to 4456 Victoria Road South, resulting in a merged parcel approximately 0.47 hectares in area, and a retained parcel of approximately 5.3 hectares at 4458 Victoria Road South; and

Whereas the lands at 4456 Victoria Road South contain an existing dwelling, septic system, as well as a portion of a pond; and

Whereas the lands at 4458 Victoria Road South contain an existing dwelling, three accessory structures, septic system, and a portion of a pond; and

Whereas the additional lands are requested to wholly contain the existing pond within the boundaries of 4456 Victoria Road South; and

Whereas the proposed boundary adjustment will not result in any loss of agricultural lands;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends approval of the application subject to the following conditions:

- 1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject lands; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.**
- 2. That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch and a letter of clearance of this condition is received by the Secretary Treasurer of the Land Division Committee from the Township of Puslinch.**
- 3. That the owner demonstrates, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.**

Background

The subject property consists of 4456 Victoria Road South and 4458 Victoria Road South, legally described as Part of Lot 21, Concession 8, and identified as PIN 71195-0681 (retained lands) & PIN 71195-0253 (severed lands).

4456 Victoria Road South (retained lands) is designated Secondary Agricultural, whereas 4458 Victoria Road South (severed lands) is designated Secondary Agricultural, Core Greenlands, and Greenlands in the County of Wellington Official Plan (County Official

Plan). The retained lands are zoned Agricultural (A), Natural Environment, and are part of the Environmental Protection Overlay, and the severed lands are zoned Agricultural as per the Township of Puslinch Comprehensive Zoning By-law No. 023-018, as amended (Township Zoning By-law). Both the retained and severed lots will comply with all provisions of the Township Zoning By-law. The adjustment is also located outside of the areas designated Core Greenlands and Greenlands.

Section 10.4.6 of the County Official Plan provides that lot line adjustments are permitted where no adverse effect on agriculture will occur. No agricultural activities are present on the properties, and as such there are no adverse impacts to the same.

The application proposes a minor lot line adjustment to convey a piece of land [approximately 750m² (0.075 ha) in area] from 4458 Victoria Road South to 4456 Victoria Road South. Further a proposed hydro easement approximately 0.015 hectares (150m²) in area will be established over a portion severed lands in favour of the retained lands. Importantly, this is a continuation of the existing Hydro Easement on the lands registered as INST. LT67493 over Part 2, 61R-8905. The boundary adjustment will result in an enlarged parcel approximately 0.47 hectares in area for 4456 Victoria Road South and retained parcel with an area of approximately 5.3 hectares for 4458 Victoria Road South. No new lots are being created as part of the application.

The purpose of the adjustment is to ensure that the existing pond, which is currently divided by the shared property line between the two parcels, be contained wholly within the rural residential parcel at 4456 Victoria Road South. The boundary adjustment also adds land to the rear yard of 4456 Victoria Road South whilst maintaining a compliant 2.2 metre setback from the existing accessory structure (shed) on the retained lands.

The existing dwelling and accessory structures on both parcels will remain, and no new development is proposed.

The severed lands underwent a Minor Variance application (File No. D13/HOH) to permit a decreased lot frontage of 13.9 metres; the application was approved in 2020. The current consent application will not result in the creation of any zoning deficiencies. Importantly, Minimum Distance Separation (MDS) requirements do not apply to the proposed application as MDS Guideline #8 exempts minor boundary adjustments that do not result in the creation of a new lot.

Re: Lot Line Adjustment Severance Application & Sketch
4458 Victoria Road South; PIN 71195-0681
4456 Victoria Road South; PIN 71195-0253
Part of Lot 21, Concession 8
Township of Puslinch

Please find enclosed an application for a Lot Line Adjustment Severance on the above-mentioned properties. Included with this submission are copies of the Severance Sketch, Completed Application Form, PIN Reports and Map, Required Deeds, Sourcewater Protection Form, a Cheque to the GRCA for **\$465.00** and a Cheque to the County of Wellington for **\$6,000.00**.

Proposal:

The purpose of the lot line adjustment is to sever a small portion of land ($750\pm\text{m}^2$) from #4458 Victoria Road South and merge it with the abutting rural residential parcel at #4456 Victoria Road South for a minor boundary adjustment so that the small pond can be fully within the rural residential parcel (#4456).

A small area of the Severed Parcel also includes a proposed Hydro Easement ($150\pm\text{m}^2$) in favour of the Retained Parcel (#4458). This will be a continuation of the existing Hydro Easement on the Lands to be Added to (#4456) as in INST. LT67493 over Part 2, 61R-8905, in favour of the Retained Parcel (#4458).

The existing dwelling and accessory buildings will remain on each parcel and no development in terms of new buildings is proposed. This is simply a minor boundary adjustment to allow the pond to be within the smaller, rural residential parcel, as the lot line currently runs through the middle of the pond.

The Severed Parcel includes a portion of the pond and some trees with an area of $750\pm\text{m}^2$. The intention is for the proposed boundary limit to be at least 2.2m from the existing Shed on the Retained Parcel, in order to meet zoning (minimum is 2.0m). There is also a wetland feature on the Retained Parcel, however the proposed new limit is about 40m to this feature and not a concern for this application.

The Lands to be Added to (#4456) contains an existing dwelling, well and septic with a lot area of 0.40ha, and this minor boundary adjustment will minimally increase the lot area to about 0.47ha, to encompass the pond feature that is used by the property owner.

www.vanharten.com

The Retained Parcel (#4458) will have a lot area of 5.3ha where the existing dwelling and accessory buildings will remain.

The subject property is zoned Agricultural, Environmental Protection Overlay and Natural Environment, however the Severed Parcel is within the Agricultural zone and the zoning is met for both the Merged Parcel and Retained Parcel. A Minor Variance Application (#D13/HOH) was approved in 2020 during a previous severance application which granted a reduced frontage of 13.9m.

The Minimum Distance Separation (MDS) setbacks are not applicable because of MDS Guideline #8 which indicates that MDS1 is not applicable for purposes such as minor boundary adjustments which do not result in the creation of a new lot.

The subject property has a County of Wellington Official Plan designation of Secondary Agricultural, Core Greenlands and Greenlands. The Severed Parcel is within the Secondary Agricultural designation.

This type of severance follows Section 10.4.6 of the Wellington County Official Plan for Lot Line Adjustments on lands that are designated Secondary Agricultural. This section states that lot line adjustments are permitted where no adverse effect on agriculture will occur and where an undersized lot is made useable given the requirement for sewer and water systems and lot line adjustments are deemed not to create a new lot. There are no agriculture activities on the properties, therefore there are no adverse effects. While the existing rural residential parcel is not technically undersized (0.4ha), it is the at the zoning minimum, and this adjustment will slightly increase the size.

In summary, this proposal allows for a minor boundary adjustment for additional rear yard space to allow the existing small pond to be fully within the rural residential parcel (#4456).

Please call me if you or the Planning Staff have any questions.

Very truly yours,

Hi Jana,

Thank you for providing the above referenced application for review. Since this property is located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), but the activities as indicated, would not create a significant drinking water threat, the application can be screened out and it does not require a Section 59 notice under the *Clean Water Act*. Please note that we may provide comments on any future applications subject to this property, given the vulnerable areas.

Could you let me know if there is a County Planner assigned to this file? We would like to touch base with them, as this is partially in a private communal system policy area.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

Please feel free to contact me if you have any further questions regarding this application.

Thanks!
Jordan

Building: 1. Site plan to be updated to show all on-site buildings, their sizes and location (relative to the property lines). The aerial imagery appears to show more buildings and possible building extensions. There appears to be a larger building nestled amongst the trees near the "outdoor storage".

2. Our building permits on record show a 2,000sf main dwelling, a 32'x56' maintenance shed, and a 72'x40' accessory building. Any other building over 10m² or 15m² (if for storage only) will require a building permit.

3. Confirm the use of the building closest (2.2m) to the new severance. It may need a fire-rated wall, depending on the building's design and use. Pictures of the interior would also be helpful. If upgrades are required, a building permit will be required.

Items #2 & #3 can be addressed as conditions of the severance; item #1 should be addressed by resubmitting an updated site plan.

AMENDED REPORT PDAC-2026-013

TO: Committee of Adjustment Chair and Members of Committee

PREPARED BY: Max Fedchyshak, MCIP, RPP, Senior Planner

PRESENTED BY: Monika Farncombe, Planning and Corporate Services Coordinator

MEETING DATE: August 11, 2026

SUBJECT: County Consent Application File: B20-26
4315 Watson Road South, Township of Puslinch

APPLICANT: VanHarten Land Surveyors & Engineers (Agent), Allan McFee
(Property Owner)

RECOMMENDATION

That Report PDAC-2026-013 entitled Consent Application B20-26 be received for information; and

Whereas the Township has reviewed the proposal to create one new residential parcel along Watson Road South in the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent includes the proposed severance of the subject property (4315 Watson Road South, Township of Puslinch) into two parcels; and

Whereas the severed parcel would be a vacant lot suitable for a future dwelling, featuring a lot frontage of approximately 55 metres, a lot depth of approximately 90 metres, and a lot area of approximately 0.49 hectares; and

Whereas the retained parcel would continue as an agricultural operation, feature a lot frontage of approximately 156 metres along Watson Road South, and an approximate lot depth of 1,032 metres, and a lot area of approximately 37.5 hectares;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends approval of the application subject to the following conditions:

- 1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject property; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.**
- 2. That the Owner obtain zoning compliance for both the merged and retained parcels including but not limited to item 2.1 and 2.2, to be demonstrated to the satisfaction of the Township of Puslinch; should zoning compliance not be achieved, the Owner shall obtain approval of a Zoning By-law Amendment or minor variance, as applicable, to bring the parcels into compliance; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.**
 - 2.1 That the Owner obtain approval of a Zoning By-law Amendment , to the satisfaction of the Township of Puslinch, implementing all measures necessary to ensure compliance with the Minimum Distance Separation (MDS) Guidelines for the severed parcel, including but not limited to the barn located at 4315 Watson Road South. Such amendment may include site specific provisions, but is not limited to, the reclassification of detached structures to accessory structures (storage) to achieve MDS calculations and the prohibition of any existing livestock facilities and manure storage on the retained parcel, or other zoning provisions deemed necessary to achieve MDS compliance. MDS calculations will be required for any new buildings constructed on the retained lands after the passing of the Zoning By-law Amendment that contain livestock and/or manure storage areas, in accordance with Section 4.16 of the Township Zoning By-law, as amended. Upon approval, the Township shall provide written confirmation to the Secretary-Treasurer that this condition has been fulfilled.**
 - 2.2 That the Owner obtains zoning compliance for MDS I, including but not limited to the barn located at the property municipally known as 4342 Watson Road South, for both the severed and retained parcels, and show zoning compliance that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.**

3. That the Owner demonstrate, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.
4. That the Owner demonstrate, to the satisfaction of the Township of Puslinch, that safe access to the severed parcel can be achieved; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.
5. That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant/Owner. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch, upon receipt of any and all fees being paid; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.
6. That the Owner submit a pre-development site plan for the severed parcel to the satisfaction of the Township of Puslinch identifying the proposed dwelling location and setbacks from property lines, driveway location, well and septic system on the severed parcel, and any topographic constraints; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.

Background:

The subject property is municipally known as 4315 Watson Road South, Township of Puslinch, legally described as Part of Lot 27, Concession 10. The subject property is predominantly designated Secondary Agricultural with designated Core Greenlands in southern corner near the Watson Road frontage per the County of Wellington Official Plan (County Official Plan) The subject property is zoned Agricultural in the Township of Puslinch Zoning By-law 023-18, as amended (Township Zoning By-law). The subject property also features an Environmental Protection Overlay, in part. Single detached dwellings are permitted within the applicable Official Plan designation and zoning. The area proposed to be severed is not located within the Core Greenlands designation or the Environmental Protection overlay.

The application proposes the creation of a new residential parcel with an area of approximately 0.49 hectares, approximately 55 metres of frontage along Watson Road South, and a depth of approximately 90 metres. The severed parcel is intended to accommodate a future single detached dwelling.

The retained parcel is proposed to have an area of approximately 37.5 hectares with approximately 156 metres of frontage along Watson Road South, and a lot depth of approximately 1,032 metres. Existing accessory buildings/barns are proposed to remain on the retained lands.

MDS I information sheets were included as part of the submission. A Minimum Distance Separation (MDS I) analysis was completed to evaluate potential compatibility issues with nearby livestock operations. Information sheets were provided for livestock facilities located at 4291 Watson Road South (abutting to the southeast), 4315 Watson Road South (subject property), and 4342 Watson Road South (located west of the subject property). Due to the proximity of more than 3 residential lots the MDS evaluation considered was Type B. Type B land uses generate an MDS I setback that is twice the distance as the MDS I setback for a Type A land use. The MDS analysis determined the following setbacks were required and provided:

Property	Required MDS I Setback	Proposed MDS I Setback
4291 Watson Road South	357 m	425 m
4315 Watson Road South	347 m	85 m
4342 Watson Road South	577 m	310 m

Based on the following, MDS I setbacks are not achieved for the proposed severance. Accordingly, a condition requiring approval of a Zoning By-law Amendment or Minor Variance to address MDS I setbacks has been proposed.

Dear Ms. Turchet:

**Re: Severance Application & Sketch
4315 Watson Road South
Part of Lot 27, Concession 10
PIN 71190-0088
Township of Puslinch**

RECEIVED
JUN 29 2026

Please find enclosed an application for a severance on the above-mentioned property. Included with this submission are copies of the severance sketch, completed application form, PIN Report and Map, the required deeds, MDS Farm Data Sheets, a cheque to the Halton Conservation Authority for **\$2,495.00** and a cheque to the Wellington County for **\$6,000.00**.

Please note that the subject property is within both the GRCA and the Halton Conservation Authority areas. We assume that based on the boundary and existing dwelling and features, it would be Halton Conservation providing a review of this application and the associated fee has been included with this submission. However, if the GRCA also reviews, payment of their invoice will be paid by the property owner.

Proposal:

The proposal is to create a new rural residential parcel along Watson Road South with a frontage of 55±m, depth of 90±m, for a lot area of 0.49±ha. The Severed Parcel was configured primarily around providing a safe entrance for the parcel. After a site meeting with the Township Roads Superintendent, it was determined that a proposed entrance would be permitted 6m south of the existing north-west property line, as shown on the Sketch. The parcel was also configured to meet the zoning requirements in terms of lot frontage and area and to be over 30m clear of the natural features on the Retained Parcel. The severance is an efficient use of open space while adhering to the relevant planning policies.

The Retained Parcel (#4315 Watson Road South) is a large agricultural parcel with a frontage of 156±m, depth of 1032±m, for an area of 37.5±ha where the existing dwelling, barn (unoccupied) and shed will remain. The existing entrance along the eastern boundary will remain, providing continued access to the dwelling.

The subject property is zoned Agricultural, Environmental Protection Overlay and Natural Environment. The zoning requirements are met for the Severed and Retained Parcels. The lot frontage, area and setbacks are easily met for both parcels. However, the only zoning item to be addressed is for Minimum Distance Separation (MDSI) to barns in the area and this is discussed in more detail below.

MDS Review:

The Minimum Distance Separation (MDSI) guidelines have been evaluated for barns within the surrounding area. Our MDS evaluation considered this severance as a Type B scenario as defined in Guideline #34 due to the creation of four or more lots outside a settlement area. If Type A was applied to the application, the minimum requirement would be *half* the amount for each required distances, which would significantly reduce the setbacks.

The first barn reviewed is on the Retained Parcel of the subject property. The barn is relatively old, currently used for storage and has not been used for livestock in 30+ years. Based on an Unoccupied barn with an area of 325±m², the required distance using Type B calculation is 347m, whereas the actual distance to the severed parcel is 85±m and therefore MDS cannot be met. Resolutions to not meeting the MDS compliance can be resolved by one of the three following options:

- Apply for a minor variance to address the deficiency
- Review the building with the Township Building Department to determine if it would not be “reasonably capable of housing livestock”, in which case MDS Guideline 21 indicates that MDS does not apply
- Remove the barn

One of these options will be pursued to allow the severance to proceed.

The second barn evaluated is #4342 Watson Road South. The property contains a large barn that includes a boarding stable and an arena. The MDS form has been signed by the property owner, and using Type B MDS calculation, the required distance is 343m whereas the actual distance is 308±m, therefore MDS is just shy of being met. The intention is to apply for a minor variance to address the deficiency. If Type A were applied, the required distance would be 172m – which would be easily met. The 308m goes to the property line, however the distance to a proposed house on the severed parcel will most likely be outside of the 343m setback. The 343m setback from that barn is shown on the severance sketch and only takes up 15% of the parcel – leaving a large area to build outside the arc of 343m.

The third barn evaluated is #4291 Watson Road South. Based on the MDS Form from the property owner, barn is currently unoccupied, with an area of 358±m² and the required distance using Type B calculation is 357m, whereas the actual distance is 450±m. Therefore, MDS is met for this barn.

Policy Review:

The subject property is within the Secondary Agricultural, Greenlands and Core Greenlands designations of the County of Wellington Official Plan. The property is also partially within the County's Greenbelt Official Plan designation. The Greenbelt OP line essentially follows where the GRCA and Halton Conservation Boundary runs through the property. The Severed Parcel is partially within the Secondary Agricultural designation and partially within the Protected Countryside Greenbelt (Rural Area) designation. There is a pocket of Natural Heritage System Greenbelt designation on the Retained Parcel, that aligns with the Core Greenland designation.

The severance has been configured to be outside of the Natural Heritage System, Core Greenlands, Greenlands designations and has been set to be over 45m to the feature and therefore, will not have a negative impact to any natural features on the Retained Parcel, as the Greenbelt Plan requires a 30m buffer and the severance will not fragment the feature. The proposed lot is beside three other rural residential parcels to the northwest and one across the road, and the severance will fit in with the character of the area.

The Severed Parcel has a designation of Secondary Agricultural in the County of Wellington Official Plan which allows for a severance, provided that the criteria listed in Section 10.4.4 are met. We reviewed this section, and we provide the opinion that the relevant criteria are met including the following:

- Ownership is longer than 5 years.
- No severance since March 2005.
- Safe entrance is available – sight lines have been evaluated with the Township's Roads Department.
- Adequate space for new dwelling and septic.
- No impacts on environmentally sensitive lands, woodlot or floodplain.
- Zoning requirements are met.
- MDS requirements will be addressed through a Minor Variance.

In summary this severance is practical and follows the relevant criteria for a severance.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
Van Harten Surveying Inc.

Whereas the Township has reviewed the proposal to create one new rural residential parcel with frontage along Wellington Road 35 in the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent includes the proposed severance of the subject property (4121 Wellington Road 36) into two parcels; and

Whereas the severed parcel would be a vacant lot intended for a future rural residential development, featuring a lot frontage of approximately 62.96 metres, a lot depth of approximately 99.06 metres, and a lot area of approximately 0.6 hectares; and

Whereas the retained parcel would be retained for agricultural purposes, feature a lot frontage of approximately 387.28 metres along Concession 1 Road, a lot depth of approximately 1,013 metres and a lot area of approximately 39.7 hectares;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends refusal of the application based on the following:

- 1. The subject property is designated as Prime Agricultural per Schedule B7 of the County of Wellington Official Plan (County Official Plan). Per Section 4.3.3 of the Provincial Planning Statement (PPS, 2024), lot creation in prime agricultural areas is discouraged and may only be permitted in accordance with the following provincial guidelines:**
 - a. Agricultural uses;**
 - b. Agricultural-related uses;**
 - c. A residence surplus to a farming operation;**
 - d. Infrastructure purposes**

Further, Section 10.3.1 of the County Official Plan reinforces the Provincial policies by stating that within Prime Agricultural Areas lot creation is only permitted for:

- e. Agricultural uses;**
- f. Agricultural-related uses;**
- g. A residence surplus to a farming operation;**
- h. Lot line adjustments;**
- i. Community service facilities;**

Accordingly, as the proposed lot creation for a vacant lot for future rural residential development does not fall within any of the permitted forms of lot creation in Prime Agricultural Areas, the Township finds that the application is not consistent with the PPS and does not conform to the County Official Plan and recommends refusal.

Should the County approve the application, the following conditions shall apply:

- 1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject property; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.**
- 2. That the Owner obtain zoning compliance for both the severed and retained parcels including but not limited to item 2.1, to be demonstrated to the satisfaction of the Township of Puslinch; should zoning compliance not be achieved, the Owner shall obtain approval of a Zoning By-law Amendment or minor variance, as applicable, to bring the parcels into compliance; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.**

- 2.1 That the Owner obtains zoning compliance for MDS I, including but not limited to the barn located at 4227 Wellington Road 35 and 6920 Concession 1 Road, and show zoning compliance for the severed parcel that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.**
- 3. That the Owner demonstrate, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.**
- 4. That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant/Owner. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch, upon receipt of any and all fees being paid; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.**
- 5. That the Owner submit a pre-development site plan for the severed parcel to the satisfaction of the Township of Puslinch identifying the proposed dwelling location and setbacks from property lines, driveway location, well and septic system on the severed parcel, and any topographic constraints; and further that the Township file a letter of clearance with the Secretary Treasurer of the Planning and Land Division Committee.**

Background:

The subject property is municipally known as 4121 Wellington Road 36, Township of Puslinch, and are legally described as Part of Lot 16, Concession 1.

The subject property is predominantly designated as Prime Agricultural with designated Core Greenlands in proximity to the Concession 1 Road frontage in the County Official Plan. The subject property is predominately zoned Agricultural and is also zoned Natural Environmental in part near the Concession 1 Road frontage in the Township of Puslinch Zoning By-law 023-18, as amended (Zoning By-law).

The application proposes the creation of a new rural residential parcel via severance. The severed lot is proposed to feature an area of approximately 0.6 hectares, a lot frontage of approximately 62.96 metres, a lot depth of approximately 99.06 metres. The retained parcel would be retained for agricultural purposes, feature a lot frontage of approximately 387.28 metres along Concession 1 Road, a lot depth of approximately 1,013 metres and a lot area of approximately 39.7 hectares.

Section 4.3.3 of the PPS 2024, discourages lot creation in prime agricultural areas. Lot creation within these areas may only be permitted in accordance with the following provincial guidelines:

- a. Agricultural uses;
- b. Agricultural-related uses;
- c. A residence surplus to a farming operation;
- d. Infrastructure purposes

Section 10.3.1 of the County Official Plan reinforces the Provincial policies by stating that within Prime Agricultural Areas lot creation is only permitted for:

- a. Agricultural uses;
- b. Agricultural-related uses;
- c. A residence surplus to a farming operation;
- d. Lot line adjustments;
- e. Community service facilities;

The proposed lot creation for a vacant lot for future rural residential development does not fall within any of the permitted forms of lot creation in Prime Agricultural Areas. Accordingly, the application is not consistent with the PPS and does not conform to the County Official Plan.

A Minimum Distance Separation (MDS I) analysis was completed to evaluate potential compatibility issues with nearby livestock operations. The closest livestock facility is located immediately north at 4227 Wellington Road 35. An MDS I Farm Data Sheet was included as part of the submission for this property. It was noted that 4227 Wellington Road 35 currently does not house any livestock facilities, therefore the analysis reviewed the maximum potential capacity based on the area of the barn. The MDS analysis for this property determined the required setback distance is 243 metres whereas approximately 238 metres is provided for the severed lot. Based on the foregoing, if approved, zoning relief will be required for MDS in accordance with Section 4.16 of the Township Zoning By-law.

Further, it appears 6920 Concession 1 Road, located immediately east of the subject property, contains structures suitable for livestock however no MDS information sheet was provided. Further information regarding MDS impacts for this property is required to confirm any potential MDS impacts.

Attention: Ms. Deborah Turchet

Dear Ms. Turchet:

**Re: Severance Application & Sketch
4121 Wellington Rd. 35
Part of Lot 16, Concession 1
Part 1, 61R-10544
Township of Puslinch**

Please find enclosed an application for a severance on the above-mentioned property. Included with the submission are copies of the severance sketch, completed application form, the deed, MDS Farm Data Sheet, a cheque to the GRCA for \$465.00 and a cheque to Wellington County for \$6,000.00.

Background:

The Paddocks have owned land and farmed in Puslinch township since Captain Thomas Paddock came from England and bought the properties around 1840. In more recent years (1954 – 2020), the properties were farmed by my father, F. Stewart Paddock. He dedicated his time and energy to farm the land and enhance the environment through conservation efforts that involved participating in the Environmental Farm Plan and working with the Grand River Conservation Authority to protect Mill Creek. Upon his death, I inherited the 100 acres located at Concession 1, South Part Lot 16 and would like to continue the work and dedication the Paddocks have put into being good stewards of the land.

To this end, we are interested in participating in the Mill Creek Reserve project. The Mill Creek wetland complex consists of 1800 acres of provincially significant wetlands. The project involves land owners along the Mill Creek working with the RARE Charitable Research Reserve to protect the environmentally sensitive lands. The farmland we own is included in Phase 1 of the project and will involve working with the Ontario Farmland Trust to donate a Farmland Conservation Easement over the property and then, through our Estate, to gift the property to the RARE Charitable Research Reserve. While the Mill Creek runs through an adjacent property to ours, it is the income generated from cash crop farming that will help to cover the costs of maintaining the reserve.

A Farmland Easement Agreement with the Ontario Farmland Trust is a permanent legal agreement that ensures the farmland is protected forever. It's registered on the property title and runs with the land in perpetuity, meaning that the farmland will be protected and land uses that are not compatible with agriculture and conservation purposes are restricted.

Rather than sell the farm and use the proceeds to fund our retirement and aging in place, we'd like to generate funds from the sale of a building lot for that purpose. Our goal is to set the farm up so that it can continue the legacy that Captain Thomas Paddock started almost 200 years ago; a legacy of responsible farmland stewardship and protection of the biodiversity and ecological health of the property and the Mill Creek wetland complex.

Proposal:

The subject property is a 99.58 acre parcel of farmland located at 4121 Wellington Road 35 in Puslinch Township (61R10544 Parts 1 to 3). The proposal is to sever a 1.5 acre lot for rural residential purposes.

In question 24, we indicated that the application is consistent with the Provincial Policy Statement as per Section 4.3.1.2 where it states that prime agricultural areas shall be designated and protected for long-term use for agriculture. We believe this to be true due to the intent to place a farmland conservation easement over the acreage remaining after the severance. The farmland easement agreement is a permanent lasting legal agreement that is registered on property title. The agreement applies to all future owners and ensures the land use is dedicated to agriculture. The easement supersedes municipal and provincial land use planning designations, ensuring that any future non-agricultural use remains prohibited because of the permanent easement on title.

We have signed a Letter of Intent with the Ontario Farmland Trust to started the process to have the property considered for a Farmland Easement Agreement. A copy of the signed Letter of Intent is attached. Our proposal is that if a severance is granted, it be on condition that the retained property is accepted by the Ontario Farmland Trust for the creation of a conservation easement over the property.

More information on the Ontario Farmland Trust can be found on their website;

Please feel free to contact me if you or the Planning Staff have any questions.

Attn: Martin Straathof, Executive Director

Dear Martin Straathof,

Re: Donation of Conservation Easement
PT LT 16 CON 1 TOWNSHIP OF PUSLINCH BEING PTS 1, 2 & 3,
61R10544; TOWNSHIP OF PUSLINCH S/T EASEMENT IN FAVOUR OF
UNION GAS LIMITED OVER PT

I, Gwendolyn Paddock, as the beneficial and registered owner of certain property in Wellington County and generally described above and containing approximately 100 acres, intend to donate a conservation easement over the property, as noted above, to the Ontario Farmland Trust (OFT). I confirm that my decision to donate this conservation easement has been freely and voluntarily made by me.

Title to the lands are held solely by me with no other interests, liens or encumbrances upon title, and the conservation easement donation will be made without any other interests, liens or encumbrances being registered upon title prior to completion of the transaction.

I understand that it has been strongly recommended by OFT that we consult professional, independent tax and legal advisors to discuss all implications of this conservation easement donation.

I also understand that in order to successfully carry out its mission and projects, it is essential that OFT raise funds from organizations such as the Ontario Land Trust Alliance, foundations and the general public on an on-going basis. I, the owner, have no objection to OFT raising funds from these sources to assist in completing the costs of this transaction.

I also understand that as part of the effort to raise funds and promote the mission, OFT will document the process with photos, video, and written content. I, the owner, consent to the Ontario Farmland Trust utilizing such photography, videography, and/or written content with faces, names, and images that features us and our property, and hereby release such content to be under the ownership of OFT.

REPORT PDAC-2026-015

TO: Planning and Development Advisory Committee Chair and Members of Committee

PREPARED BY: Max Fedchyshak, MCIP, RPP, Senior Planner

PRESENTED BY: Monika Farncombe, Planning and Corporate Services Coordinator

MEETING DATE: August 11, 2026

SUBJECT: County Consent Application File: B24-26
19 & 20 Lakeside Drive, Lots 19, 20 & 21 & Part of Lakeside Drive,
Registered Plan 380, Township of Puslinch

APPLICANT: Christina Keidinger-Krebs (Property Owner)

RECOMMENDATION

That Report PDAC-2026-015 entitled Consent Application B24-26 be received for information; and

Whereas the Township has reviewed the proposal to adjust the boundary between 19 Lakeside Drive and 20 Lakeside Drive within the Township of Puslinch for the purpose of providing its comments to the approval authority, the County of Wellington Land Division Committee; and

Whereas the request for consent proposes a minor lot line adjustment to transfer approximately 129 m² of land from 20 Lakeside Drive to 19 Lakeside Drive, resulting in a merged parcel of approximately 919 m² for 19 Lakeside Drive and a retained parcel of approximately 1,311 m² at 20 Lakeside Drive; and

Whereas the lands 20 Lakeside Drive contain an existing one-storey brick dwelling, septic system and well, and a portion of a wheelchair ramp. The additional lands are requested to resolve the existing encroachment of the wheelchair ramp to ensure it is contained wholly on the enlarged parcel (19 Lakeside Drive);

Whereas the lands at 20 Lakeside Drive and 19 Lakeside Drive currently feature a shared driveway. The boundary adjustment will also provide sufficient space for a new driveway which is also proposed as part of the application;

Therefore, that the Planning and Development Advisory Committee, in consultation with Township staff, recommend that the Township submit the following comments to the County Land Division Committee for consideration:

That the Township of Puslinch Planning and Development Advisory Committee recommends approval of the application subject to the following conditions:

1. That the Owner satisfy all the requirements of the Township of Puslinch, financial and otherwise (including but not limited to taxes paid in full and Consent Review and Safe Access Clearance Fees), which the Township may deem necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject lands; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.
2. That the Owner obtain zoning compliance for both the merged and retained parcels including but not limited to items 2.1 and 2.2 to be demonstrated to the satisfaction of the Township of Puslinch; should zoning compliance not be achieved, the Owner shall obtain approval of a Zoning By-law Amendment or minor variance, as applicable, to bring the parcels into compliance; and further that the Township file a letter of clearance with the Secretary-Treasurer of the Planning and Land Division Committee.
 - 2.1 That the Owner obtains zoning compliance for reduced lot area for both the retained and merged parcels, and show zoning compliance that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.
 - 2.2 That the Owner obtains zoning compliance for reduced lot frontage for both the retained and merged parcels, and show zoning compliance that the Township of Puslinch file with the Secretary-Treasurer of the Planning and Land Division Committee, a letter of clearance of this condition.
3. That any fees incurred by the Township of Puslinch for the review of this application, including costs associated with the retention of subconsultants, will be the responsibility of the applicant. This condition will not be cleared until any and all fees have been paid to the Township of Puslinch and a letter

of clearance of this condition is received by the Secretary Treasurer of the Land Division Committee from the Township of Puslinch.

- 4. That the owner demonstrate, to the satisfaction of the Township of Puslinch, that both the retained lands and the severed lands are in compliance with all applicable Township by-laws and municipal requirements, including the resolution of any outstanding by-law enforcement matters, permits, approvals, and orders.**

Background

The subject lands consist of 19 Lakeside Drive and 20 Lakeside Drive, legally described as Lots 19, 20 & 21, Part of Lakeside Drive, Registered Plan 380, and identified as PIN 71207-0352 (retained lands) & PIN 71207-0351 (lands to be enlarged).

Both properties are designated Secondary Agricultural and are subject to Policy 9.8.2 in the County of Wellington Official Plan (County Official Plan) and are zoned Resort Residential (RR) as per the Township of Puslinch Comprehensive Zoning By-law No. 023-018, as amended (Township Zoning By-law). Single detached dwellings are permitted within the applicable Official Plan designation and zoning.

The application proposes a lot line adjustment to convey an irregularly shaped strip of land (approximately 6.15 metres wide at the frontage, then narrowing to 1.12 metres and equating to 129 m²) from 20 Lakeside Drive to 19 Lakeside Drive. This would result in a merged parcel of approximately 919m² for 19 Lakeside Drive, and a retained parcel of approximately 1,311m² for 20 Lakeside Drive. No new lots are being created as part of the application.

The purpose of the lot line adjustment is to ensure that the existing wheelchair ramp, which currently encroaches onto 20 Lakeside Drive, is fully contained within the enlarged parcel at 19 Lakeside Drive, and to provide sufficient space for a private driveway to serve 19 Lakeside Drive, thereby eliminating the need for the current shared driveway.

Both the retained and enlarged parcels will be deficient in terms of lot area and lot frontage, as such, future zoning compliance will need to be demonstrated via either Minor Variance or Zoning By-law Amendment.

Summary of Agency/Staff/Public Comments:

1. Township Planning comments:

Regulation & By-law Section	Required	Proposed (retained parcel)	Proposed (enlarged parcel)
Minimum Lot Area (Section 6.3)	0.4 ha	0.13 ha	0.09 ha
Minimum Lot Frontage (Section 6.3)	25 m	22.03 m	21.27 m
Minimum Required Front Yard (Section 6.3)	6 m	24.6 m	14.8 m
Minimum Required Interior Side Yard (Section 6.3)	3 m	3.09 m	4.12 m
Minimum Required Rear Yard (Section 6.3)	6 m	> 6 m	> 6m

2. Conclusion

In conclusion, the Township planning staff recommends that the Committee support approval of the application with conditions as noted. Staff trust that this report will be of assistance to the Committee in their consideration of this matter and providing comments to the County Land Division Committee accordingly.

Lot Line Adjustment between 19 Lakeside Dr and 20 Lakeside Dr.

19 Lakeside Dr. Is looking for a lot line adjustment to accommodate their own driveway without impinging on the septic weeping bed. As well, this will accommodate the concrete wheelchair ramp that was installed in 2020.

The properties are held by husband - Ralph Krebs 19 Lakeside Dr. - and myself - Christina Heidinger-Krebs formally with my parents at 20 Lakeside Dr.

When we built the house at #19, in order to accommodate a proper septic bed, my parents allowed us to share a driveway. Now that my parents have passed, and there may be a time where we will not have a family member next door, the request for the lot line adjustment is being submitted.

The second reason, is my husband - Ralph Krebs- became disabled in fall of 2019 - just as we were doing renovations. The renovation plan was changed and we designed the house to be accessible including a wheel chair ramp that extended onto my parents property by about 2 feet. Thereby, the request to extend the side yard by 2 ft in case non family members eventually own the house.

See attached sketch.

Section 10.4.6 of the Official Plan

where we find lot line adjustments b) undersized lot is made useable given the requirement for appropriate sewer systems

Section 10.2

regarding the Greenland System where “ the lot provides minor boundary adjustment or correction of title and does not require any activity which would impair Greenland features or function”

I did reach out to GRCA - Andrew Herman Feb 2025. He did not have any concerns and printed a map with the appropriate adjustment (copied and included)

Section 10.1.3

- includes requirements for applications to be consistent with zoning regulation
- that all lots have access to an all-season maintained public road. This would be to Concession 1 , the lots 19 and 20 have direct access to private road Lakeside Dr. Then McCormicks lane to Concession 1

Township of Puslinch

Both lots are zoned RR- resort residential

The zoning by law has

- 1) Minimum required LotSize - 0.4 ha
- 2) Minimum required Lot Frontage - 20 m
- 3) Minimum required Interior Side Yard - 3m

After talking with Mehul Safiwala (then with the Township of Puslinch planning department) the Sideyard is suitable, but the minimums for the Lot Size and Lot Frontage will require a Minor Variance during this process . I was informed this will be done at the same time by the Committee of Adjustment .

Hi Jana,

Thank you for providing the above referenced application for review. Since this property is located in a vulnerable area (wellhead protection area, issues contributing area, intake protection zone etc.), but the activities as indicated, would not create a significant drinking water threat, the application can be screened out and it does not require a Section 59 notice under the *Clean Water Act*. Please note that we may provide comments on any future applications subject to this property, given the vulnerable areas.

I have attached a map showing the property and Wellhead Protection Areas for your reference.

Please feel free to contact me if you have any further questions regarding this application.

Thanks!
Jordan
